From Ismail Kadare, winner of the inaugural Man Booker International Prize – a novelist in the class of Coetzee, Pamuk, Márquez, and Rushdie – the stunning new translation of one of his major works. In the early fifteenth century, as winter falls away, the people of Albania know that their fate is sealed. They have refused to negotiate with the Ottoman Empire, and war is now inevitable. Soon enough, dust kicked up by Turkish horses is spotted from a citadel. Brightly coloured banners, hastily constructed minarets, and tens of thousands of men fill the plain below. From this moment on, the world is waiting to hear that the

fortress has fallen. The Siege tells the enthralling story of the weeks and months that follow – of the exhilaration and despair of the battlefield, the constantly shifting strategies of war, and those whose lives are held in the balance, from the Pasha himself to the artillerymen, astrologer, blind poet, and harem of women who accompany him. "Believe me," the general said. "I've taken part in many sieges but this," he waved towards the castle walls, "is where the most fearful carnage of our times will take place. And you surely know as well as I do that great massacres always give birth to great books. You really do have an opportunity to write a thundering chronicle redolent with pitch and blood, and it will be utterly different from the graceful whines composed at the fireside by squealers who never went to war." Brilliantly vivid, as insightful as it is compelling, *The Siege* is an unforgettable

account of the clash of two great civilisations, and a portrait of war that will resonate across the centuries.

Masterful in its simplicity, *Chronicle in Stone* is a touching coming-of-age story and a testament to the perseverance of the human spirit. Surrounded by the magic of beautiful women and literature, a boy must endure the deprivations of war as he suffers the hardships of growing up. His sleepy country has just thrown off centuries of tyranny, but new waves of domination inundate his city. Through the boy's eyes, we see the terrors of World War II as he witnesses fascist invasions, allied bombings, partisan infighting, and the many faces of human cruelty—as well as the simple pleasures of life. Evacuating to the countryside, he expects to find an ideal world full of extraordinary things, but discovers instead an archaic backwater where a severed arm becomes a talisman and deflowered girls mysteriously vanish. Woven between the chapters of the boy's story are tantalizing fragments of the city's history. As the devastation mounts, the fragments lose coherence, and we perceive firsthand how the violence of war destroys more than just buildings and bridges.

*Learning to Lead* examines the dilemmas principals face in engaging teachers in shared leadership. The text makes a contribution to the field of educational leadership, administration, and leader preparation through cases and the description of professional development initiatives to prepare pre-service principals and administrators for shared leadership. Authors from

the United States, England, and Australia present a broad brushstroke of principals sharing leadership through original field-based research, set within a theoretical framework of democratic schooling. to explore the importance of principals sharing and distributing leadership. Until recently, most of the focus has been on teachers and collaborative leadership building. through real-life single and multiple case studies, the text addresses how principals and their staff's struggle with the challenge of shared leadership, and how they attain some of the promise leading to teacher growth and development, as well as to higher levels of student learning. the cases in the text provide pre-service principals and administrators with excellent examples of the real-life applications of various theoretical concepts. a variety of models and approaches of shared and distributed leadership are presented in school, district, and regional contexts, allowing students to see the commonalties that these settings share, as well as the differences between them. impact that those strategies have on teachers, school culture, and learning opportunities for students. Examples of preparation programs and the support that teachers want, if shared leadership is to be effectively implemented to meet student needs, provide future principals with the tools and insight that they need to be successful.

When it was first published in the author's native country, *THE PALACE OF DREAMS* was immediately banned. The novel revolves around a secret ministry whose task is not just to spy on its citizens, but to collect and interpret their dreams. An entire nation's unconscious is thus tapped and meticulously laid bare in

the form of images and symbols of the dreaming mind.

A chance meeting with a charismatic photographer will forever change Elizabeth's life. Until she met Richard, Elizabeth's relationship with Georgia O'Keeffe and her little-known Hawaii paintings was purely academic. Now it's personal. Richard tells Elizabeth that the only way she can truly understand O'Keeffe isn't with her mind—it's by getting into O'Keeffe's skin and reenacting her famous nude photos. In the intimacy of Richard's studio, Elizabeth experiences a new, intoxicating abandon and fullness. It never occurs to her that the photographs might be made public, especially without her consent. Desperate to avoid exposure—she's a rising star in the academic world and the mother of young children—Elizabeth demands that Richard dismantle the exhibit. But he refuses. The pictures are his art. His property, not hers. As word of the photos spreads, Elizabeth unwittingly becomes a feminist heroine to her students, who misunderstand her motives in posing. To the university, however, her actions are a public scandal. To her husband, they're a public humiliation. Yet Richard has reawakened an awareness that's haunted Elizabeth since she was a child—the truth that cerebral knowledge will never be enough. Now she must face the question: How much is she willing to risk to be truly seen and known?

