### **The Roman Empire and Beyond**

British Archaeological Reports  
Oxford Limited  
This biography paints a riveting portrait of Pablo Picasso (1881-1973), examining both his strengths and shortcomings as husband, lover, and father. Olivier Widmaier Picasso's unique insight into the life of one of the 20th century's most influential artists details not only Picasso's hopes, fears, and regrets, but also his certainties and commitments, his unique audacity, his happiness, and his conflicts. *Picasso: An Intimate Portrait* is a detailed study of a lifetime dedicated to art, in which the author skillfully captures the real man at the heart of the many fictions and legends that the artist inspired. This masterful text is illustrated with a wealth of drawings, engravings, paintings, and sculptures, as well as many rarely seen and personal photographs by David Douglas Duncan, Edward Quinn, André Villers, Lucien Clergue, Man Ray, Michel Sima, and Robert Capa, among others. *The Barbarians of Ancient Europe* Oxford University Press

*Assassin's Creed Manga* - printed in English in the US for the first time!  
*Assassin's Creed Awakening* is a manga adaptation of the *Assassin's Creed IV: Black Flag* video game. The title stars Edward Kenway in the 18th century and Yanao Seijin in the present as Seijin relives Edward's memories under the eye of Abstergo Industries. In 1715, pirates established a

lawless republic in the Caribbean and ruled the land and seas. These outlaws paralyzed navies, halted international trade, and plundered vast fortunes. They threatened the power structures that ruled Europe, inspired the imaginations of millions, and left a legacy that still endures. Into this world sails a young, cocky, and fearsome captain named Edward Kenway. His skill with a sword and disdain for authority earn him the respect of pirate legends like Blackbeard, but thrust him into an ancient conflict that threatens to destroy everything the pirates have built.

In 2006 and 2007, the editors of this volume organized sessions at the annual meetings of the European Association of Archaeologists (Cracow, Poland and Zadar, Croatia) entitled *The Roman Empire and Beyond* in response to the increasing amount of archaeological work being conducted in Central and Eastern Europe, areas where the Roman Empire met Barbaricum. The sessions concerned three general themes: the development of Rome's older Central/Eastern provinces, Roman-Native

interactions within the Empire and along Romes frontier zone, and Native-Roman interactions in Barbaricum. This book is based upon the two EAA sessions, whilst additional papers were solicited from several scholars who had not attended the EAA meetings, but whose work was deemed highly relevant for this volume. Contents: 1) Introduction (Eric C. De Sena); 2) Maritime Villas on the Eastern Adriatic Coast (Roman Histria and Dalmatia) (Vlasta Begovic and Ivancica Schrunk); 3) The Emperor and the City: a Case Study on the Link between Hadrian and Philippopolis, Thace (Ivo Topalilov); 4) Early Christian imports and local imitations of imported goods in the territory of the Central Balkans (Olivera Ilic); 5) Western Germanic Tribes and the Romanization of Central European Barbaricum (Artur Blazejewski); 6) Roman or Barbarian? bestseller for twenty-one weeks upon publication, J.R.R. Tolkien's *Unfinished Tales* is a collection of short stories ranging in time from the Elder Days of Middle-earth to the end of the War of the Ring, and further relates events as told in *The Silmarillion* and *The Lord of the Rings*. The book concentrates on the lands of Middle-earth

and comprises Gandalf's lively account of how he came to send the Dwarves to the celebrated party at Bag-End, the story of the emergence of the sea-god Ulmo before the eyes of Tuor on the coast of Beleriand, and an exact description of the military organization of the Riders of Rohan and the journey of the Black Riders during the hunt for the Ring. *Unfinished Tales* also contains the only surviving story about the long ages of Númenor before its downfall, and all that is known about the Five Wizards sent to Middle-earth as emissaries of the Valar, about the Seeing Stones known as the Palantiri, and about the legend of Amroth.

Studies in Eighteenth-century Culture Open Road Media

This is the first monograph that deals with the Middle Assyrian remains at Tell Sabi Abyad, northern Syria. It offers a detailed description of the ceramics excavated between 1991 and 1998 in the project of Leiden National Museum of Antiquities. The study integrates technological, morphological, stylistic, and archaeological data to come to an

understanding of pottery production and use. The book contains seven lavishly illustrated chapters and six appendices presenting the raw data on typology, pottery kilns, archaeometric analyses and functional analyses. The large-scale excavation and the excellent preservation of pottery workshops, tools and kilns as well as the meticulous study of technology and standardization provide a unique insight into the organization of pottery production. The chapter on function and use combines information on performance characteristics, shape and capacity, traces of use, depictions of vessels in iconography and information from texts, in an attempt to reconstruct how vessels were used. In a contribution by Dr. Frans Wiggermann two cuneiform texts from Sabi Abyad dealing with pottery have been published, and a first step has been taken to connect the ceramic repertoire with Middle Assyrian vocabulary. This study will be interesting to Near Eastern archaeologists, ceramicists and Assyriologists as well as to students of craft

production in archaeology or ethno-archaeology. Dr. Kim Duistermaat is director of the Netherlands-Flemish Institute in Cairo. She has participated in archaeological research projects in the Netherlands, Egypt and Syria, where she directed the Netherlands Institute for Academic Studies in Damascus between 1997 and 2005.

Oxford University Press,

Au début du VI<sup>e</sup> siècle avant Jésus-Christ, les peuplades celtes, installées jusqu'alors dans le centre de l'Europe, entamèrent des mouvements migratoires qui leur permirent de se répandre dans l'ensemble du continent, de l'Irlande à la Grèce. On donna à celles installées dans le pays appelé " Gaule ", entre Rhin et Atlantique, entre Ardennes et Pyrénées, le nom de "

Gaulois ". Dans cet ouvrage richement illustré, présenté sous forme d'un lexique, Lionel Dumarcet, historien, nous raconte la vie et le quotidien de ce peuple à travers 59 " entrées " qui nous permettent d'aborder et de serrer au plus près les particularismes et l'originalité de cette société : agriculture, cuisine, divinités, artisanat et technique, arts, expéditions célèbres, langues, navigation, guerres, druides, commerce, etc.
