As young kids, SAVI and VID, as they are popularly known to their followers, dreamt of travelling the world together. In 2013, they turned this dream into reality with the launch of their travel blog, BRUISED PASSPORTS. And now, countless flights, dreamy destinations and beautiful pictures later, the OG couple of travel has decided to reveal the secret of their carefree and footloose life. But this isn't just a book filled with dreamy stories of travel, people and culture; in these pages, Savi and Vid share their insights on how you, too, can live a life full of memories, adventure and the excitement of discovering a new place. With tips, plans and advice inspired by the hurdles and successes they have faced, Savi and Vid tell you how to be successful digital nomads in a post-pandemic world. From financial planning to, risk analysis, to taking that leap of faith, to how to

create a brand of your own, BRUISED PASSPORTS promises to be a treasure trove for anyone who wants to take the plunge and set off on a journey to live life on their own terms.

This groundbreaking study offers a major reinterpretation of American strategy during the first half of the Vietnam War. Gregory A. Daddis argues senior military leaders developed a comprehensive campaign strategy, one not confined to 'attrition' of enemy forces. This innovative work is a must for a genuine understanding of the Vietnam War.

The Road to Freedom

Fodor's Travel

In *Tours of Vietnam*, Scott Laderman demonstrates how tourist literature has shaped Americans' understanding of Vietnam and projections of United States power since the mid-twentieth century. Laderman analyzes

portrayals of Vietnam's land, history, culture, economy, and people in travel narratives, U.S. military guides, and tourist guidebooks, pamphlets, and brochures. Whether implying that Vietnamese women were in need of saving by "manly" American military power or celebrating the neoliberal reforms Vietnam implemented in the 1980s, ostensibly neutral guides have repeatedly represented events, particularly those related to the Vietnam War, in ways that favor the global ambitions of the United States. Tracing a history of ideological assertions embedded in travel discourse, Laderman analyzes the use of tourism in the Republic of Vietnam as a form of Cold War cultural diplomacy by a fledgling state that, according to one pamphlet published by the Vietnamese tourism authorities, was joining the "family of free nations." He chronicles the evolution of the Defense Department pocket guides to Vietnam, the first of which, published in 1963, promoted military service in Southeast Asia by touting the exciting opportunities offered by

Vietnam to sightsee, swim, hunt, and water-ski. Laderman points out that, despite historians' ongoing and well-documented uncertainty about the facts of the 1968 "Hue Massacre" during the National Liberation Front's occupation of the former imperial capital, the incident often appears in English-language guidebooks as a settled narrative of revolutionary Vietnamese atrocity. And turning to the War Remnants Museum in Ho Chi Minh City, he notes that, while most contemporary accounts concede that the United States perpetrated gruesome acts of violence in Vietnam, many tourists and travel writers still dismiss the museum's display of that record as little more than "propaganda." Destination Cambodia a company called W Get a taste of the real Vietnam and its people on a sometimes funny, always fascinating journey from the bustling cities to the out of the way villages, into Buddhist monasteries and along the Mekong - a real delight for armchair travellers and those contemplating their own adventure.

Starring super-vixen Jayne Mansfield (The Girl Can't Help It) and funnyman Tony Randall, Will Success Spoil Rock Hunter is a hilarious satire of the world of television advertising, written and directed by animator-turned-feature filmmaker Frank Tashlin. Randall stars as the titular Rockwell P. Hunter, an ad man whose career is looking grim. To save himself from the unemployment line, Hunter decides to enlist the considerable charms of a vapid starlet, Rita Marlowe, to serve as a spokeswoman for the lipstick brand he is selling. Problem is, the sexy movie queen is "in seclusion" and only agrees to help Hunter if he pretends to be her lover - a scheme which stands to turn his relationship with his fiancée upside-down.

You Only Die Once Eland Publishing

A "masterful . . . brilliantly constructed novel" of love and chaos in 1950s Vietnam (Zadie Smith, The Guardian). It's 1955 and British journalist Thomas Fowler has been in Vietnam for two years covering the insurgency against French colonial

rule. But it's not just a political tangle that's kept him tethered to the country. There's also his lover, Phuong, a young Vietnamese woman who clings to Fowler for protection. Then comes Alden Pyle, an idealistic American working in service of the CIA. Devotedly, disastrously patriotic, he believes neither communism nor colonialism is what's best for Southeast Asia, but rather a "Third Force": American democracy by any means necessary. His ideas of conquest include Phuong, to whom he promises a sweet life in the states. But as Pyle's blind moral conviction wreaks havoc upon innocent lives, it's ultimately his romantic compulsions that will play a role in his own undoing. Although criticized upon publication as anti-American, Graham Greene's "complex but compelling story of intrigue and counter-intrigue" would, in a few short years, prove prescient in its own condemnation of American interventionism (The New York Times). **Eat Vietnam** Penguin
A kick-in-the-pants wake-up call to start living meaningfully in light of how many Mondays you

