Soul Fire Farm's Practical Guide to Liberation on the Land Courier Dover Publications

With the same unique vision that brought his now classic Mars trilogy to vivid life, bestselling author Kim Stanley Robinson boldly imagines an alternate history of the last seven hundred years. In his grandest work yet, the acclaimed storyteller constructs a world vastly different from the one we know. . . . "A thoughtful, magisterial alternate history from one of science fiction's most important writers."—The New York Times Book Review It is the fourteenth century and one of the most apocalyptic events in human history is set to occur—the coming of the Black Death. History teaches us that a third of Europe's population was destroyed. But what if the plague had killed 99 percent of the population instead? How would the world have changed? This is a look at the history that could have been—one that stretches across centuries, sees dynasties and nations rise and crumble, and spans horrible famine and magnificent innovation. Through the eyes of soldiers and kings, explorers and philosophers, slaves and scholars, Robinson navigates a world where Buddhism and Islam are the most influential and practiced religions, while Christianity is merely a historical footnote. Probing the most profound questions as only he can, Robinson shines his extraordinary light on the place of religion, culture, power—and even love—in this bold New World. "Exceptional and engrossing."—New York Post "Ambitious . . . ingenious."—Newsday

The Book of Salt Algonquin Books

This impassioned history tells a story of censorship and politics during the early Cold War. The author recounts the 1950 Empire Zinc Strike in Bayard, New Mexico, the making of the extraordinary motion picture *Salt of the Earth* by Local 890 of the International Union of Mine, Mill, and Smelter Workers, and the film's suppression by Hollywood, federal and state governments, and organized labor. This disturbing episode reflects the intense fear that gripped America during the Cold War and reveals the unsavory side of the rapprochement between organized labor and big business in the 1950s. In the face of intense political opposition, blackballed union activists, blacklisted Hollywood artists and writers, and Local 890 united to write a script, raise money, hire actors and crews, and make and distribute the film. Rediscovered in the 1970s, *Salt of the Earth* is a revealing celluloid document of socially conscious unionism that sought to break down racial barriers, bridge class divisions, and emphasize the role of women. Lorence has interviewed participants in the strike and film such as Clinton Jencks and Paul Jarrico and has consulted private and public archives to reconstruct the story of this extraordinary documentary and the coordinated efforts to suppress it.

Taste of Salt Vintage Canada

Racing to freedom with thousands of other refugees as Russian forces close in on their homes in East Prussia, Joana, Emilia, and Florian meet aboard the doomed Wilhelm Gustloff and are forced to trust each other in order to survive.

Short Stories Ember

Spell-binding evocation of Bedouin life in the 1930s when oil is discovered by Americans in an

unnamed Persian Gulf kingdom.

A Novel Chronicle Books

In 1920, 14 percent of all land-owning US farmers were black. Today less than 2 percent of farms are controlled by black people—a loss of over 14 million acres and the result of discrimination and dispossession. While farm management is among the whitest of professions, farm labor is predominantly brown and exploited, and people of color disproportionately live in "food apartheid" neighborhoods and suffer from diet-related illness. The system is built on stolen land and stolen labor and needs a redesign. *Farming While Black* is the first comprehensive "how to" guide for aspiring African-heritage growers to reclaim their dignity as agriculturists and for all farmers to understand the distinct, technical contributions of African-heritage people to sustainable agriculture. At Soul Fire Farm, author Leah Penniman co-created the Black and Latinx Farmers Immersion (BLFI) program as a container for new farmers to share growing skills in a culturally relevant and supportive environment led by people of color. *Farming While Black* organizes and expands upon the curriculum of the BLFI to provide readers with a concise guide to all aspects of small-scale farming, from business planning to preserving the harvest. Throughout the chapters Penniman uplifts the wisdom of the African diasporic farmers and activists whose work informs the techniques described—from whole farm planning, soil fertility, seed selection, and agroecology, to using whole foods in culturally appropriate recipes, sharing stories of ancestors, and tools for healing from the trauma associated with slavery and economic exploitation on the land. Woven throughout the book is the story of Soul Fire Farm, a national leader in the food justice movement. The technical information is designed for farmers and gardeners with beginning to intermediate experience. For those with more experience, the book provides a fresh lens on practices that may have been taken for granted as ahistorical or strictly European. Black ancestors and contemporaries have always been leaders—and continue to lead—in the sustainable agriculture and food justice movements. It is time for all of us to listen.

