Pasicrisie Internationale 1794-1900

Martinus Nijhoff Publishers

What is the relationship between the ideas of the Enlightenment and the culture and ideology of the French Revolution? This book takes up that classic question by concentrating on changing conceptions of language and, especially, signs during the second half of the eighteenth century. The author traces, first, the emergence of a new interest in the possibility of gestural communication within the philosophy, theater, and pedagogy of the last

decades of the Old Regime. She then explores the varied uses and significance of a variety of semiotic experiments, including the development of a sign language for the deaf, within the language politics of the Revolution. *A Revolution in Language* shows not only that many key revolutionary thinkers were unusually preoccupied by questions of language, but also that prevailing assumptions about words and other signs profoundly shaped revolutionaries' efforts to imagine and to institute an ideal polity between 1789 and the start of the new century. This book reveals the links between Enlightenment epistemology and the development of modern French political

culture.

Recueil Des Cours, Collected Courses, 1951 Martinus Nijhoff Publishers

When the United Nations undertook the publication of the Reports of International Arbitral Awards, the 'Pasicrisie internationale' was identified as one of the rare truly general collections of international case law in existence. In fact, in deciding to publish the arbitration clauses and arbitral awards from 1794 to 1900, Henri La Fontaine was doing pioneering work, foreshadowing the famous Reports by half a century. As we near the end of the century, the 'Pasicrisie internationale' remains just as pertinent as it was when first published in 1902. This collection of arbitral awards, with its modest

appearance, has certainly contributed more to the development of international arbitration case law than any number of lyrical speeches advocating peace through law. First edition printed in 1902 by Stämpfli, Bern. Lorsque l'Organisation des Nations Unies entreprit la publication de son Recueil des sentences arbitrales, elle identifia la Pasicrisie internationale comme constituant l'une des rares véritables collections générales de jurisprudence internationale préexistantes. De fait, en décidant de rassembler les clauses compromissaires et les sentences arbitrales de 1794 à 1900, Henri La Fontaine avait fait oeuvre de pionnier et il préfigurait, avec un demi-siècle d'avance, le célèbre Recueil. En cette fin de siècle, la

Pasicrisie internationale constitue donc un outil de travail toujours aussi actuel que lors de sa publication en 1902. Cette compilation de sentences arbitrales, d'apparence modeste, a certainement plus contribué au développement de la jurisprudence arbitrale internationale que bien des discours lyriques prônant la paix par le droit. Première édition imprimée en 1902 par Stämpfli, Berne.

The Academy is a prestigious international institution for the study and teaching of Public and Private International Law and related subjects. The work of the Hague Academy receives the support and recognition of the UN. Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law. The courses deal with the theoretical and practical aspects of the subject, including legislation and case law. All courses at the Academy are, in principle, published in the language in which they were delivered in the "Collected Courses of the Hague Academy of International Law".

OEuvres Complètes de H. de Balzac
 Martinus Nijhoff Publishers

Various graphic systems designed to express and transmit ideas or to convey messages were known in sub-Saharan Africa in pre-colonial times, ideographic and pictographic systems. One of the most intriguing of these traditions, known across eastern Angola into northwestern Zambia, among speakers of Luchazi, Chokwe, Lwena and related languages is the tusona ideographs. This work is a fascinating excursion into symbolism, the remote history of eastern Angola, Luchazi oral literature, mathematics, graphic art and communication.

This collection of studies in honor of François Bovon highlights the rich diversity found within early expressions of Christianity as evidenced in ancient texts, in early traditions and movements, and in archaic symbols and motifs.

A Revolution in Language Martinus Nijhoff Publishers

The three-volume series titled *The Presence of the Prophet in Early Modern*

and Contemporary Islam, is the first attempt to explore the dynamics of the representation of the Prophet Muhammad in the course of Muslim history until the present. This first collective volume outlines his figure in the early Islamic tradition, and its later transformations until recent times that were shaped by Prophet-centered piety and politics. A variety of case studies offers a unique overview of the interplay of Sunnī and Shī'ī doctrines with literature and arts in the formation of his image. They trace the integrative and conflictual qualities of a "Prophetic culture", in which the Prophet of Islam continues his presence among the Muslim believers. Contributors Hiba Abid, Nelly Amri, Caterina Bori, Francesco Chiabotti, Rachida Chih, Adrien de Jarmy,

Daniel De Smet, Mohamed Thami El Harrak, Brigitte Foulon, Denis Gril, Christiane Gruber, Tobias Heinzelmann, David Jordan, Pierre Lory, Catherine Mayeur-Jaouen, Samuela Pagani, Alexandre Papas, Michele Petrone, Stefan Reichmuth, Meryem Sebti, Dilek Sarmis, Matthieu Terrier, Jean-Jacques Thibon, Marc Toutant, Ruggiero Vimercati Sanseverino.

This handbook offers a compilation of techniques and results in K-theory. Each chapter is dedicated to a specific topic and is written by a leading expert. Many

chapters present historical background; some present previously unpublished results, whereas some present the first expository account of a topic; many discuss future directions as well as open problems. It offers an exposition of our current state of knowledge as well as an implicit blueprint for future research.