David Birch's *Provocations* will help teachers to present ideas and stimulate discussions which both accommodate and engage adolescent appetites. Are human beings flawed? Is murder an act of insanity or just plain thoughtlessness? Do we need a soul? From the fall of Icarus to the rise of Caesar, this practical resource draws upon history, philosophy and literature to provoke students to think, question and wonder. Divided into chapters on the world, self, society and others, the book is designed to give secondary school teachers the means to listen rather than teach - and to allow the ideas and thoughts of students to form the centre of the lesson. It shares a set of mature and challenging philosophy sessions predicated on the pedagogical methods of The Philosophy Foundation, and which explore, among other things: Wagner and desire, Shakespeare and madness, Joan of Arc and gender, Faust and temptation, and Nostradamus and time. The sessions dare students to think philosophically, to generate and test ideas, and to gain deeper insights - and raise questions on slavery, consumerism, utopia, the nature of evil, the limits of freedom, belief in God, and a whole lot more. The book sets out a clear introductory outline on its use both in and out of the classroom, and contains helpful tips and advice to guide teachers to span the curriculum - covering areas applicable to history, geography, religious studies, science, art, English and citizenship. There is also an extensive bibliography for those who wish to explore the topics in greater depth. Designed for all teachers, whether they are Philosophy for Children (P4C) trained or just experimenting with philosophy, of learners aged 11-18.

The Japanese education system has attracted increasing attention over the past 20 years, largely due to the belief that it has been central to Japan's economic growth. Many have felt, however, that the system is stunted by an inability, or perhaps even an incapacity, to change. This study challenges these contentions. It examines the reform policies implemented by Prime Minister Nakasone during the 1980s and argues that, not only has the system changed considerably as a result of Nakasone's work, but that it continues to do so. It analyses the key areas of the education reform debate, in particular internationalism, government control of education, increased liberalization and various social problems, and considers the

degree to which response to them have been successful. This book will be of great interest to all those interested in the Japanese educational system.

This Eurydice report sheds light on two different but complementary perspectives of digital education: the development of digital competences relevant to learners and teachers on the one hand, and the pedagogical use of technologies to support, improve and transform learning and teaching on the other. The report covers different areas of digital education starting by an overview of school curricula and learning outcomes related to digital competence. The development of teacher-specific competences during initial teacher education and throughout their career is addressed as well as the assessment of students' digital competences and the use of digital technologies for assessment. Finally, the report gives some insight into current national strategies and policies on digital education at school. The annexes add specific information by country, on school curricula, teacher competence frameworks, top-level strategies and agencies supporting digital education at school. The report covers digital education at primary and general secondary levels for the school year 2018/19 in all 28 EU Member States, as well as Albania, Bosnia and Herzegovina, Switzerland, Iceland, Liechtenstein, Montenegro, North Macedonia, Norway, Serbia and Turkey, 43 education systems in total.

BAUDOLINO gravita em torno dos prazeres da corte de Federico Hohenstaufen, conhecido como Barbarossa, à época da Terceira Cruzada. A história engloba justamente o período entre 1152 e 1204, começando com a ascensão de Barbarossa ao trono e

terminando com a conquista de Constantinopla pela temida ordem dos cavaleiros templários. A trama é protagonizada por Baudolino - adolescente, criativo e mentiroso que dá título à obra - e Niceta Coniate, personagem inspirado em um historiador e orador que viveu na corte de Constantinopla. A narrativa retrocede, enquanto Baudolino conta a Niceta suas aventuras e desventuras, numa mistura de fantasia e realidade, História e faz-de-conta. Tudo isso temperado por inúmeras situações cômicas. No intervalo, Eco embaralha os seus personagens inventados e produz o mais recorrente efeito de seu texto: interferir em acontecimentos históricos conhecidos por meio de atos ou circunstâncias vividas pelos personagens fictícios.

