## **JENNINGS KADE**

---

### **One Hundred Clinical Cases and OSCEs in Surgery**

PasTest Ltd  
Medicine for MRCP is an ideal revision resource for the MRCP Parts 1 and 2 written papers providing

**OSCEs for Medical Students** PasTest Ltd  
Designed for Last Minute practice of Best of Five questions in preparation for the MRCP 1 exam. This book has short concise

explanations that cover the facts candidates need to know.

### **OSCE and Clinical Skills Handbook**

PasTest Ltd

Medical students often feel they understand the theory behind the clinical aspect of medicine but seldom have enough chance to put what they learn into practice. In addition, clinical examinations pose a challenge to students who may be technically and theoretically excellent, but who have poor examination technique. It is quite common for students to lack understanding of how they will be marked, how much emphasis to place upon certain actions or how much detail is expected of them. 'OSCE CASES WITH MARK SCHEMES' is

intended to fill this gap. It provides OSCE mark schemes to reflect the real OSCE experience, by encouraging self assessment when practicing the clinical scenarios. The book includes chapters on communication skills, medical ethics, explanation stations, paediatrics and obstetrics and gynaecology subjects which are sometimes neglected elsewhere. All four authors have taken part in medical student teaching and OSCE examinations. They understand what will earn marks in the actual exam. All the OSCE scenarios are from stations previously examined in the UK's top medical schools. This book prepares the student for what the actual

finals exam will be like.

CONTENTS: SECTION ONE, COMMUNICATION STATIONS - Presenting Complaints - Psychiatry History Taking - Pediatrics History Taking - Obstetrics History Taking - Gynaecology History Taking - Medical Ethics - Difficult Communication Scenarios - Pharmacology - Consenting - Explanation of Management and Results SECTION TWO, PERFORMANCE STATIONS - Examination Skills - Practical Skills - Data Interpretation - Closing Remarks

Last Minute MRCP 1 Practice Questions

PasTest Ltd

Communication skills are the cornerstone of being a good doctor and there is a growing

trend to incorporate these skills within the medical school curriculum. Medical students are normally well-versed in the medical knowledge needed for their OSCEs but often struggle with the key communication techniques required. This book helps to overcome this by combining a practical approach to communicating with the essential clinical knowledge needed for a successful consultation. It is written by medical students and junior doctors for medical students and junior doctors.

Communication Skills for OSCEs is the first medical OSCEs book to focus on the key communication skills the medical student needs. Communication

Skills for OSCEs prepares you for the examination setting but, in doing so, also provides the building blocks for good communication skills throughout your career.

### **300 Single Best Answer Questions for Medical and Surgical Finals**

PasTest Ltd

"This new edition has been thoroughly updated and offers the following for the undergraduate customer: 65 Presentations in an A-Z format - ensuring the medical student is never lost for words! Practice scenarios with answers - improve skills with a friend. Extensive information on the structural basis of History Taking. The symptoms-based format is designed to

help the reader improve their history taking skills. Suggested prompt questions for core presentations ensure candidates are never lost for words. Case scenarios mean undergraduates can improve their skills with a friend. A unique section on asking difficult questions."--

Publisher description

### **Core Clinical Cases**

PasTest Ltd

Fully updated, this book now contains new communication skills criteria and more clinical examination stations. Information on the OSCE making scheme and mock exams make the books ideal for exam practice.

Essential Revision Notes in Medicine for Students PasTest Ltd

Features clinical cases illustrating the key

topics important in understanding Medical Ethics. Each case prompts candidates to decide upon the necessary investigations, set their own research objectives and direct their own learning.

OSCE Cases with Mark Schemes PasTest Ltd

This study guide for medical students preparing for clinical skills examinations covers all key areas, as well as presenting the information in a 'question and answer' format, designed to facilitate both individual and group study.

