 Birds of North America This series of miniature drawings of North American birds by Susan Hagen includes two characteristic individuals of each bird species, a male and a female. Most of the birds were encountered first-hand while walking in wetlands, forests, and urban landscapes, and many were spotted in and around Philadelphia during the COVID-19 pandemic of 2020 and 2021. This book features 82 of Hagen's drawings, along with text by poets Nathalie Anderson and Lisa Sewell - who collaborated on an interactive series of poems that developed from their responses to the drawings and incorporated their personal experiences with birds. The poetic format of Sewell and Anderson's work is derived from the rondelet, whose back and forth structures echo the way birds call and sing to each other across space. Drawings by Susan Hagen ?2021; conté and watercolor on paper; 2 x 3"Poems by Nathalie Anderson and Lisa Sewell ?2021Birds of North America is published by the artist in conjunction with The Drawing Room, 1824 N. Explore how the first Americans, faced with varying climates in a vast land hundreds and thousands of years ago, developed everything we take for granted today: food supplies, shelter, clothing, religion, games, jewelry, transportation, communication, and more. Native Americans: Discover the History and Cultures of the First Americans uses hands-on activities to illuminate how the Native Americans survived and thrived by creating tools, culture, and a society based on their immediate environment.

Entertaining illustrations and fascinating sidebars bring the topic to life, while Words to Know highlighted and defined within the text reinforce new vocabulary. Projects include building an archaic toolkit, creating Algonquin art, experimenting with irrigation systems, inventing hieroglyphics, making a "quinzy," and playing the Inuit game of nugluktaq. In addition to a glossary and an index, an extensive appendix of sites and museums all over the country offers ideas where families can learn more about the various Native American cultures. Kids ages 9-12 will

gain an appreciation for the diversity of people and culture native to America, and learn to problem solve in a way that respects the environment.

Filled with quotes from men and women prisoners and Kornfeld's own anecdotes, *Cellblock Visions* shows how these artists, most of them having no previous training, turn to their work for a sense of self-worth, an opportunity to vent rage, or a way to find peace. We see how the artists deal with the cramped space, limited light, and narrow vistas of their prison studios, and how the security bans on many art supplies lead them to ingenious resourcefulness, as in extracting color from shampoo and weaving with cigarette wrappers. Kornfeld covers the traditional prison arts, such as soap carving and tattoo, and devotes a major section to painting, where we see miniatures depicting themes of alienation and escape, idyllic landscapes framed by bars, portraits of women living in a fantasy world, large canvasses filled with erotic and religious symbolism and violent action. The brief, vivid biographies of each artist portray that individual's experience of crime, prison, and art itself.

In this startling candid and poignant memoir, the legendary Emmy Award-winning star of *The Young and the Restless*, America's #1 soap opera, chronicles his amazing life, from his birth in World War II Germany to his arrival in America to his rise to humanitarian and daytime superstar for the past thirty-five years. For nearly four decades, fans have welcomed the star of television's number-one daytime show, *The Young and the Restless*, into their living rooms. While they've come to know and love the suave Victor Newman, few truly know the man behind the character, the supremely talented Eric Braeden. *I'll Be Damned* is his story—a startling and uplifting true tale of war, deprivation, determination, fame, and social commitment that spans from Nazi Germany to modern Hollywood. Braeden's journey from a hospital basement in Kiel to the soundstages of Los Angeles has taught him more about joy, heartbreak, fear, dignity, loss, love, loneliness, exhilaration, courage, persecution,

and profound responsibility to the global community than he could have hoped to learn in several lifetimes. Growing up in the years after Germany's defeat, Braeden knew very little about the atrocities of his parents' generation, until he arrived in America as a teenager—a discovery that horrified and transformed him. Trying to redress the wrongs of his homeland, he has dedicated his life to humanitarian work—even forming the German American Culture Society—working for decades to show the world that what we share as humans is far more important than what separates us from one another. Told with openness, candor, humor, heart, and occasional raw vulnerability, *I'll Be Damned* reveals a man committed to making the world a better, more loving place. Filled with sixteen pages of photos from his decorated life and career, *I'll Be Damned* will be a treasured keepsake for Y&R fans, and is an inspiring testament to the goodness within us all.

From the nationally beloved co-host of the #1 hit show *Home Town* comes the quintessential celebration of home. Imagine a house's early days as a home: A young family builds a picket fence and plants flowers in its yard, children climb the magnolia tree and play the piano in the living room, and there is music inside the house for many happy years. But what will happen when its windows grow dark, its paint starts to crumble, and its boards creak in the winter wind? The house dreams of a family who will love it again...and one day, a new story will emerge from within its walls. In this modern classic, Erin Napier's lyrical prose and Adam Trest's warm and comforting paintings deeply evoke the soul of a house cherishing the seasons of life and discovering the joy of rebirth.

A good illustration is worth a thousand wood chips! Here at last is a woodcarving book that lays the projects out chip-by-chip, with drawing-after-drawing to teach the craft in the most accurate way possible. With this book beginners don't have to guess how to position the knife or where to chip away. Clearly, explicitly, taking an many drawings as necessary - sometimes up to 50 for one project - the authors guide you through each project to the completion of handsome, useful, realistic finished pieces. The ten projects are actually ten lessons for building skill in carving techniques and developing confidence and proficiency in this age-old craft.

From the bestselling author of *The Passenger* and the Pulitzer Prize-winning novel *The Road* comes a "profoundly disturbing and gorgeously rendered" novel (*The Washington Post*) that returns to the Texas-Mexico border, setting of the famed *Border Trilogy*. The time is our own, when rustlers have given way to drug-runners and small towns have become free-fire zones. One day, a good old boy named Llewellyn Moss finds a pickup truck surrounded by a bodyguard of dead men. A load of heroin and two million dollars in cash are still in the back. When Moss takes the money, he sets off a chain reaction of catastrophic violence that not even the law—in the person of aging, disillusioned Sheriff Bell—can contain. As Moss tries to evade his pursuers—in particular a

mysterious mastermind who flips coins for human lives—McCarthy simultaneously strips down the American crime novel and broadens its concerns to encompass themes as ancient as the Bible and as bloodily contemporary as this morning's headlines. *No Country for Old Men* is a triumph. Look for Cormac McCarthy's latest bestselling novels, *The Passenger* and *Stella Maris*.
