## KAILEY JOHN

The Dreamtime Voyage Imray Laurie Norie & Wilson Limited  
Italian Waters Pilot is the only guide for yachtsmen in English that covers the coasts of the Tyrrhenian Sea, Sardinia, Sicily, the Ionian 'heel' and Malta in one volume. This new tenth edition builds on first-hand research by the authors through the Tuscan islands, along the Tyrrhenian and Ionian coasts, to Sardinia and Sicily, Malta and Gozo. Numerous revisions have been made throughout, with the text, plans and photographs undergoing a complete overhaul. Care has been taken to research the details of marina developments. Where it has been available information is given on proposed changes and extensions to yacht harbours. Marine reserves are now an important feature of the coasts and off-lying islands, particularly in Sardinia and Sicily, and this edition provides updated details of the latest regulations. Climate change and extreme weather events are becoming a major issue and this edition includes a section on the how climate change might affect sailing in the Mediterranean. Italian Waters Pilot is the last word on the area for yachts cruising there and on their way between western and eastern parts of the Mediterranean.

The expanded third edition of this popular cruising guide encompasses the Greek Dodecanese islands and the Turkish coast eastwards from the Samos Strait to Kas and Kekova. Fully illustrated with up to date plans and numerous new photographs, it is packed with all the essential information for getting to the area, formalities and sailing these beautiful cruising grounds. There is a level of further detail to this coverage in terms of anchorages and other destinations than is found in the Heikell's Greek Waters Pilot and Turkish Waters and Cyprus Pilot. This handy guide also whets the appetite for the local cuisine and

culture and gives some historic context to exploration ashore. The fantastic background information with historical and mythological anecdotes gives ... a richness too often missing from bald pilot guides. Royal Cruising Club ... no East Med cruiser will want to sail without a copy. Yachting Monthly

The book also contains information on expedition planning, instructional methods, and sea kayaking for people with disabilities. Eskimo rolling, the art of righting yourself after capsizing, is the essential kayaking survival skill. Based on ancient techniques used by the Inuit, modern day rolling methods, such as the beginner's Pawlata Roll or the popular Screw Roll, draws on the skills used for generations. This new edition details 16 eskimo rolls from the basic to the advanced, with step-by-step instructions and accompanying illustrations for instructors, seasoned veterans or learners. To ensure that you are fully prepared for rolling, there are practices for the basic strokes and techniques included as well as confidence building exercises."

There has not been a guide in English to the Inland Waterways of Belgium since E E Benest's handbook went out of print in the

early 1960's. Jacqueline Jones' new guide provides detailed coverage for anyone interested in this under-rated waterway network. It is a fascinating cruising area in it's own right, with contrasting canals and navigable rivers that thread their way across both the lowlands of Flanders and the massif of the Ardennes. The Belgian waterways link Northern France with the Netherlands and Germany and this work will be essential for boats crossing borders. Jacqueline Jones's new waterway-by-waterway guide provides all the essential information for navigation, as well as details about things to do and places to see in Belgium's historic cities. Fully illustrated with clear maps and the author's photography, this book is a must for anyone cruising Belgium or en-route to the French or Dutch canals. This book comes with a folded map of the Belgian Waterways System.
