Western feminists have long treated the rule of law as an essential ingredient of social justice; however, as the contributors to this collection remind us, meaningful justice remains out of reach for many women and racialized minorities precisely because the law turns a blind eye to the inequities that structure their daily lives. In fourteen chapters that open vital debates about the erosion of the welfare state and the media's complicity in concealing political injustice, *Within the Confines* details the brutal ironies of a society that criminalizes the vulnerable while absolving the elite. Distinctive in its focus on Canada, the book traces the linkages among racial, ethnic, sexual, and economic vulnerability and reveals the inadequacies of legislative approaches to socio-historical problems such as drug trafficking, homelessness, infanticide, and the legacies of settler colonial violence. In accessible prose, the authors dismantle the myths behind topics that are often sensationalized in the media--pornography, single motherhood, sex work, filicide, gangs, domestic abuse, prison conditions, HIV nondisclosure--and present alternative arguments that expose the justice system's role in widening the gap between the rich and the poor. What emerges is a poignant challenge to the neoliberal fable that women and minorities in Western democracies now enjoy full equality and an urgent call to action for those who seek to shift institutional norms in more equitable directions. A valuable resource for a wide range of fields, including criminology, sociology, social anthropology, gender studies, political science, social work, and

legal history, this multidisciplinary volume offers a fresh perspective on the disturbingly predictable judgments that criminalized women face in Canada.

The goal of this sixth edition of Principles of Neural Science is to provide readers with insight into how genes, molecules, neurons, and the circuits they form give rise to behavior. With the exponential growth in neuroscience research over the 40 years since the first edition of this book, an increasing challenge is to provide a comprehensive overview of the field while remaining true to the original goal of the first edition, which is to elevate imparting basic principles over detailed encyclopedic knowledge.

Tattoo Technique (How to Actually Tattoo) WaterBrook

This book features over 180 photographs and accompanying texts of Russian criminal tattoos from the Arkady Bronnikov collection. From the mid-1960s to the late- 1980s Bronnikov worked as a senior expert in criminalistics at the USSR Ministry of Internal Affairs, part of his duties involved visiting correctional institutions of the Ural and Siberia regions. It was here that he interviewed, gathered information and took photographs of convicts and their tattoos, building one of the most comprehensive archives of this phenomenon. He regularly helped to solve criminal cases across Russia by using his collection of tattoos to identify culprits and

corpses. The Bronnikov collection was made exclusively for police use, to further the understanding of the language of these tattoos and to act as an aid in the identification and apprehension of criminals in the field. Unimpeded by artistry, these vernacular photographs present a guileless representation of criminal society. Every image discloses evidence of an inmate's character: aggressive, vulnerable, melancholic, conceited. Their bodies display an unofficial history, told not just through tattoos, but also in scars and missing digits. Closer inspection only confirms our inability to comprehend the unimaginable lives of this previously unacknowledged caste.

From the author of the award-winning Moth Smoke comes a perspective on love, prejudice, and the war on terror that has never been seen in North American literature. At a café table in Lahore, a bearded Pakistani man converses with a suspicious, and possibly armed, American stranger. As dusk deepens to night, he begins the tale that has brought them to this fateful meeting. . . . Changez is living an immigrant’s dream of America. At the top of his class at Princeton, he is snapped up by Underwood Samson,

an elite firm that specializes in the “valuation” of companies ripe for acquisition. He thrives on the energy of New York and the intensity of his work, and his infatuation with regal Erica promises entrée into Manhattan society at the same exalted level once occupied by his own family back in Lahore. For a time, it seems as though nothing will stand in the way of Changez’s meteoric rise to personal and professional success. But in the wake of September 11, he finds his position in his adopted city suddenly overturned, and his budding relationship with Erica eclipsed by the reawakened ghosts of her past. And Changez’s own identity is in seismic shift as well, unearthing allegiances more fundamental than money, power, and perhaps even love. Elegant and compelling, Mohsin Hamid’s second novel is a devastating exploration of our divided and yet ultimately indivisible world. “Excuse me, sir, but may I be of assistance? Ah, I see I have alarmed you. Do not be frightened by my beard: I am a lover of America. I noticed that you were looking for something; more than looking, in fact you seemed to be on a mission, and since I am both a native of this city and a speaker of your language, I thought I might offer you my services as a bridge.” —from *The Reluctant Fundamentalist*
