<p><u>Labor</u> <u>Conference</u> BoD - Books on Demand "Report of the Dominion fishery commission on the fisheries of the province of Ontario, 1893", issued as vol. 26, no. 7, supplement. <i>Pamphlets on Industrial Management and the Taylor System</i> BoD - Books on Demand This exceptional Complete Works edition documents the enormous spectrum in the oeuvre of one of the</p>	<p>most influential architects of the 20th Century. Published between 1929 and 1970, in close collaboration with Le Corbusier himself, and frequently reprinted ever since, the eight volumes comprise an exhaustive and singular survey of his work. <i>Lecons Completes D'histoire, de Fance</i> Cambridge University Press The geological and osteological</p>	<p>papers, published in 1812, of the influential early palaeontologis t Georges Cuvier (1769-1832), discoverer of extinction. L'orf?vrierie alg?rienne et tunisienne Taylor & Francis This volume is concerned with the eschatology of Origen, the great 3rd century theologian and philosopher of Alexandria. Of all the doctrines attributed to him, those on the</p>
---	--	---

resurrection of man and the end of days have evoked the most opposition and controversy, from Antiquity to the Patristic scholarship of today. Professor Crouzel argues that the thought of Origen himself has been consistently misunderstood and distorted, from the time of Methodius of Olympia onwards, and that renewed examination of Origen's own surviving writings can lead to a radically	differing assessment of the orthodoxy of his views. Among the particular points discussed are Origen's doctrine of Purgatory, commonly supposed to be a particularity of the Latin Church, and the relationship in his thought between the final purification at the end of time and the spiritual purification of existence here on earth. Ce volume traite de l'eschatologie	d'Origène, le grand théologien et philosophe alexandrin du IIIe siècle. De toutes les doctrines qui lui sont attribuées, ce sont celles sur la resurrection de l'homme et a la fin des jours qui ont provoqué le plus d'opposition et de controverse de l'Antiquité jusqu'à notre époque. Le Père Henri Crouzel maintient que la pensée véritable d'Origène a été constamment mal
--	--	---

<p>interprétée et corrompue et ce, dès l'époque de Méthode d'Olympe. Selon l'auteur, un nouvel examen des écrits d'Origène peut mener à une appréciation totalement différente de l'orthodoxie du theologien. Parmi les points spécifiques debattus sont: la doctrine d'Origène sur la purgatoire - communément supposée être un domaine latin - et sur le rapport, dans</p>	<p>ses pensées, entre l'ultime purification de la fin des temps et celle, d'ordre spirituel, de l'existence ici- bas sur terre. <i>Debates in the Senate in Its Session of 1853-[1854].</i> Birkhäuser Published in 1817, this influential four-volume work was the first to integrate geology, palaeontology, zoology and comparative anatomy. <i>Canada Gazette</i> Cambridge University Press In September</p>	<p>1997, the Working Week on Resolution of Singularities was held at Oberurgl in the Tyrolean Alps. Its objective was to manifest the state of the art in the field and to formulate major questions for future research. The four courses given during this week were written up by the speakers and make up part I of this volume. They are complemente d in part II by fifteen selected</p>

contributions on specific topics and resolution theories. The volume is intended to provide a broad and accessible introduction to resolution of singularities leading the reader directly to concrete research problems.

Examining the inherent spatiality of law, both theoretically and as social practice, this book presents a genealogical account of the

emergence and the development of the juridical. In an analysis that stretches from ancient Greece, through late antiquity and early modern Europe, and on to the contemporary courtroom, it considers legal and philosophical texts, artistic and literary works, as well as judicial practices, in order to elicit and document a series of critical moments in the history of juridical

space. Offering a more nuanced understanding of law than that found in traditional philosophical, political or social accounts of legal history, Dahlberg forges a critical account of the intimate relations between law and politics that shows how juridical space is determined and conditioned in ways that are integral to the very functioning - and malfunctionin

g - of law.
