Legendary grower Ed Rosenthal shares his knowledge and experience on every portion of the marijuana plant's life cycle, giving advice from seed selection to harvesting. Includes information on growth rate, lighting, CO2, temperature, nutrients, water and sexing plants. With a colour photo section, index, bibliography, tables and charts.

Weiss's Herbal Medicine Thieme

Der Gebrauch von Naturdrogen ist mittlerweile keine exotische Randerscheinung mehr, sondern im Mainstream vieler, meist junger Konsumenten angekommen. Dieses Buch enthält wissenschaftlich fundierte Informationen über dieses Phänomen, besonders für Menschen, die viel mit Jugendlichen und jungen Erwachsenen zu tun haben, wie z.B. Pädagogen und Sozialarbeiter. Der Autor verzichtet auf eine unsachlich-verteufelnde Darstellung, die gerade für den Praktiker alles andere als hilfreich wäre. Aber auch jeder andere Leser, der sich für dieses aktuelle Thema interessiert, wird nicht nur von der ausführlichen Beschreibung aller wichtigen Naturdrogen profitieren, sondern findet in den Abschnitten über die Kulturgeschichte und den generellen Gebrauch weitere wichtige und interessante Informationen. Ein sehr ausführliches

Quellenverzeichnis rundet dieses Werk ab.

Naturdrogen und ihr Gebrauch Nachtschatten Verlag

The classic edition is back! First published in 1988, Weiss's Herbal Medicine is revered by herbalists and medical professionals alike as the seminal work in the field of phytotherapy. This book has established itself as an indispensable resource and is widely acknowledged as the key text in the field of medical herbalism. You will find clear, detailed information on treating conditions ranging from colds and influenza to rheumatic problems, metabolic and endocrine disorders, cancer, and much more. Conveniently arranged by organ system, the text provides guidelines for prescribing herbal remedies, with sections on dosage, application, and precautionary measures. Plus, for each plant discussed, you will find lists of their occurrence, botanical features, differentiation from related species, constituents, and medical benefits. Proprietary formulations, full references, and a comprehensive subject index of almost 2,000 entries round out the superb coverage! Weiss's life's work examines the subject of herbal medicine from both a clinical and practical viewpoint, incorporating his personal observations and clinical experience with scientific studies. This material formed the basis of Herbal Medicine, 2E, also by Thieme. The second edition, revised, expanded and modernized by Volker Fintelmann, streamlines the work into a more clinical text, incorporating the latest scientific research and Commission E findings on the efficacy of herbs. This

edition is recommended for allopathic physicians and other medical professionals who are new to the field of herbal medicine. Professor Rudolf Fritz Weiss (1895-1991) is highly regarded as the founding father of modern German phytotherapy. He studied botany and medicine at the University of Berlin, qualifying as a doctor in 1922 and subsequently taking additional qualifications in internal medicine. A teaching post in herbal medicine was interrupted by war service as an army doctor, followed by seven years in Russian captivity as a doctor in prisoner-of-war camp hospitals. After retiring from clinical practice in 1961, he devoted his life to the scientific development and acceptance of herbal medicine. Weiss was appointed as a member of the German Commission E in 1978. He was founder and editor of the Zeitschrift fuer Phytotherapie, and lectured on current advances in the subject at the University of Tuebingen.

The Starseed Signals - Link Between Worlds Ronin Publishing

Guide to cultivating peyote and other psychoactive cacti and extracting active properties, including obtaining seeds, growing a variety of cacti, cloning, and grafting, and extracting the maximum output of mescaline and other alkaloids, descriptions of procedures used for extracting mescaline from peyote and San Pedro, and legal aspects prepared by Attorney Richard Glen Boire.
