WHAT IF YOU HAD ANIMAL FEET? is the next book in the successful WHAT IF series by Sandra Markle, illustrated by Howard McWilliam, following the very popular WHAT IF YOU HAD ANIMAL TEETH? and WHAT YOU IF HAD ANIMAL HAIR? This latest edition will teach kids about the amazing variety of feet in the animal kingdom and their specialty functions! From cheetahs' fast feet to

mountain goats' nimble climbing hooves, to flies' sticky feet! Each animal profile will include a photo as well as illustrations of kids with animal feet that are sure to make kids laugh! [How to Fix a Broken Heart](#) Capstone Read and find out about how a caterpillar becomes a butterfly in this colorfully illustrated nonfiction picture book. After a caterpillar comes to school in a jar, the children

are captivated as it eats, grows, and eventually becomes a beautiful Painted Lady butterfly. This is a clear and appealing environmental science book for early elementary age kids, both at home and in the classroom. Plus it includes web research prompts and an activity encouraging kids to identify the different types of butterflies all around them. This is a Level 1 Let's-Read-and-Find-Out,

<p>which means the book explores introductory concepts perfect for children in the primary grades. The 100+ titles in this leading nonfiction series are: hands-on and visual acclaimed and trusted great for classrooms Top 10 reasons to love LRFOs: Entertain and educate at the same time Have appealing, child-centered topics Developmentally appropriate for emerging readers</p>	<p>Focused; answering questions instead of using survey approach Employ engaging picture book quality illustrations Use simple charts and graphics to improve visual literacy skills Feature hands-on activities to engage young scientists Meet national science education standards Written/illustrated by award-winning authors/illustrators &amp; vetted by an expert in the field</p>	<p>Over 130 titles in print, meeting a wide range of kids' scientific interests Books in this series support the Common Core Learning Standards, Next Generation Science Standards, and the Science, Technology, Engineering, and Math (STEM) standards. Let's-Read-and-Find-Out is the winner of the American Association for the Advancement of Science/Subar</p>

Imagine if we

treated

broken hearts

with the same

respect and

concern we

have for

broken arms?

Psychologist

Guy Winch

urges us to

rethink the

way we deal

with emotional

pain, offering

warm, wise,

and witty

advice for the

broken-

hearted. Real

heartbreak is

unmistakable.

We think of

nothing else.

We feel

nothing else.

We care about

nothing else.

Yet while we

wouldn't

expect someone to return to daily activities immediately after suffering a broken limb, heartbroken people are expected to function normally in their lives, despite the emotional pain they feel. Now psychologist Guy Winch imagines how different things would be if we paid more attention to this unique emotion—if only we can understand how heartbreak works, we can

begin to fix it. Through compelling research and new scientific studies, Winch reveals how and why heartbreak impacts our brain and our behavior in dramatic and unexpected ways, regardless of our age. Emotional pain lowers our ability to reason, to think creatively, to problem solve, and to function at our best. In *How to Fix a Broken Heart* he focuses on two types of emotional

pain—romantic heartbreak and the heartbreak that results from the loss of a cherished pet. These experiences are both accompanied by severe grief responses, yet they are not deemed as important as, for example, a formal divorce or the loss of a close relative. As a result, we are often deprived of the recognition, support, and compassion afforded to those whose heartbreak is considered

more significant. Our heart might be broken, but we do not have to break with it. Winch reveals that recovering from heartbreak always starts with a decision, a determination to move on when our mind is fighting to keep us stuck. We can take control of our lives and our minds and put ourselves on the path to healing. Winch offers a toolkit on how to handle and cope with a

broken heart and how to, eventually, move on. *Robins* Scholastic The process of a new life starting is fascinating! Watch a butterfly grow from an egg to an insect. Young readers will learn about the stages in a butterfly's life. From a tiny egg to a chrysalis and, finally, a brightly-colored butterfly! The life cycle of a butterfly is a beautiful thing to see. **A Butterfly Grows**

Capstone Can you guess what is hatching from this egg? It's a chick! You will learn all about a chick's life cycle in this book. **Life Cycle of a Jellyfish** Pogo Books This series shows readers how familiar plants and animals change and develop over the course of their lifetimes. Photos, labels and timelines support concepts covered within the text. Suitable for Middle Primary.

What If You  
Had Animal  
Feet?

Heinemann-

globe.

**One  
Hundred  
Years of  
Solitude**  
HarperCollins

Join Katie as  
she steps into  
some of the  
most famous  
paintings in  
the world for  
an exciting art  
adventure!  
The stars in  
Vincent van  
Gogh's  
painting are  
so beautiful  
that Katie  
can't resist  
reaching in  
and taking  
one. But what  
will she do  
when all the  
other stars  
come  
tumbling out  
of the  
painting, too?  
Will Katie be  
able to catch  
the stars  
before the  
gallery guard  
notices  
they've

floated away? 'A wonderful way to engage children with art. A brilliant combination of education and storytelling' - Parents in Touch (Katie's Picture Show) This first introduction to Van Gogh features five of his most brilliant paintings: The Starry Night, Noon, Vincent's Chair, Fishing Boats on the Beach and The Olive Grove. Classic	picture book character, Katie, has been delighting children for over 25 years. Why not collect all 13 titles in the series? Katie's Picture Show Katie and the Impressionists Katie and the Mona Lisa Katie and the Sunflowers Katie and the British Artists Katie and the Waterlily Pond Katie and the Spanish Princess Katie and the Bathers Katie	in London Katie's London Christmas Katie in Scotland Katie and the Dinosaurs <i>Pumpkin Jack</i> National Academies Press Teaching guide to be used with Science Vocabulary Readers: Butterfly Life Cycle -- Frog Life Cycle -- Chick Life Cycle -- Horse Life Cycle -- Ladybug Life Cycle -- Sunflower Life Cycle.
