*Cultural Portraits* William Carey Publishing

A chronicle of the history of Ethiopia from the 1974 upheaval to the present.

*Ethiopia Observer* [libreriauniversitaria.it/edizioni](http://libreriauniversitaria.it/edizioni)

Today's global educational environment includes the emergence of adult learners participating in formal and informal educational encounters for the purposes of professional development or personal enrichment. These learners must possess the conceptual and attitudinal idea of self-directed learning in order to be skilled workers and fulfilled human beings. *Self-Directed Learning Strategies in Adult Educational Contexts* is a critical scholarly publication that examines the impacts of self-directed learning methods and strategies on adult learning in various formal and informal learning situations and educational encounters. Featuring topics such as andragogy, learning analytics, and educational technologies, this book is geared toward adult educators, administrators, principals, professors, human resource managers, educational professionals, and researchers working in the fields of andragogy, adult learning theory, professional development, instructional technology, and curriculum development.

*Development in Ethiopia* The Red Sea Press

"The central theme of this book is the role of education in the formation of a political class during and after the European colonial period in Africa. The volume focuses on the various actors that informed and were part of this process, such as African intellectuals and political leaders, colonial troops, European missionaries and administrators. At the same time, the collection analyses the historical processes connected to the emergence and development of a new African leadership, such as the creation of a colonial school system, the transformation of urban spaces, the development of new environmental policies and the processes of nation-building after independence. The volume is made up of twelve contributions: four on Ethiopia, two on Eritrea, two on the Sudan, one on Somaliland, two on Tanzania and one on Ghana." --

*The Ethiopian Army* Northwestern University Press

While two-year and community college institutions are called by different names and may not all be structured the same around the world, their core mission remains consistently: to respond to the needs of their local community. This volume examines various two-year and community college institutions worldwide.

Building an effective, inclusive, and accountable public administration has become a major point of attention for policymakers and academics in Ethiopia who want to realise sustainable development.

This first handbook on Ethiopian Public Administration is written by Ethiopian academics and practitioner-academics and builds on PhD studies and conference papers, including studies presented at the meetings of the Ethiopian Public Administration Association (EPAA), established in 2016. *Public Administration in Ethiopia* presents a wide range of timely issues in four thematic parts: Governance, Human Resources, Performance and Quality, and Governance of Policies. Each of the individual chapters in this volume contributes in a different way to the overarching research questions: How can we describe and explain the contexts, the processes and the results of the post-1990 politico-administrative reforms in Ethiopia? And what are the implications for sustainable development? This book is essential for students, practitioners, and theorists interested in public administration, public policy, and sustainable development. Moreover, the volume is a valuable stepping stone for PA teaching and PA research in Ethiopia.

Revolution, civil wars, and guerilla warfare wracked Ethiopia during three turbulent decades at the end of the 20th century. Here, Tareke brings to life the leading personalities in the domestic political struggles, strategies of the warring parties international actors, and key battles.

**IJER Vol 26-N4** Routledge

From a war-torn and famine-plagued country at the beginning of the 1990s, Ethiopia is today emerging as one of the fastest-growing economies in Africa. Growth in Ethiopia has surpassed that of every other sub-Saharan country over the past decade and is forecast by the International Monetary Fund to exceed 8 percent over the next two years. The government has set its eyes on transforming the country into a middle-income country by 2025, and into a leading manufacturing hub in Africa. *The Oxford Handbook of the Ethiopian Economy* studies this country's unique model of development, where the state plays a central role, and where a successful industrialization drive has challenged the long-held erroneous assumption that industrial policy will never work in poor African countries. While much of the volume is focused on post-1991 economic development policy and strategy, the analysis is set against the background of the long history of Ethiopia, and more specifically on the Imperial period that ended in 1974, the socialist development experiment of the Derg regime between 1974 and 1991, and the policies and strategies of the current EPRDF government that assumed power in 1991. Including a range of contributions from both academic and professional standpoints, this volume is a key reference work on the economy of Ethiopia.

In the current educational environment, there has been a shift towards online learning as a replacement for the traditional in-person classroom experience. With this new environment comes new technologies, benefits, and challenges for providing courses to students through an entirely digital environment. With this shift comes the necessary research on how to utilize these online courses and how to develop effective online educational materials that fit student needs and encourage student learning, motivation, and success. The optimization of these online tools requires a deeper look into curriculum, instructional design, teaching techniques, and new models for student assessment and evaluation. Information on how to create valuable online course content, engaging lesson plans for the digital space, and meaningful student activities online are only a few of many current topics of interest for promoting student achievement through online learning. *The Research Anthology on Developing Effective Online Learning Courses* provides multiple perspectives on how to develop engaging and effective online learning courses in the wake of the rapid digitalization of

education. This book includes topics focused on online learners, online course content, effective online instruction strategies, and instructional design for the online environment. This reference work is ideal for curriculum developers, instructional designers, IT consultants, deans, chairs, teachers, administrators, academicians, researchers, and students interested in the latest research on how to create online learning courses that promote student success.