Grand Canyon Association

Magic passed down through generations. An island where strange things happen. One summer that will become legend. Practical Magic meets Nova Ren Suma's *Imaginary Girls* and Laura Ruby's *Bone Gap* in this lush, atmospheric novel by acclaimed author Katrina Leno. Georgina Fernweh waits impatiently for the tingle of magic in her fingers—magic that has touched every woman in her family. But with her eighteenth birthday looming at the end of this summer, Georgina fears her gift will never come. Over the course of her last summer on the island—a summer of storms, falling in love, and the mystery behind one rare three-hundred-year-old bird—Georgina will learn the truth about magic, in all its many forms. Praise for Katrina Leno: "Leno's writing is flawless. Readers of all ages will find themselves swept away." —VOYA "Charming and sophisticated." —Kirkus "Crackles with wit, humor, and enormous love."—Booklist (starred review) "Introduces a fierce new presence."—Publishers Weekly (starred review)

Salt Houses UNM Press

In this warm, lively account of living on and by the sea, Sarah Drummond writes of life as an

apprentice fisherwoman. Through her firsthand experience with small-scale commercial fishing in the Great Southern, Drummond documents a way of life—fishing—that is slowly dying as waters become politicized and fished out. She writes of fishing, of feuds, and of all the fish that got away. Salt Story is a tribute to sea-dogs, fisherwomen, oystermen, and storytellers everywhere.

The Story of Salt The Story of Salt

How food industry lobbyists and a small group of scientists have successfully fought government efforts to reduce dangerous levels of sodium in our food. A high-sodium diet is deadly; studies have linked it to high blood pressure, strokes, and heart attacks. It's been estimated that excess sodium in the American diet causes as many as 100,000 deaths and many billions of dollars in avoidable health-care costs each year. And yet salt is everywhere in our diets—in packaged foods, fast foods, and especially meals at table-service restaurants. Why hasn't salt received the sort of public attention and regulatory action that sugar and fat have? In Salt Wars, Michael Jacobson explains how the American food industry and a small group of scientists have successfully fought government efforts to reduce dangerous levels of sodium in our food. Despite an abundance of research going back more than half a century showing that high-sodium diets lead to hypertension and other ills, a few scientists argue the opposite—that American consume a healthy amount of salt and that eating less would increase the risk of cardiovascular disease. This “man bites dog” take on sodium confused consumers and was enthusiastically taken up by food industry lobbyists. Jacobson, a salt wars combatant for more than forty years, explains what science actually says about salt intake and rebuts “sodium skeptics.” He discusses what other countries are doing to cut dietary salt, and describes some recent victories in the United States. He advises readers how to reduce salt—warning them against “salt bombs” (Campbell's Chicken Noodle Soup, for example, packs an entire day's worth of sodium in one can)—and calls on them to suit up for the next battle in the salt wars.

A Gripping Story of Love and Courage. Jonathan Cape

The Pillar of Salt is a "semi-autobiographical novel about a young boy growing up in French colonized Tunisia. To gain access to privileged French society, he must reject his many identities - Jew, Arab, and African. But, on the eve of World War II, he is forced to come to terms with his loyalties and his past"--Google Books.

The Adventures of Salt and Soap at Grand Canyon MIT Press

Ali's father is a Turkish circus musician performing in Kabul when Ali's mother, a young pediatrician from Melbourne, meets him in a bar. He plays the trumpet, the saz, the flute, hears voices that urge him to violence, sees angels in the skies and djinns in the street, inscribes prayers and invocations on the walls of his room, and across the suburb. Ülgezer offers a remarkable portrait of this crazed visionary, a madman and a mystic, intoxicated with hashish and Sufism, who wrecks the family, but is also an enchanted being. Ali's mother has grown up on Australia's outback frontiers? their c.

Set in the gripping world of 1906 Ybor City, Florida, bright and ambitious fifteen-year-old ANGELINA PIRRELLO comes of age, a first generation American. Amid the turmoil of the Suffragettes fierce fight for women's rights, the violent threat of the Italian mafia, and under the strict rule of her Sicilian father, Angelina struggles to find her way. Forced to quit school, and accept work in a cigar factory,

Angelina remains determined to fulfill her dreams, when a devastating fire erupts at the factory. In its midst, Angelina meets ROLANDO and soon discovers love. Her excitement is swiftly shattered when her father arranges for her to marry a man she dislikes. With nowhere to turn, Angelina faces a critical and irrevocable crossroads of family honor and security or the uncertainty of a turbulent world.

The Empress of Salt and Fortune TorDotCom

Bestselling popular science author Dr. Joe Schwarcz debunks the baloney and serves up the raw facts in this appetizing collection about the things we eat. Eating has become a confusing experience. Should we follow a keto diet? Is sugar the next tobacco? Does fermented cabbage juice cure disease? Are lectins toxic? Is drinking poppy seed tea risky? What's with probiotics? Can packaging contaminate food? Should our nuts be activated? What is cockroach milk? We all have questions, and Dr. Joe Schwarcz has the answers, some of which will astonish you. Guaranteed to satisfy your hunger for palatable and relevant scientific information, Dr. Joe separates fact from fiction in this collection of new and updated articles about what to eat, what not to eat, and how to recognize the scientific basis of food chemistry.

