Adaptations of canonical texts have played an important role throughout the history of children's literature and have been seen as an active and vital contributing force in establishing a common ground for intercultural communication across generations and borders. This collection analyses different examples of adapting canonical texts in or for children's literature encompassing adaptations of English classics for children and young adult readers and intercultural adaptations

of children's classics across Europe. The international contributors assess both historical and transcultural adaptation in relation to historically and regionally contingent concepts of childhood. By assessing how texts move across age-specific or national borders, they examine the traces of a common literary and cultural heritage in European children's literature.

There is nothing to be found in the pages of A Series of Unfortunate Events but misery and despair. You still have time to choose another international best-seller to read. But if you must know what unpleasantries befall the charming and clever Baudelaire children read on . . . In The Bad Beginning the three youngsters encounter a greedy and repulsive villain, itchy clothing, a disastrous fire, a plot to steal their fortune and cold porridge for breakfast. Then again, why trouble yourself with the unfortunate resolutions? With 5 million copies sold in the UK alone, one might consider Lemony Snicket's A Series of Unfortunate Events to make him one of the most successful children's authors of the past decade. We, however, consider these miserable so-called adventure stories and the Hollywood film starring Jim Carrey that accompanied the books for children as nothing more than a dreadful mistake.
