ELENA JOSHUA

Introduction to Puppetry Arts New York : Abrams
Provides detailed instructions for inventing and constructing string puppets and staging a marionette

production.
Puppetry: How to Do It
University of Iowa Press
This book is a comprehensive history of the most successful straight-to-video horror franchise of all time: Puppet Master. It provides an in-depth exploration of

all 14 films to date-- including a made-for-TV crossover and a theatrical reboot--and the action figures, comics, and other merchandise that have helped to keep the brand alive for the past 30 years. Puppet

Master was the first film for independent producer extraordinaire Charles Band's Full Moon Entertainment, launching a franchise and a micro-budget studio that have both continued to this day. What led to the film's success? How did a little movie about killer puppets, designed to cater to the then-booming video market, wind up surviving video stores themselves? How did a

series that had never even had a theatrical entry wind up with an unusually successful toy series? All of these questions are answered within these pages. Featuring new interviews with some of the biggest creative minds behind the franchise, as well as dozens of behind-the-scenes photos, this book is the ultimate guide to horror's most murderous marionettes.

The World of

Puppets JHU Press

Bob Baker Marionette Theater has enchanted families in Los Angeles and beyond with delightful marionette performances since 1963. Enchanted Strings captures the visual history of this palace of puppetry from Bob Baker's earliest days to the theater's transformation into a thriving hub of creative culture.--
Puppet Master
Nick Hern Books

A treasury of verses, finger games, stories, and plays for puppets and marionettes. *The Marionettes* Simon and Schuster Pinocchio, The Tale of a Puppet follows the adventures of a talking wooden puppet whose nose grew longer whenever he told a lie and who wanted more than anything else to become a real boy. As carpenter Master Antonio begins to

carve a block of pinewood into a leg for his table the log shouts out, "Don't strike me too hard!" Frightened by the talking log, Master Cherry does not know what to do until his neighbor Geppetto drops by looking for a piece of wood to build a marionette. Antonio gives the block to Geppetto. And thus begins the life of Pinocchio, the puppet that turns into a boy. Pinocchio, The Tale of a Puppet is a novel for

children by Carlo Collodi is about the mischievous adventures of Pinocchio, an animated marionette, and his poor father and woodcarver Geppetto. It is considered a classic of children's literature and has spawned many derivative works of art. But this is not the story we've seen in film but the original version full of harrowing adventures faced by Pinocchio. It includes 40 illustrations.

Marionettes, Inc Macmillan Marionettes are loved by puppeteers and audiences for what they can do on stage, but they can be challenging to design, make and perform. This beautiful book clearly explains the process from making the puppets to putting them on strings and bringing them alive. Detailed step-by-step instructions are given to make three marionettes - a walking bird, a dancer and a wooden man - each using different tools and materials, with progressively trickier techniques. Written by a leading puppeteer, it celebrates the art of the marionette. This book includes a showcase of marionettes from around the world to illustrate the variety, and richness of this ancient art which are superbly illustrated by 247 colour images with step-by-step instructions. Pinocchio, the Tale of a Puppet Courier Corporation The puppet creates delight and fear. It may evoke the innocent play of childhood, or become a tool of ritual magic, able to negotiate with ghosts and gods. Puppets can be creepy things, secretive, inanimate while also full of spirit, alive with gesture and voice. In this eloquent book, Kenneth Gross contemplates the fascination of these unsettling objects—objects that are

also actors and images of life. The poetry of the puppet is central here, whether in its blunt grotesquery or symbolic simplicity, and always in its talent for metamorphosis. On a meditative journey to seek the idiosyncratic shapes of puppets on stage, Gross looks at the anarchic Punch and Judy show, the sacred shadow theater of Bali, and experimental theaters in

Europe and the United States, where puppets enact everything from Baroque opera and Shakespearean tragedy to Beckettian farce. Throughout, he interweaves accounts of the myriad faces of the puppet in literature—Colodi's cruel, wooden Pinocchio, puppetlike characters in Kafka and Dickens, Rilke's puppet-angels, the dark puppeteering of Philip

Roth's Micky Sabbath—as well as in the work of artists Joseph Cornell and Paul Klee. The puppet emerges here as a hungry creature, seducer and destroyer, demon and clown. It is a test of our experience of things, of the human and inhuman. A book about reseeing what we know, or what we think we know, *Puppet* evokes the startling power of puppets as mirrors of the uncanny in life and art. *A Lifetime of*

