One hundred years ago, in 1914, a bullet from an assassin's gun in Sarajevo sparked a war that ignited the globe. Patriotic young men all over the world lined up to join the fight -- including hundreds of Indigenous Australians. Shunned and downtrodden in their own country -- and in fact banned by their own government from serving in the military -- Aboriginal men stepped up to enlist. Undaunted, these bold souls took up arms to defend the free world in its time of greatest need. For them, facing the horror of war on a Gallipoli beach was an escape from the shackles of racism at home, at a time when Aboriginal people stood by, segregated, unable to vote, unable to act as their children were ripped from them. When the survivors came back from the war, there was no heroes' welcome - just a shrug, and a return to drudgery and oppression. *Black Diggers* is the story of these men -- a story of honour and sacrifice that has been covered up and almost forgotten. Written by Tom Wright and originally directed by Wesley Enoch, *Black Diggers* is the culmination of painstaking research into the lives and deaths of the thousand or so Indigenous soldiers who fought for the British Commonwealth in World War I. Grand in scale and scope, it draws from in-depth interviews with the families of Black Diggers who heard the call to arms from all over Australia, as well as conversations with veterans, historians and academics. Young men will step from the blank pages of history to share their compelling stories -- and after the curtain falls, we will finally remember them.

Integrating Business Perspectives John Wiley & Sons

Positing a dynamic relationship between print culture and social experience, Bronwen Wilson's *The World in Venice* focuses on the printed image during a century of profound transformation. City views, costume illustrations, events, and portraits of locals and foreigners are brought together to show how printmakers responded to an expanding image of the world in Renaissance Venice, and how, in turn, prints influenced the ways in which individuals thought about themselves. Woodcuts and engravings of cities and inhabitants of Europe, and those of distant lands, initiated a sudden and pervasive experience with alterity that redefined the relations of Europeans to the world. By condensing the world into pictures, print enabled a radically novel and vicarious experience of others. Wilson explores the overlapping and evolving relations between space, vision, print, and identity, and engages with current scholarly debates concerning ethnicities, gender and geography, copies and originals, travel, nationhood, fashion, urban life, visuality, and the body. Venice was one of the largest cities in Renaissance Europe, a trading crossroads, and a centre of print. *The World in Venice* shows how Venetian identity came to be envisioned within the growing global context that print constructed for it.

The Writer's Guide to Gathering Information by Asking Questions John Wiley & Sons

Written in taut, poetic language, *THE LONGEST MEMORY* is set on a Virginian plantation in the 19th century, and tells the tragic story of a rebellious, fiercely intelligent young slave who breaks all the rules: in learning to read and write, in falling in love with a white girl, the daughter of his owner, and, finally, in trying to escape and join her in the free North. For his attempt to flee, he is whipped to death in front of his family, and this brutal event is the pivot around which the story evolves.

You've just boarded a plane. You've loaded your phone with your favorite podcasts, but before you can pop in your earbuds, disaster strikes: The guy in the next seat starts telling you all about something crazy that happened to him--in great detail. This is the unwelcome storyteller, trying to convince a reluctant audience to care about his story. We all hate that guy, right? But when you tell a story (any kind of story: a novel, a memoir, a screenplay, a stage play, a comic, or even a cover letter), you become the unwelcome storyteller. So how can you write a story that audiences will

embrace? The answer is simple: Remember what it feels like to be that jaded audience. Tell the story that would win you over, even if you didn't want to hear it. The Secrets of Story provides comprehensive, audience-focused strategies for becoming a master storyteller. Armed with the Ultimate Story Checklist, you can improve every aspect of your fiction writing with incisive questions like these: • Concept: Is the one-sentence description of your story uniquely appealing? • Character: Can your audience identify with your hero? • Structure and Plot: Is your story ruled by human nature? • Scene Work: Does each scene advance the plot and reveal character through emotional reactions? • Dialogue: Is your characters' dialogue infused with distinct personality traits and speech patterns based on their lives and backgrounds? • Tone: Are you subtly setting, resetting, and upsetting expectations? • Theme: Are you using multiple ironies throughout the story to create meaning? To succeed in the world of fiction and film, you have to work on every aspect of your craft and satisfy your audience. Do both--and so much more--with The Secrets of Story.
