## LUCERO HICKS

*How We Think* Elsevier Health Sciences  
 The syllabus for the FRCS (ORL-HNS) is vast, and a sound preparation for the exams has traditionally involved assimilating knowledge from a wide range of sources. This book provides a focussed guide for exam candidates. More than a question and answer book, this book is a coaching manual. Each section features a combination of model answers, pearls of wisdom, checklists and pointers for further reading. Detailed advice is provided for both Part 1 and Part 2 of the examination. Viva topics that have featured in the exam in recent years have been included, and have then been supplemented by invaluable editorial contributions from leaders in each of the subspecialties.

Trainees frequently comment that exam preparation is an enlightening process and the knowledge gained would have served them well during their time as an ENT registrar or Otorhinolaryngology resident. This book will also serve as a valuable learning tool for trainees as early as ST3 and facilitate their development of effective and safe clinical practice. *Postgraduate Orthopaedics* CRC Press  
 This concise textbook covers all the practical and theoretical aspects necessary for those taking exams or wishing to update their knowledge of pediatric ENT medicine. The book is divided into sections covering rhinology, otology and head and neck problems. Uniformly structured chapters, written by internationally recognized experts in their fields, cover all relevant topics comprehensively and succinctly. The book includes more than 300 figures, almost

half in color. This useful and reader-friendly textbook will be inspirational to young specialists with an interest in pediatric ENT, useful to those who are due to take their final exams, and informative for established specialists. *Otolaryngology--Head and Neck Surgery* Cambridge University Press  
 Preparing to Pass the FRCA: Strategies for Exam Success equips you with the skills of effective revision and time management to maximise your success. The book takes each element of the FRCA exam and provides tips and techniques on how to approach the different types of questions, and includes worked examples with answers, so that you can undertake your revision accordingly. It will help you to target your revision so you can cover the breadth of topics in the FRCA syllabus and ensure that you structure your revision in an efficient way, as well as helping you to

approach the exam and convey your knowledge through writing or speech correctly. Taking many common problems candidates face when preparing for this exam, the book covers motivation, effective studying, managing nerves, and scheduling time to study amongst other commitments.

**MCQs for ENT** Fastprint Publishing  
Dr. Aviv guides readers through healthy dietary choices with targeted recipes, helping them balance their bodies and minds for optimal health and break acid-generating habits for good. Do you suffer from abdominal bloating; a chronic, nagging cough or sore throat; postnasal drip; a feeling of a lump in the back of your throat; allergies; or shortness of breath? If so, odds are that you are experiencing acid reflux without recognizing its silent symptoms, which can lead to serious long-term health problems, including esophageal cancer. In *The Acid Watcher Diet*, Dr. Jonathan Aviv, a leading authority on the diagnosis and treatment of acid reflux disease, helps readers identify those often misunderstood symptoms while providing a proven solution for reducing whole-body acid damage quickly and easily. His 28-day program is part of a two-phase eating plan, with a healthy balance of both macronutrients (proteins, carbs, and fats) and micronutrients (vitamins, minerals, antioxidants), that works to immediately neutralize acid and relieve the inflammation at the root of acid reflux.

Scott-Brown's Essential Otorhinolaryngology, Head & Neck Surgery  
Thieme

This is the first revision book to be published specifically for candidates sitting the FRCS(Urol) examination, which tests the required standard of a recognised Urology specialist. It provides a selection of common clinical scenarios together with a guide to answering the FRCS(Urol) questions. Each chapter is written by Consultant Urological Surge

*The Acid Watcher Cookbook* Oxford Higher Specialty Training

*Vivas for the Oral and Maxillofacial Surgery* FRCS provides candidates with 100 high-quality viva topics and expert guidance to prepare for this difficult exit oral exam. Written and edited by consultant oral and maxillofacial surgeons who have succeeded in the exam, this book provides comprehensive coverage of theory and practice. Split into 15 chapters of key sub-specialties, all 100 questions are mapped to the surgical curriculum preparing you for the FRCS oral examination. Each topic contains a visual aid, such as an x-ray or photograph, to

replicate exam conditions. All answers have a full explanation and further reading to ensure high-quality self-assessment and quick recognition of areas that require further study. Providing a thorough assessment of the reader's oral and maxillofacial surgery knowledge, this is an essential revision book for any candidate facing the Oral and Maxillofacial Surgery FRCS oral examination.

**ENT OSCEs** CRC Press

This book is designed specifically for candidates preparing for the MRCS Viva examination. The format of the exam has been used in the book's structure, with over 1000 questions to illustrate the key points of over 200 topics.

Viva Tutorials for Surgeons in Training  
Thieme

The first revision text aimed specifically at the Knowledge-Based Assessment, *Revision Notes for Cardiology* exactly maps the core cardiology training curriculum to provide a clearly structured and easily accessible guide to this now-compulsory examination.

Essential Revision Notes for Cardiology KBA  
CRC Press

*Statistical Power Analysis* is a nontechnical guide to power analysis in research planning that provides users of applied statistics with the tools they need for more effective analysis. The Second Edition includes: \* a chapter covering power analysis in set correlation and multivariate methods; \* a chapter considering effect size, psychometric reliability, and the efficacy of "qualifying" dependent variables and; \* expanded power and sample size tables for multiple regression/correlation.

Viva in Otolaryngology Head & Neck Surgery (PB)  
Routledge

This well-organized text for rapid clinical and board review contains high-yield facts using a question and answer format that covers all subspecialty topics in otolaryngology. It combines clinically relevant facts with hard-to-remember, commonly tested details and presents them in an easy-to-follow layout that allows clinicians to quickly review large amounts of information. Key Features: More than 9,000 high-yield questions and answers, half provided in the book and the other half online Portable for quick reference during downtimes such as in between rounds or while traveling Clinical pearls on patient evaluation and management This review book is a must-have for residents preparing for in-service exams or initial board certification exams as well as seasoned clinicians studying for their MOC Part III re-certification exams.