have left from longtime coach, positive psychology expert, and Penn Resilience Program instructor Jodi Wellman How many Mondays do you have left? Does that question send you into a panic spiral, or are you convinced that, unlike everyone in the history of life on earth, you will somehow avoid the tragic end and live to tell the tale? Statistically, we get about 4,000 Mondays in our lifetime, so if you're halfway through your life, you might have roughly 2,000 Mondays to go. The good news is that you are in charge of how you spend those days: toiling at a job you hate, or creating a career you love; scrolling mindlessly for hours a day, or pursuing the hobbies and travel that light you up; dreading the end, or living a full life that allows you to greet the Grim Reaper with a smile. Built around the principles of positive psychology, You Only Die Once is the jolt that will bring you back to life, no near-death experience required. Full of practical takeaways and research-backed content, this book will motivate readers to take action on the life they want to be living, acting like a defibrillator for the soul. Accompanied

by author Jodi Wellman's charming illustrations, this book won't lecture you about eating more kale or insist that the only path forward is to quit your job and move to Provence (although it's not not suggesting you do that either. The latter, that is. We'd never ask anyone to eat more kale.). Instead, it's a real-life guide to small changes that reawaken your passion and curiosity for life. Packed with inspiring stories, exercises, quizzes, quotes, and a step-by-step plan to awaken the liveliest version of you, *You Only Die Once* is the healthy dose of mortality you need to start living with urgency and meaning.

John Podlaski *Matériel culture* encompasses the material remains of conflict, from buildings and monuments to artefacts and militia, as well as human remains. This collection of essays, from an international range of contributors, illustrates the diversity in this material record, highlights the difficulties and challenges in preserving, presenting and interpreting it, and above all demonstrates the significant role matériel culture can play in contemporary society. Among the many studies are: * the 'culture of shells' * the archaeology of nuclear testing grounds * Cambodia's 'killing fields' * the Berlin Wall * and the biography of a medal *the reappearance of Argentina's 'disappeared' *World War II concentration camps. **The Rough Guide to Vietnam** Lonely Planet Finding untrammelled destinations has become increasingly harder in the "global village," but Footprint Backpacker Vietnam, Cambodia, and Laos takes the

adventurous trekker to some of the lesser-traveled paths in the world. Filled with clear color maps, this authoritative guide offers candid reviews of the best places to stay, including a wide range of hostels and roadhouses. Backpackers can follow the entire length of the mighty Mekong River, stopping at historic temples, palaces, and pagodas along the way to sightsee or play. Here too is current information on where to buy the best silk and sample the finest cuisine in Indochina. Highlights include visits to monumental Angkor Wat and the moving Plain of Jars, a trip on the Bamboo Train, and much more. The Ho Chi Minh Trail was a decisive factor in the defeat of American forces in the Vietnam War. At the peak of its 16 years' operation, the Trail ran through North and South

Vietnam, Laos and Cambodia. Despite an estimated 4 million tons of U.S. bombs, efforts to stop the transport of supplies to the North Vietnamese Army over the Trail failed, and by 1975 over a million tons of supplies and 2 million troops had been transported along its path. The author and photographer, the first Westerners to traverse the entire length of the Trail, trace the footsteps of the hundreds of thousands who designed, built, used and fought along it. They interviewed villagers along the Trail as well as key military and political figures on both sides of the conflict, including the mastermind, General Vo Nguyen Giap. Their accounts show that this Trail was a remarkable feat of engineering and tactical warfare of the Vietnam War era. Virginia Morris traveled around the world due to her interest in anthropology, history and natural history but later became focused on Asia. She spent two years in Laos, the first working for the United Nations Development Program and the second traveling in remote areas undertaking research for this book. She holds a

Ph.D. in Engineering, and is presently a partner in an engineering consultancy in the U.K.

Open your heart, strengthen your spiritual core, and discover how the sacred art of bowing can enrich your spiritual life. "Daily, across America and across the world, people begin their day by bowing. Christians kneel for morning prayers, Muslims turn east to Mecca for the first salat (prayer) of the day, Jews daven (pray), and Buddhists prostrate themselves. Over the course of the day, many more people will find time to pause and, bending their body toward the earth, bow as part of their spiritual practice." --from Chapter 1 The Sacred Art of Bowing serves as a welcoming introduction to the whys and ways of bowing. This ancient tradition--so often mistakenly tagged as only part of Asian cultures--has roots in nearly every religion around the world. In different forms in different faiths, people bow as a physical expression of their spiritual aspirations, humility, gratitude, and respect.