Figures in the Fourth Dimension

New York :
 Macmillan
 While Carlo
 Collodi's
 internationally
 revered
 Pinocchio may
 not have been
 the single
 source of the
 modernist
 fascination
 with puppets
 and
 marionettes,

the book's
 appearance
 on the
 threshold of
 the modernist
 movement
 heralded a
 new artistic
 interest in the
 making of
 human
 likenesses.
 And the
 puppets,
 marionettes,
 and other
 forms that
 figure so
 vividly and
 provocatively
 in modernist
 and avant-
 garde drama
 can, according
 to Harold
 Segel, be
 regarded as
 Pinocchio's
 progeny.
 Segel argues
 that the
 philosophical,

social, and
 artistic
 proclivities of
 the modernist
 movement
 converged in
 the discovery
 of an exciting
 new relevance
 in the puppet
 and
 marionette.
 Previously
 viewed as
 entertainment
 for children
 and fairground
 audiences,
 puppets
 emerged as
 an integral
 component of
 the modernist
 vision. They
 became
 metaphors for
 human
 helplessness
 in the face of
 powerful
 forces -- from
 Eros and the

supernatural to history, industrial society, and national myth. Dramatists used them to satirize the tyranny of bourgeois custom and convention, to deflate the arrogance of the powerful, and to breathe new life into a theater that had become tradition-bound and commercialized. Pinocchio's Progeny offers a broad overview of the uses of these figures in European drama from 1890 to 1935. It considers

developments in France, Spain, Italy, Austria, Germany, Sweden, Russia, Poland and Czechoslovakia. In his introduction, Segel reviews the premodernist literary and dramatic treatment of the puppet and marionette from Cervantes' Don Quixote to the turn-of-the-century European cabaret. His epilogue considers the appearance of puppets and marionettes in

postmodern European and American drama by examining works by such dramatists as Jean-Claude Van Itallie, Heiner MA1/4ller, and Tadeusz Kantor. [The Victorian Marionette Theatre](#) Marionettes Originally published in the 1930s, this is a wonderfully detailed guide to marionettes, puppetry and the construction and production of a show. It contains over

a hundred diagrams and illustrations detailing all the various designs for puppets and instructions for their construction. All the secrets of the trade are laid in in simple language and instructions, along with clear and detailed diagrams. This is an exhaustive manual for anyone interested in puppetry.

 contains

valuable advice for making heads, bodies, wigs, and puppet clothing and includes entire chapters on how to manipulate the puppet, set up and furnish a stage, light scenes, and even how to build miniature pieces of furniture. A production chapter tells how to incorporate music, put on sketches, parody celebrities, and arrange programs. There's even a complete

script for *Beauty and the Beast*, as well as a section on the history of puppeteering. *The Complete Book of Puppetry* Courier Corporation An enthralling coming-of-age debut novel about a young woman in late 19th-century Venice who becomes a man to join the male-dominated world of the theater as a puppeteer—in the vein of Sarah Waters. Ever since her grandfather introduced her to eight-string

marionettes, Francesca has dreamed of performing from the rafters of Venice's popular Minerva Theater. There's just one problem: the profession is only open to men. When her father arranges to sell her into marriage to pay off his gambling debts, Francesca flees her home. Masquerading as a male orphan named Franco, she secures an apprenticeship with the

Minerva's eccentric ensemble of puppeteers. Amid the elaborate set-pieces, the glittering limes, and the wooden marionettes, she finds a place where she belongs—and grows into the person she was always meant to be: Franco. The past threatens to catch up with Franco when his childhood friend Annella reappears and recognizes him at the theater. Now a paid companion to

an influential woman, Annella understands the lengths one must go to survive, and she promises to keep Franco's secret. Desire sparks between them, and they find themselves playing a dangerous game against the most powerful figures of Venice's underworld. With their lives—and the fate of the Minerva—hanging in the balance, Franco must discover who

is pulling the strings before it's too late. Rich in historic detail and imbued with sharp social commentary, *Eight Strings* is a gorgeous, spellbinding debut that celebrates love, life, and art in all its forms. *Making Simple Marionettes* Routledge This special edition hardcover of the *Marionettes* includes exclusive bonus material you can't find anywhere else! A betrayal. A