This guide examines how schools and universities can work together with their local communities to promote democracy in society based on the principles of Education for Democratic Citizenship (EDC), a concept developed by the Council of Europe. Partnerships based on this idea foster civic skills and values in citizens and build the civic capacity of communities through the pursuit of collective solutions to local problems. The guide explores the mechanics of such partnerships in practice, describing how they are built and sustained, and what makes them work. Drawing on examples from Europe and the United States of America, the guide is intended for policy makers and practitioners in schools and universities, civil society and community groups, and representatives of public authorities and government bodies on both sides of the Atlantic.

Albania is not well known by outsiders; it was deliberately closed

to the outside world during the communist era. Now it has thankfully become free again, its borders are open and it can be visited, and it is increasingly integrating with the rest of Europe and beyond. Unfortunately, Albania has had its share of problems in the post-communist era; it's a land of destitution and despair, thanks in part to the Albanian mafia, which has turned the country into one of blood-feuds, kalashnikovs, and eternal crises. Yet, Albania is, in essence, a European nation like any other and will soon, it is to be hoped, advance and take its proper place in Europe and the world. The second edition of the Historical Dictionary of Albania relates the history of this little-known country through a detailed chronology, an introduction, a bibliography, appendixes, and over 700 cross-referenced dictionary entries on significant persons, places, and events; institutions and organizations; and political, economic, social, cultural, and religious facets.

'That which puzzled and fascinated me whenever I met Lasgush was this sensation of the impossible. It was impossible to get on with him as you did with others. The moment you were at him, or rather, the moment you knocked at his door, suddenly all became another thing. There was another logic, another code, other words, wrapped up in another meaning. .when you went to Lasgush's, it was more than going abroad. You believed you dropped somewhere beyond our time, beyond the everyday way of looking at things. One more step and it looked as if you would cross the borders of life and would find yourself in Dante's nothingness. .He was unpredictable, corrosive like acid, creepy, startling. His laugh was like as if beyond our life, mirthless, and

his sadness had no grief. As for his anger, it was such as well, luxurious, cold, whereas his contempt was radiating from afar, as if adorned with silver.' (Kadare, *In My Studio*. pp 207, 208, 209. My translation) -All this Saussurean lava of meaning has its own matchless 'crater' from where it erupts and reaches us time and again, endlessly. Lasgush's Word has its own individual suspension, chiselled by the hand of a true master. It is breathlessly succinct and, in all probability, on a par with the best ever created. Lasgush says that his Word is: 'Mystery that burns in a thread of lightning.' (My Fiery Tongue)

"We live in an era where the university system is undergoing great changes owing to developments in financing policies and research priorities, as well as changes in the society in which this system is embedded. This change toward a more market-oriented university, which also has immediate effects in academic peripheries such as the Balkans, the Middle East, or South-East Asia, is of great influence for the pedagogical practice of "less profitable" academic areas such as the Humanities: philosophy, languages, sociology, anthropology, history. Because of the absence of a historically grounded establishment of the Humanities, academic peripheries, usually accompanied by a weak civil society infrastructure, seem to offer the most fertile ground for rethinking the Humanities, their pedagogical practice,

and their politics, as well as the greatest threats, such as the ongoing capitalization of research, and profitability as the norm of educational achievement. The sprawling presence of for-profit universities and in academic peripheries such as Albania and Kosovo is indicative of this problematic, as are consistent underfunding of universities and the relentless budget cuts in American and English, and to a lesser extent European, universities. Motivations for this ongoing attack on the university are often driven by a political system or a politics with an aggressive stance to critical thought."

The tender plant of Albanian literature grew in a rocky soil. It was late to evolve and its development, indeed its very existence, was threatened in many periods. "Albanian Literature: A Short History" tells the story of the survival and growth of Albanian creative writing beginning with the earliest thirteenth century texts of Theodor of Shkodra, tracing the development of the modern literature of Buzuku, Budi and Bogdani, the incorporation of the Muslim influences of Frakulla and Kycyku and continuing with the works of Cajupi and Kadare during the reign of King Zog and the Hoxha administration. A unique book that illuminates an under-researched subject, "Albanian Literature" is an essential reference guide for all those interested in Balkan cultures, in comparative literature and in European cultural history in general.
