Mama, Me And 'Em

Open Road Media

This remarkable book is written to help people move out of being run by their wounded emotional child to being run by their empowered authentic adult self. It chronicles shifting from living life fearfully to living life powerfully and lovingly. It will change your life.

Superminds Open Road Media

A sympathetic illustrated guide to learning to live with your mind--even when it tries to trick you. Most of us spend our lives trailing after our minds, allowing our brains to take us in directions that are safe and secure, controlled and conformed. Your mind doesn't want you to take that new job, sign up for that pottery class, or ask someone out. It wants you to stay unemployed, unfulfilled, and single because it enjoys routine and is resistant to change, no matter how positive the change may be. But more often than not, that's not what you want. Whose Mind Is It Anyway? will

help you learn how to separate what you want from what your brain wants and how to do less when your mind is trying to trick you into doing more. In a colorful, funny, and nonthreatening way, it answers the difficult question of how we can take control of our self-defeating behaviors. Filled with charming illustrations, this book will be the friendly voice in your head to counter your negative thoughts, and it will teach you how to finally be at peace with all that you are.

Born to Sing Mark Winkle
Sometimes love comes when you least expect it . . . Between her career and raising her sister's orphaned little boys, industrial-planning consultant Jan Harper doesn't have time for romance. Famous last words. From the moment she meets tall, dark, swoon-worthy Kevin Toliver, she is in danger of losing the one thing she swore never again to give: her heart. When he walked into the boardroom of Toliver, Inc., Kevin was expecting a man—not a wholesome beauty with painful memories. But the New York entrepreneur is

quickly drawn to Jan, even following her back to Pleasant Valley, Colorado, to offer the promotion of a lifetime. Try as she might, Jan can't deny the powerful attraction between them. Can Kevin help her move beyond the secrets of her past and find that special place where love can thrive and bloom? Recipient of the Washington Romance Writers' Outstanding Achievement Award. This ebook features an extended biography of Mary Kay McComas. *Someday, Somewhere* Good Press

Alice Hollywell, the young spitfire from Hollywood, and her best friend, the poor little rich girl Em Martín from nearby Bel Air, CA, are stationed on a remote military base in West Texas in the mid-1970s. Worldly Alice "Hollywood" Hollywell is notorious for changing "teams" without notice. Em is shy and seemingly sheltered and has a secret. Despite their differences, their friendship blossoms into something they never imagined. The arrest of their friend Whitey, and rumors about an investigation into his friends and associates

creates a frightening environment, complicating everything. On base, and particularly within their inner circle, the atmosphere is rife with suspicion and fear. Alice and Em realize the military is a very dangerous place for them, and quickly find themselves in the middle of a rabid witch-hunt. Decisions are made with disastrous consequences. Alice Hollywood is a bonafide page-turner, leading the reader down a road of what's next and through myriad subplots, making this multi-dimensional story and its equally dimensional characters a reader's delight. Once you start reading, you won't want to stop, even when you read the last line. But don't worry, because there's much more to come. Alice Hollywood is Book One of The Em Suite Series.

"The Key of Life" is a true story about who we are, why we are here and how we are all connected. This thought-provoking book inspires readers to interpret the synchronicities in their own lives, as author Randy Rogers takes you along on his riveting

journey investigating past lives, present events and reincarnation. Randy proves that "ordinary" people can experience the extraordinary when they open themselves to the possibilities. What if you could clearly read the "signs" that are constantly surrounding us and in the process unlock the meaning of life - present, past and future? "The Key of Life" will open that door for you!

Revelations of the Watchers Simon and Schuster

Two gifted, good-looking opera singers, from different cultures and opposite sides of the track in Texas, discover that falling in love is wonderful. But love may not be enough if it interferes with their dreams of success in the ruthlessly competitive world of opera. D.J. McKay's dream of singing in European opera houses clashes with his rich daddy's prejudices against such a "sissy" career; his obsession with beautiful Eva Villalobos doesn't sit well with his socialite mother, either. Meanwhile, Eva strives to help her poor family financially by achieving success on the stage. So what happens when their passion for each other

thwarts their dreams? How can their relationship survive three-thousand miles of separation? Will their ambition to succeed kill the only true love they have ever known?

This is the first book-length presentation and defense of a new theory of human and machine cognition, according to which human persons are superminds. Superminds

are capable of processing information not only at and below the level of Turing machines (standard computers), but above that level (the "Turing Limit"), as information processing devices that have not yet been (and perhaps can never be) built, but have been mathematically specified; these devices are known as super-Turing machines or hypercomputers. Superminds, as explained herein, also have properties no machine, whether above or below the Turing Limit, can have. The present book is the third and pivotal volume in Bringsjord's supermind quartet; the first two books were *What Robots Can and Can't Be* (Kluwer) and *AI and Literary Creativity* (Lawrence Erlbaum). The final chapter of this book offers eight prescriptions for the concrete practice of AI and cognitive science in light of the fact that we are superminds. *LIFE* Simon and Schuster
Irish Carter shares her personal story of the night she faced hiding in the woods at the age of five in an effort to keep her mother safe from the man who wanted to kill her. As her family found safety, she was faced once again

with the trauma of violence in her life when at twelve years old she found her mother brutally stabbed. This book shares Irish and other's personal stories of abuse, addictions, grief, and depression. Unlike other books, *Dedicated 2 LIFE* teaches how to find hope, strength, courage, belief and resilience in the lessons we are given in life after these experiences. This book shares ways of finding gratitude in life's dark experiences and allows us to become stronger through accepting who we are and believing in ourselves on a deeper, more personal level.

Stay Rich for Life! Orion
My book is about helping people on their soul journey. All souls came here to this Earth plane for a reason, and that reason is to be in 'Oneness' with one another. Before incarnating here on Earth, every soul created for themselves a Divine Soul Plan, which is a life plan for all of us to walk our highest blueprint. However when we are born, we do not have this memory within our physical brains and it is up to everyone to eventually remember this subconsciously. However

soul remembers and soul remembers that we are all here to work through our Soul Plan by overcoming the various challenges we have been presented with according to our karmic implications. As no two souls are the same, so too are no two soul plans will be the same. It is unique to each individual. We also have spiritual testing which we need to work through and pass. Spiritual Testings are never easy, and requires great understanding for one another in order to pass them. The key to passing spiritual testings and working through our karmic imbalances is to always be expressing love, understanding and forgiveness for one another. The key is to transmute or transform out all of our negative qualities to be positive Light. This book holds the key to passing your spiritual testings and tips on how to respond to negative situations rather than react negatively to them. If we just react and go in an 'automatic pilot' mode, then we will never achieve accomplishment within our purpose here. For example, if someone expresses hatred and disgust towards you, your instant reaction is to react back with hatred towards

them; to mirror the very energy that is being expressed out to you. This is the trap that most of us find ourselves in- it is a trap because every time we express negative emotions such as hatred, that emotion and thought will manifest as energy. According to the Universal Law of Attraction, if you express out negative emotions then only negative emotions will find its way to you. Like attracts like- the same energy will attract the same energy. It will then be the same situations over and over again, never really experiencing joy, because you will only attract in negative situations, and the more negative situations you find yourself in, the harder it is for you to overcome them. This is what existence itself is all about. We are all Masters, however we need to express that out in every aspect of our lives towards others. This book is a sort of a guide on ways we can master our own emotions and also holds the keys to eternal joy and soul accomplishment. *Master Life* Trafford Publishing