deadly secret. An unlikely ally. Valerie Darkmore's entire life has been building up to this moment-her initiation into the Marionettes, the prestigious league of witches sworn to serve the vampires. As one of the last remaining blood witches, her spot is almost guaranteed. At least, so she'd thought. The academy is full of sabotage and secrets as the tasks begin, and Valerie quickly

realizes she has more than her spot on the line. Her survival seems just as uncertain. The closer she gets to the final trial, the more she learns everything-and everyone-around her isn't quite what it seems. Some of the bonus material you can expect: a letter from the author, an exclusive scene from Reid's point of view, scenes annotated by the author (some from the rough draft!),

character art, and more!
The Art of the Puppet
 Macmillan + ORM
 This hardcover edition includes exclusive bonus material you can't find anywhere else!
 Something is wrong with Valerie Darkmore. She may have made it through her initiation into the Marionettes, but she's quickly learning that was only the beginning. Everything she used to

know has changed, including maybe herself. Adjusting to her new reality proves to be the least of her worries when bodies appear all over the city, and the death toll continues to rise. She can't count on her partnership with a dangerous vampire prince to be enough to save her. Because while they're investigating the attacks, the killer might just be looking for her

too. *Wicked Souls* is the second installment in the dark fantasy romance series, *The Marionettes*. [Puppet Circus](#) Gibbs Smith A famous puppeteer gives a fascinating introduction to his art. [Puppets and Puppet Theatre](#) Harvard University Press *Making and Manipulating Marionettes* is a comprehensive guide to the design, construction and control of

string puppets, a craft and performance art that has fascinated audiences for over two thousand years. In this
fascinating
and colorful
book,
researcher
and performer
John
McCormick

focuses on the marionette world of Victorian Britain between its heyday after 1860 and its waning years from 1895 to 1914. Situating the rich and diverse puppet theatre in the context of entertainment culture, he explores both the aesthetics of these dancing dolls and their sociocultural significance in their life and time. The history of marionette performances is interwoven

with live-actor performances and with the entire gamut of annual fairs, portable and permanent theatres, music halls, magic lantern shows, waxworks, panoramas, and sideshows. McCormick has drawn upon advertisements in the Era, an entertainment paper, between the 1860s and World War I, and articles in the World's Fair, a paper for showpeople,

in the first fifty years of the twentieth century, as well as interviews with descendants of the marionette showpeople and close examinations of many of the surviving puppets. McCormick begins his study with an exploration of the Victorian marionette theatre in the context of other theatrical events of the day, with proprietors and puppeteers, and with the

venues where they performed. He further examines the marionette's position as an actor not quite human but imitating humans closely enough to be considered empathetic; the ways that physical attributes were created with wood, paint, and cloth; and the dramas and melodramas that the dolls performed. A discussion of the trick figures and specialized acts that each company

possessed, as well as an exploration of the theatre's staging, lighting, and costuming, follows in later chapters. McCormick concludes with a description of the last days of marionette theatre in the wake of changing audience expectations and the increasing popularity of moving pictures. This highly enjoyable and readable study, often illuminated by intriguing anecdotes

such as that of the Armenian photographer who fell in love with and abducted the Holden company's Cinderella marionette in 1881, will appeal to everyone fascinated by the magic of nineteenth-century theatre, many of whom will discover how much the marionette could contribute to that magic. Bloodless Ties Courier Corporation Introduction to Puppetry Arts shares the history,

cultures, and traditions surrounding the ancient performance art of puppetry, along with an overview of puppet construction and performance techniques used around the world. From its earliest beginnings in the ancient Middle East and Asia, through its representation in Medieval/Rena

issance Europe, up until its modern-day appearances in theatre, television, and film, this book offers a thorough overview of how this fascinating art form originated and evolved. It also includes easy-to-follow instructions on how to create puppets for performance and display and an in-depth resource list and

bibliography for further research and information. Written for students in puppetry arts and stagecraft courses, *Introduction to Puppetry Arts* offers a comprehensive look at this enduring craft and provides a starting point for creating a wide range of puppets, from marionettes and hand puppets to mascots and character costumes.