*Viva Practice for the FRCS(Urol) and*

*Postgraduate Urology Examinations*  
Createspace Independent Publishing Platform

The book aims to help all students preparing for various postgraduate entrance examinations and all the undergraduate students preparing for their professional examinations. Postgraduate students can also use it for a quick revision of ENT concepts

*Pediatric ENT* Createspace Independent Publishing Platform

In recent years the basic science viva of the Final FRCA has evolved a more clinical perspective. The new edition of the highly successful *Anaesthesia Science Viva Book* incorporates this new clinical emphasis, giving candidates an insight into the way the viva works, offering general guidance on exam technique, and providing readily accessible information relating to a wide range of potential questions. Questions are divided broadly into the four areas covered by the exam: applied anatomy, physiology, pharmacology and clinical measurement. Answers have been constructed to provide candidates with more than enough detail to pass the viva. Covering the full scope of the basic science syllabus, and written by an experienced FRCA examiner, *The Anaesthesia Science Viva Book*, second edition, is an essential purchase for every Final FRCA candidate.

*ENT FOR ENTRANCE EXAMS (EEE)* Viva Training in ENT

The range of topics which you may be questioned on during a final ENT Viva exam can be very varied. Viva Training in ENT ensures you can answer any question confidently and comprehensively, this book provides you with over 430 examples, mirroring exactly the format of the examination questions and covering all the relevant areas of the curriculum. Dedicated chapters on topics such as rhinology, head and neck, otology and paediatrics take you through the types of scenarios that you are likely to face, often presenting you with a clinical example and asking you a range of questions to test not only your diagnostic skills, but also your supporting knowledge. Three further chapters cover the clinical section of the exam involving patients, and the operative surgery and communication skills stations. These chapters provide both example scenarios and general advice on how to impress the examiners, giving you a thorough grounding in how best to communicate your knowledge and complete tasks calmly and methodically. For each question, detailed model answers and explanatory notes are provided, along with links to relevant websites and key

journal articles for further reference.

Questions are supplemented with over 85 illustrations and photographs, allowing you to review real examples of the conditions about which you will be questioned. For any candidate wishing to complete the FRCS (ORL-HNS) or the DOHNS Viva with professionalism and a real depth of knowledge, this book's detail and variety of information will be invaluable. Its clear layout and topical structure also make it ideal for surgeons wishing to refresh their clinical knowledge.

*Vascular Lesions of the Head and Neck*  
PasTest Ltd

The perfect trainee companion for postgraduate and exit exams in otolaryngology-head and neck surgery Concise and to-the-point, this book provides a highly effective review and study aid for postgraduate and exit exam candidates in otolaryngology-head and neck surgery. It covers the full breadth of the field in manageable nuggets of information that are easily learned and retained, and ensures that trainees are prepared for all frequently asked exam questions. Special Features: Distills key facts into bullet points for rapid access to essential information, without the need to wade through lengthy, extraneous material Covers the full range of topics in the modern ENT syllabus, as well as other important areas (e.g., imaging techniques, pharmacology, medical statistics) that are encountered in today's exams Organized by subspecialty for quick, convenient review of selected topics Serves equally well as a compact reference and refresher in the clinic, hospital or operating theatre Offers a valuable overview of otolaryngology for trainees in allied specialties, such as maxillofacial and plastic surgery, audiology and speech-language pathology Primarily geared to the Diploma of Otolaryngology-Head Neck Surgery (DOHNS) and Fellowship Intercollegiate (FRCS-ORL HNS) exams in the UK, Key Revision for Otolaryngology is also an excellent learning resource for similar tests in Europe, India, Canada, Australia, New Zealand, South Africa and other countries. It is ideal as a current, comprehensive, study and revision aid in this rapidly expanding specialty. Thieme eOtolaryngology is the premier online resource for otolaryngology-head and neck surgery. *Statistical Power Analysis for the Behavioral Sciences* CRC Press

Jonathan Aviv, renowned ENT physician and author of The Acid Watcher Diet, supplies readers with new recipes and advice on how to stay acid-free and reverse inflammation for optimal health. In The Acid Watcher Diet, Dr. Jonathan Aviv gave acid reflux sufferers a pathway to healing, helping them identify the silent symptoms of acid damage and providing a two-phase eating and lifestyle plan to reduce whole-body acid damage and inflammation. Now, The Acid Watcher Cookbook widens the possibilities of what acid watchers can eat without repercussions. For many people struggling with acid damage, acidic foods like tomatoes, citrus fruits, vinegar, and reflux-inducing foods like raw onion and garlic, and chocolate are off-limits. After hearing patient after patient bemoaning the loss of vinaigrette, tomato sauce, ketchup, guacamole, and other staples, Dr. Aviv and coauthor Samara Kaufmann Aviv developed an innovative method of cooking that combines acidic foods with alkaline foods so that acidity is neutralized. By following a few simple guidelines, anyone will be able to enjoy dishes that had previously exacerbated their acid reflux symptoms. The 100 new Acid Watcher-approved recipes included in this comprehensive cookbook are delicious, safe, and anti-inflammatory, allowing readers to reclaim the foods they love without risking their health. With recipes such as Cauliflower Pizza, Plant-Based Chili, Butternut Squash "Mac 'n' Cheese" and creative basics including Tahini Dressing, Beet Ketchup, and Garlic Aioli, along with meal plans and food lists, The Acid Watcher Cookbook is a must-have for anyone with acid damage.

*The Acid Watcher Diet* Oxford University Press
