and the Modern State*

Primento

In many ways, the European welfare state constituted a response to the new forms of social fracture and economic turbulence that were born out of industrialization—challenges that were particularly acute for groups whose integration into society

seemed the most tenuous. Covering a range of national cases, this volume explores the relationship of weak social ties to poverty and how ideas about this relationship informed welfare policies in the nineteenth and twentieth centuries. By focusing on three representative populations—neglected children, the homeless, and the unemployed—it provides a rich,

comparative consideration of the shifting perceptions, representations, and lived experiences of social vulnerability in modern Europe.

L'ampleur des enjeux humains, économiques et sociaux posés par la question des solidarités entre générations a conduit l'International society of Family Law (ISFL) à choisir ce thème pour son XVe congrès mondial. Plus de 200 intervenants, venus de 50 pays, ont abordé ces questions sous l'angle juridique, mais aussi philosophique, économique et anthropologique. Cet ouvrage présente une partie de ces communications organisées autour de

deux grands thèmes : l'enfant au cœur des solidarités familiales et la prise en charge des aînés par la famille. Des phénomènes tels que l'allongement de la durée de la vie, l'urbanisation des populations, la difficulté d'entrée sur le marché du travail ou encore l'éclatement des modèles familiaux traditionnels marquent notre monde contemporain et impliquent la disparition d'anciennes solidarités et l'apparition de nouvelles solidarités redessinant les relations entre générations, posant alors le problème du sort des personnes les plus fragiles : les enfants, les malades, les handicapés et, surtout, les personnes âgées. – Quel est alors

le rôle de la famille et des collectivités dans la protection de ces personnes ? - Quels rapports entre solidarités publiques et solidarités privées ? - Quels sont les droits et libertés reconnus aux personnes que l'âge, la maladie ou le handicap, placent en situation de dépendances ? Telles sont les questions au cœur de cet ouvrage. The importance of the human, economic and social issues caused by the question of generations' solidarities led the International Society of Family Law to choose this theme for its XVIth World Congress (Lyon, July 19-23rd 2011). More than 200 speakers from 50 countries studied these questions from the legal angle, but also

philosophic, economic and anthropological. This work collects a part of these papers about two great issues: the child, as the center of family solidarities; and the support for elders by family. Phenomena such as increasing life expectancy, population urbanization, labor-market entry barriers, decline of traditional family patterns, mark in depth our contemporary world and involve old solidarity disappearance and new solidarity emergence, reshaping relations between generations while bringing up the problem of the fate of the most vulnerable: children, the sick, disabled, and especially elderly people. - What then is

the role of families and communities in protecting these people? – What is the relationship between public and private solidarity? – What are the rights and freedoms of people placed by age, illness or disability in a dependence situation? These are the issues addressed by the authors of this book.

Les travaux dirigés sont les compléments indispensables du cours magistral dans l'enseignement du droit. L'étudiant acquiert, à cette occasion, les méthodes du raisonnement juridique et s'initie aux exercices proposés aux

examens. Ce livre a deux objectifs : illustrer des thèmes de travaux dirigés à l'aide de décisions de justice, de textes de lois et de cas pratiques ; apprendre aux étudiants à réaliser les exercices qui leur seront demandés au cours de leurs études, et lors des examens. L'ouvrage replace chaque thème dans les développements plus généraux de la matière, et expose les connaissances indispensables aux étudiants. Chaque thème est illustré par des exercices usuels (commentaire d'arrêt, consultation, dissertation), suivis de directives de préparation et de corrigés. Il est aussi accompagné des textes régissant la matière, et d'une bibliographie.

L'ouvrage a été spécialement conçu pour aider les étudiants de premier cycle à faire les premiers pas dans l'apprentissage du droit civil.

Western law, based on agriculture and industry, cannot deal with the virtual worlds created by the Internet, argues Mancini. The ancient Romans and Egyptians, on the other hand, were adept at virtuality, an intangible world that intersected with the tangible one, and it is to their laws that she turns for new frameworks and practices. Her study was accepted at a doctoral dissertation at the French National Scientific Research Center Annotation

This book compares how the American draft system and the French conscription system came to be. Although the French and American conscription systems were very different from one another, they had some surprising similarities, especially during the first half of the twentieth century. French and American leaders were concerned with military service's effects on men's family life, as conscription removed men from their homes, and soldiers could be injured or never return home. These concerns influenced how

conscriptio was organized in each country.

This Casebook deals with the horizontal effects of EU law, which is to say its effects on relationships between individuals. To a large extent, these effects have been created by the Court of Justice of the European Union (CJEU) on the basis of the European Treaties. The main focus of the Casebook is on the developments relating to primary EU law and their influence on national private law. It studies instances where EU primary law has already directly or indirectly influenced the case law in the Member States, or where it is expected to do so soon. Compared to the well-known impact of EU directives

on private law, these developments concerning primary EU law are hardly noted by private lawyers and perhaps not sufficiently explained by scholars of EU law. Therefore the book makes an important contribution to scholarship and education. This book highlights developments in the areas of competition law, fundamental freedoms, non-discrimination, general principles of EU law, ex officio application of provisions of EU law and implementation of directives, including harmonious interpretation and Francovich liability. In its analysis of the ways in which EU law interacts with private law, the book will be an invaluable resource to students, practitioners

and academics of EU private law.

In May 2009, Supreme Court Justice David Souter announced his intention to retire from the Supreme Court. Several weeks later, President Obama nominated Judge Sonia Sotomayor, who currently serves on the U.S. Court of Appeals for the Second Circuit, to fill his seat. This report provides an analysis of selected opinions authored by Judge Sotomayor during her tenure as a judge on the Second Circuit. Discussions of the selected opinions are grouped according

to various topics of legal significance. Perhaps the most consistent characteristic of Judge Sotomayor's approach as an appellate judge has been an adherence to the doctrine of stare decisis, i.e., the upholding of past judicial precedents.