*Higher Education in Ethiopia* IGI Global

The Ethiopian popular revolution of 1974 ended a monarchy that claimed descent from King Solomon and the Queen of Sheba, and brought to power a military government that created one of the largest and best-equipped armies in Africa. In his panoramic study of the Ethiopian army, Fantahun Ayele draws upon his unprecedented access to Ethiopian Ministry of Defense archives to study the institution that was able to repel the Somali invasion of 1977 and suppress internal uprisings, but collapsed in 1991 under the combined onslaught of armed insurgencies in Eritrea and Tigray. Besides military operations, The Ethiopian Army discusses tactical areas such as training, equipment, intelligence, and logistics, as well as grand strategic choices such as ending the 1953 Ethio-American Mutual Defense Agreement and signing a treaty of military assistance with the Soviet Union. The result sheds considerable light on the military developments that have shaped Ethiopia and the Horn in the twentieth century.

At a time when policies are increasingly against it, international migration has become the subject of great public and academic attention. This book departs from the dominant approach of studying international migration at macro level, and from the perspective of destination countries. The contributors here seek to do more than 'scratch the surface' of the migration process, by foregrounding the voices and views of Ethiopian youth-potential migrants and returnees-and of their sending communities. The volume focuses on the perspective and agency of these young people, both potential migrants and returnees, to better understand migration decision-making, experiences and outcomes. It brings together rarely documented cases of young men and women from several communities across Ethiopia, migrating to the Gulf and South Africa. Explaining the agency of local actors-prospective migrants, brokers and sending families-Youth on the Move illuminates the pervasive, persistent failure of state attempts to regulate migration. Moreover, it examines the financing of migration and the sharing of remittances, within a culturally situated moral economy. While accounts centered on economics and political violence are important, the contributors demonstrate compellingly that these factors alone cannot provide a full understanding of migration's complexity, nor of its social realities.

This book is a comprehensive account of the Ethiopian revolution, dealing with the entire span of the revolutionary government's life. Particular emphasis is placed on effectively isolating and articulating the causes and outcomes of the revolution. The author traces the revolution's roots in the weaknesses of the autocratic regime of Haile Selassie, examines the formative years of the revolution in the mid-seventies, when the ideology of scientific socialism was espoused by the ruling military council, and finally charts the consolidation of Mengistu Haile Miriam's power from 1977 to the adoption of a new constitution in 1987. In examining these events, Dr Tiruneh makes extensive use of primary sources written in the national official language. He was also the first Ethiopian nation to write a book on this subject. This book is thus a unique account of a fascinating period, capturing the mood of the revolution as never before, yet firmly grounded in scholarship.

This book focuses on higher education in Ethiopia, analysing persisting inequalities and policy responses against the backdrop of the extensive expansion and reform that the system has experienced in recent years. Drawing on empirical data generated through interviews, policy reviews and focus-group discussions, it explicates factors of structural inequality ranging from neoliberal policy orientations to repressive gender culture and geo-political peripherality. In a departure from conventional studies that consider policy a response to social problems, the book takes a critical perspective to show the constitutive role of policy, and explains how the representation of the problem of social inequality undermines equity policy outcomes in Ethiopian higher education. Not only does the book problematise the framing of the problem of inequality in the system, it also outlines strategies for designing transformative equity instruments. In explaining structural factors of inequality and equity provisions, the book productively combines sociological concepts with historical accounts and political economy insights. Given the increased economic optimism associated with higher education in sub-Saharan Africa and the neoliberal ideals underpinning much of the restructuring of the system in the region, this is a timely and important contribution that sheds light on the social justice implications and consequences of such changes. It offers fresh accounts of largely neglected qualitative cases of inequality, making it a valuable read for students and researchers in the areas of Ethiopian education policy studies, international and comparative education, and international development.

The main purpose of this study was to investigate the impact of cost sharing scheme in enhancing revenue generation in public higher education in Ethiopia in order to improve the quality of the teaching and learning environment. Furthermore, the study has attempted to assess problems/challenges experienced by students as well as other government bodies related to cost sharing scheme. To this effect, both quantitative and qualitative research approaches were used.