The Battle Over the Biggest Killer in the American Diet W. W. Norton & Company

From the award-winning and bestselling author of Cod comes the dramatic, human story of a simple substance, an element almost as vital as water, that has created fortunes, provoked revolutions, directed economies and enlivened our recipes. Salt is common, easy to obtain and inexpensive. It is the stuff of kitchens and cooking. Yet trade routes were established, alliances built and empires secured - all for something that filled the oceans, bubbled up from springs, formed crusts in lake beds, and thickly veined a large part of the Earth's rock fairly close to the surface. From pre-history until just a century ago - when the mysteries of salt were revealed by modern chemistry and geology - no one knew that salt was virtually everywhere. Accordingly, it was one of the most sought-after commodities in human history. Even today, salt is a major industry. Canada, Kurlansky tells us, is the world's sixth largest salt producer, with salt works in Ontario playing a major role in satisfying the Americans' insatiable demand. As he did in his highly acclaimed Cod, Mark Kurlansky once again illuminates the big picture by focusing on one seemingly modest detail. In the process, the world is revealed as never before.

Farming While Black Houghton Mifflin Harcourt

The Story of Salt Puffin

House of Salt and Sorrows Vintage Canada

A novel of Paris in the 1930s from the eyes of the Vietnamese cook employed by Gertrude Stein and Alice B. Toklas, by the author of The Sweetest Fruits. Viewing his famous mesdames and their entourage from the kitchen of their rue de Fleurus home, Binh observes their domestic entanglements while seeking his own place in the world. In a mesmerizing tale of yearning and betrayal, Monique Truong explores Paris from the salons of its artists to the dark nightlife of its outsiders and exiles. She takes us back to Binh's youthful servitude in Saigon under colonial rule, to his life as a galley hand at sea, to his brief, fateful encounters in Paris with Paul Robeson and the young Ho Chi Minh. Winner of the New York Public Library Young Lions Fiction Award A Best Book of the Year: New York Times, Village Voice, Seattle Times, Miami Herald, San Jose Mercury News, and

others "An irresistible, scrupulously engineered confection that weaves together history, art, and human nature...a veritable feast."—Los Angeles Times "A debut novel of pungent sensuousness and intricate, inspired imagination...a marvelous tale."—Elle "Addictive...Deliciously written...Both eloquent and original."—Entertainment Weekly "A mesmerizing narrative voice, an insider's view of a fabled literary household and the slow revelation of heartbreaking secrets contribute to the visceral impact of this first novel."—Publishers Weekly, starred review

Salt Story Farrar, Straus and Giroux (BYR)

Wars have been fought over it, revolutions have been spurred by it, national diets have been based on it, economies have depended on it, and the settlement of North America was driven by it. Cod, it turns out, is the reason Europeans set sail across the Atlantic, and it is the only reason they could.

What did the Vikings eat in icy Greenland and on the five expeditions to America recorded in the Icelandic sagas? Cod -- frozen and dried in the frosty air, then broken into pieces and eaten like hardtack. What was the staple of the medieval diet? Cod again, sold salted by the Basques, an enigmatic people with a mysterious, unlimited supply of cod. Cod is a charming tour of history with all its economic forces laid bare and a fish story embellished with great gastronomic detail. It is also a tragic tale of environmental failure, of depleted fishing stocks where once the cod's numbers were legendary. In this deceptively whimsical biography of a fish, Mark Kurlansky brings a thousand years of human civilization into captivating focus.

Tears of Salt: A Doctor's Story HarperCollins

Seven superb short stories from the bestselling author of *Charlie and the Chocolate Factory* and *The*

BFG! Meet the boy who can talk to animals and the man who can see with his eyes closed. And find out about the treasure buried deep underground. A clever mix of fact and fiction, this collection also includes how master storyteller Roald Dahl became a writer. With Roald Dahl, you can never be sure where reality ends and fantasy begins. "All the tales are entrancing inventions." —Publishers Weekly

Of Sea-Dogs and Fisherwomen Puffin

Concerns the struggle of Biberman (one of the Hollywood Ten) to produce and distribute the film against blacklisting and boycott within the film industry.

OR Carol ECW Press

There are some people who can never come straight to a point. If you ask them a simple question like what is the time? They would probably reply, "Time! This is the most horrible time of my life. My father is not sending me more money, I can't understand any damn thing in the lectures, no girl ever seems to be interested in me and the hostel food is pathetic. It is the worst time of my life." In short, this book is like a 'handbook of everyday humour'. It is based on observation of funny tendencies in people and then creating fictional caricatures and anecdotes around them. The tendency of beating around the mulberry bush has been converted into a fictional character called 'Simon Satellite'. And yes, there are many more such characters and anecdotes, served With a Pinch of Salt...

The Price of Salt Spectra

A novel on the lot of Arab women. Set in Jordan in the 1940s, the protagonists are two women in a mental hospital who exchange stories. One is a mother of eight who was repudiated by her husband so he could marry a younger woman. By a Jordanian writing in English, author of *Nisanit*.
