On what should be a quiet Sunday morning, Inspector Montalbano is called to a murder scene on the Sicilian coast. A man has discovered his father dead in his Vigàtan beach house, his body slumped on the dining room floor, his morning coffee spilled across the table, and a single gunshot wound at the base of his skull. First appearances point to the son having the most to gain from his father's untimely death, a notion his sister can't help but reinforce. But when Montalbano delves deeper into the case, and learns of the dishonourable life the victim led, it soon becomes clear half of Vigàta has a motive for his murder and this won't be as simple as the inspector had once hoped . . . A Nest of Vipers is followed by the twenty-second gripping mystery, *The Pyramid of Mud*.

The Mysterious Unknown Blu

This future history of the next thirty years, imagined by bestselling author Thomas Harding, is a compelling and startling call to action. In 2020, a researcher is shocked to find a set of notebooks detailing the history of the next thirty years. Is this a hoax? Or could it be real? The notebooks, written in the year 2050, contain interview transcripts between teenage Billy and Gran Nancy. We learn about the great climate SHOCK, when global temperatures rise much faster than anticipated, resulting in catastrophic consequences for humanity. We learn about a shift away from democracy,

toward unelected “ethnarchs” — heads of corporations who use their access to our personal data to competently run the world. We learn about the giant city towers where most people live, work and play inside — where it's safe from natural disasters and viral outbreaks. And between these interviews, we learn more about Billy, whose interest in the history that has been erased from the official record is causing trouble in 2050. Is it too late to change the past to save the future? Key Text Feature glossary
