Black Harvard Doctorate in Poetics launches poetry that explores modern blackness. Clint Smith's debut poetry collection, *Counting Descent*, is a coming of age story that seeks to complicate our conception of lineage and tradition. Smith explores the cognitive dissonance that results from belonging to a community that unapologetically celebrates black humanity while living in a world that often renders blackness a caricature of fear. His poems move fluidly across personal and political histories, all the while reflecting on the social construction of our lived experiences. Smith brings the reader on a powerful journey forcing us to reflect on all that we learn growing up, and all that we seek to unlearn moving forward. - Winner, 2017 Black Caucus of the American Library Association Literary Award - Finalist, 2017 NAACP Image Awards - 2017 'One Book One New Orleans' Book Selection

There's only one Michael Jordan. By acclamation, Michael Jordan is the greatest basketball player of all time. Although, a summary of his basketball career and influence on the game inevitably fails to do it justice, as a phenomenal athlete with a unique combination of fundamental soundness, grace, speed, power, artistry, improvisational ability and an unquenchable competitive desire, Jordan single-handedly redefined the NBA superstar. Even contemporaneous superstars recognized the unparalleled position of Jordan. Magic Johnson said, "There's Michael Jordan and then there is the rest of us." Larry Bird, following a playoff game where Jordan dropped 63 points on the Boston Celtics in just his second season, appraisal of the young player was: "God disguised as Michael Jordan." "Never say never, because limits, like fears, are often just an illusion." - Michael Jordan

The editorial policy of *Anglo-Saxon England* has been to encourage an interdisciplinary approach to the study of all aspects of Anglo-Saxon culture. This approach is pursued in exemplary fashion by many of the essays in this volume. Fresh light is thrown on the dating and form of Cynewulf's poem *The Fates of the Apostles* through a comprehensive study of the historical martyrologies of the Carolingian period on which Cynewulf is presumed to have drawn. The literary form of Ælfric's Preface to his translation of Genesis is illustrated through a wide-ranging study of the rhetorical genre of preface-writing in the early Middle Ages (the genre which subsequently was known as the *ars dictaminis*), and the problems which Ælfric faced and solved in composing a *Life of St Æthelthryth* are illustrated through detailed comparison of the sources which he utilized. The usual comprehensive bibliography of the previous year's publications in all branches of Anglo-Saxon studies rounds off the book.