**OSCEs for Medical Undergraduates**

PasTest Ltd

This manual is a practical guide to the diagnosis and management of neonatal disorders,

helping trainees prepare for OSCE examinations. Divided into ten sections, each chapter provides step by step direction, from history taking, clinical examination and assessment, to drugs, instruments, imaging, and interpretation. A complete chapter describes various case studies to assist understanding. The book covers both routine and more complex conditions and features more than 200 clinical photographs and diagrams to enhance learning. Key points Practical guide to diagnosis and management of neonatal disorders Provides comprehensive preparation for OSCE examinations Features case studies to assist

understanding Includes more than 200 clinical photographs and diagrams

### **History Taking in Medicine and**

### **Surgery** CRC Press

Essential Revision Notes in Surgery for Medical Students provides detailed 'need to know' information for medical students. Third year students wishing to reinforce their knowledge will find it invaluable as will 5th years wanting to prepare for their examinations. This new title focuses on what is essential learning for medical undergraduates and gives readers an 'all round' knowledge of surgery at this level. It includes essential elements of theoretical knowledge and clinical diagnosis combined into a quick but

thorough revision aid.

Popular conditions are used to illustrate key learning points.

Concise information is contained within an easy to follow format. Each chapter is written by experienced authors within their fields.

### OSCE in Neonatology PasTest Ltd

Presenting the first book ever to specifically address OSCEs (Observed Structured Clinical Examinations) in pediatrics. This book is specially aimed at providing practice for OSCE examinations and to give the reader confidence in this new method of assessment. Full answers are provided and explained, along with useful full-color photographs to show true-to-life clinical situations.

Core Clinical Cases

PasTest Ltd

A guide to the core basic sciences - anatomy, physiology and pathology - which comprise the essential knowledge required by the trainee entering the specialty of surgery. It focuses on those topics which tend to be recurring examination themes for initial surgical training.

MCQs, SAQs, EMQs andOSCEs for OralPathology and Oral

Demonstrates how to

prepare for their

surgical clinical

examination, And how

to examine and take a

history from a patient.

This title has cases to

work through that they

encounter on the

wards and in the exam.

It includes lists of

frequently asked

questions with clear

answers.

Data Interpretation for

## Medical Students

PasTest Ltd

The system-based chapters offer a 'walk-through' each OSCE station covering the following subjects: cardiovascular, respiratory, gastrointestinal, haematology, nervous system, endocrinology/metabolic medicine, musculoskeletal, dermatology, renal, and immunology. Cases include photos, X-rays and diagrams where relevant. Using these cases the candidate can see how the examination is constructed, performed and marked to assess their knowledge, skills and competency for good medical practice. Once the candidate has learned how to tackle the OSCE exam they can put their skills

into practice using the sister title to this book,

## **SAQs for Dentistry**

Scion Publishing

Since 1988 this textbook has provided a clear and easily grasped explanation of the origins of physical signs when examining a patient, (both historically and physiologically). Much has been rewritten to reflect new thinking and new techniques. *One Hundred Clinical Cases and OSCEs in Medicine* PasTest Ltd There's no getting away from the fact that finals are tricky. Becoming a confident House Officer involves not only medicine, surgery and psychiatry, but also communication, ethics, and practical skills. Get Through Clinical Finals: A Toolkit for OSCEs is intended to help

identify these areas, to show the reader how to avoid the common pitfalls and, by combining such information, how to successfully mind that gap. Forming part of the best selling and well respected 'Get Through' series, this book aims to provide medical students with practical advice on how to revise and pass their OSCEs (Observed Structured Clinical Examinations). Featuring numerous practice scenarios in all the major specialties, *Get Through Clinical Finals* contains the information that finalists are expected to know but are rarely taught. Written by recently qualified doctors, this is the ideal toolkit in the run up to clinical finals.

### **Clinical Examination**

PasTest Ltd  
Written for medical students approaching their final examinations, this work presents clinical examination stations and communication skills criteria. It includes information on the OSCE marking scheme and mock exams, and covers: Gastroenterology; Neurology and Psychiatry; Ophthalmology and Otolaryngology; and, Urology and Renal Medicine.

*Essential Revision Notes in Paediatrics for the MRCPC* Saunders  
A guide for diagnosing and managing common cases. It contains popular clinical scenarios covering various major specialties. It provides revision aid to assess the students

knowledge in the same format as the assessment in their exams. It also supports medical students through their medial training to the first year.
