for Undergraduates
SAGE

This textbook, originally by D. Annand and H. Dauderis, was intended for a first course in introductory financial accounting. It

focuses on core introductory financial accounting topics that match pre-requisite requirements for students advancing to Intermediate Financial Accounting. A corporate approach is utilized versus beginning with a sole proprietorship emphasis and then converting to a corporate approach; this consistency throughout the book reduces confusion for the introductory student. This most recent revision by D. Marchand converted the text from IFRS to reflect the Generally Accepted Accounting Principles of the United States (U.S. GAAP).

While focusing on the underlying theories of financial analysis and valuation, this work aims to answer the question, "What is this company really worth?". It takes the view that sound forecasts of financial statements are the key input to a good valuation, and that other aspects of the valuation process are mechanical.

Financial Accounting
Vikas Publishing House
For intermediate and financial accounting courses at the MBA and undergraduate level, or a supplement to financial statement analysis texts. This collection of financial accounting cases is designed to help students become financial statement users. Each case utilizes financial

statement information (balance sheet, income statement, statement of cash flow and/or footnotes) and a number of topical questions. Students use the financial statement information to infer and interpret the economic events underlying the numbers. Related articles taken from business publications accompany some cases, and information from the articles is incorporated into the case question material. Also available the Pearson Custom Case Program.

Accounting Volume 2 by G. Arnold and S. Kyle, developed in collaboration by Athabasca University and Lyryx, is intended for the second of two in Intermediate Financial Accounting courses. It presumes that students have already completed the Introductory Financial Accounting, and the first Intermediate Financing Accounting course. The textbook reflects both current International Financial Reporting Standards (IFRS) and ASPE. This textbook covers all topics essential to a second level Intermediate Accounting course: current, long-term and complex liabilities, income taxes, pensions, leases, shareholders' equity, earnings per share,

statement of cash flows including the direct approach, effects of changes and errors, and disclosures and analysis. Topics that are covered in Advanced Financial Accounting courses, such as consolidations and foreign exchange, are not included here. For those requiring preparation for CPA designation, competencies as outlined by the CPA are addressed in this textbook. For a detailed competency map, please contact us at info@lyryx.com. "-- BCcampus website. *Intermediate Financial Accounting* Vilangadu G Narayanan This text is intended for a first course in introductory financial accounting. It was updated to reflect current International

Financial Reporting Standards (IFRS). For example, it reflects the recent change in IAS38, para. 98, allowing the use of multiple methods in amortizing intangible assets. It focuses on core Introductory Financial Accounting topics that match pre-requisite requirements for students advancing to Intermediate Financial Accounting. Excluded are advanced topics that are covered in Intermediate Financial Accounting, such as leases and bond amortization. The text takes a corporate approach (vs. beginning with a sole proprietorship emphasis and then converting to a corporate approach); this consistency throughout the book reduces confusion for

the introductory student. The book covers all essential topics: the accounting cycle, merchandising, assigning costs to inventory, cash and receivables, property, plant and equipment, debt financing, equity financing, statement of cash flows, financial statement analysis, and proprietorships and partnerships. Additionally, this version of the open text is supported by Lyryx Learning, offering at an affordable price editorial services to develop and adapt the content, formative online assessment, course supplements, and daily support to both the students and instructors. *Cases in Financial Reporting* Jones & Bartlett Learning

 "This text covers the WHY, WHAT and HOW of financial reporting and analysis with the goal of showing thoughtful readers how understanding the financial reporting process can help them to be successful business managers. It is designed to be a stand-alone course for a program that requires only a single course in financial accounting, or an introductory financial accounting course for a program that leads to an accounting major. Accounting majors need to be good managers too. The text starts from the very

beginning, assuming no pre-knowledge of business or accounting."--

Schaum's Outline of Principles of Accounting I, Fifth Edition McGraw-Hill/Irwin

Accountancy provides a significant role and impact on the public and private sectors through its various disciplines and specialties. Trust in human and technological interactions is a primary objective of public accounting. Accountancy provides the strategic capability to access and interpret organizational performance. Therefore, because of its impactful role, it is important to understand and project how accountancy will change as a

profession. As accountancy continuously evolves, it mandates agility among stakeholders, particularly those in education and the professions. The Past, Present, and Future of Accountancy Education and Professions broadly covers the ways accountancy will require new roles and knowledge for its constituents in the emerging future. The book explores how technological, educational, professional, and societal changes will transform accountancy. Covering topics such as business demands, professional competencies, and student success, this premier reference source is an excellent resource for financial reporters, financial

advisors, auditors, accountants, administrators and educators of both K-12 and higher education, students of higher education, pre-service teachers, librarians, researchers, and academicians.
