 Inspired by the photographs of Julia Margaret Cameron, Afterimage is a provocative, passionate, yet delicate Victorian novel. When the young Irish maid Annie Phelan arrives at the country home of Isobelle and Eldon Dashell, she is swept into a world of artistic ambitions and hidden passions. But she also discovers a marriage that has grown distant and two people who see her as a blank slate upon which to project their own desires and failed dreams. Jealousy, longing and sensuality intertwine in this mesmerizing novel of aesthetic obsession and unfulfilled dreams.

For the first time this book provides a comprehensive diagnostic for all different methods in psychotherapy. Because of the individual approaches and structures this could not be realized until now. Experts of seventeen schools-of-thought came together at a round table and drew up guidelines for the daily work of psychotherapists. The result is documented in this book, containing a summary of relevant standard questions; it also includes methodological commentaries for practical implementation. Despite the individual approach of the different types of psychotherapies, this psychotherapeutic diagnostic is applicable for all psychotherapists.

 ADHD je často nepochopený problém! Rodiny, kterých se tato diagnóza týká, se mnohdy přes veškerou svou angažovanost cítí bezmocné a osamělé. Právě jim a jejich dětem pomůže tato kniha s přesnými pokyny a konkrétními tipy. Se svými více než

dvacetiletými zkušenostmi v oblasti dětské psychoterapie Wolfdieter Jenett upouští od nezáživného vědeckého vysvětlování a místo toho nabízí praktické tipy pro všední den, které pokrývají celé spektrum rodinného života: od stresových situací jako je ranní vstávání nebo večerní usínání, přes používání televize a počítačů, až k problémům ve škole jako je psaní, čtení, počítání a vypracování domácích úkolů. Žádné abstraktní reflexe, ale lehce a rychle pochopitelné, praktické a konkrétní tipy pro všechny životní situace nabízí pomoc, kterou mohou těžce zkoušení rodiče i pedagogové od příručky právem očekávat.

La Santé par le Toucher : un guide pratique pour la santé naturelle ... Verlag Barbara Budrich

Psychische Probleme sind keine Seltenheit, weder in der Familie noch in der Gesellschaft. Inés Brock stellt die kreative Begegnung von Psychotherapie und Empowerment als Lösungsansatz vor. Zusammen stärken sie Menschen in ihren Lebenskontexten und machen ein befriedigendes Leben (wieder) möglich. Der Band versammelt eine Anzahl von Beiträgen aus Wissenschaft und Praxis, die den Ansatz des Empowerment im Kontext von Psychotherapie und sozialer Arbeit mit Familien anschaulich und nachvollziehbar machen. Vor dem Hintergrund eines ganzheitlichen Menschenbildes wird immer wieder deutlich, dass psychische Störungen im Kontext gesellschaftlicher Einflüsse und familiärer Prägungen entstehen. Brocks integrative Perspektive versucht, heilkundliche psychotherapeutische Strategien mit psychosozialen Kontexten in Verbindung zu bringen und dabei den Empowerment-Ansatz zu implementieren. Familien sind nicht nur der zentrale Sozialisationsraum für Kinder und Erwachsene, sondern auch ein Ort der primären und sekundären Prävention. Der Einfluss sozialer Herkunft auf Schul- und Ausbildungserfolg, auf eine zufriedenstellende Lebensgestaltung sowie auf die psychische und physische Gesundheit wird hier im Zusammenhang mit psychotherapeutischen Wissensbeständen betrachtet.

 Mindfulness involves learning to be more aware of life as it unfolds moment by moment, even if these moments bring us difficulty, pain or suffering. This is a challenge we will all face at some time in our lives, and which health professionals face every day in their work. The Mindfulness-Based Compassionate Living programme presents a new way of learning how to face the

pressures of modern living by providing an antidote which teaches us how to cultivate kindness and compassion – starting with being kind to ourselves. Compassion involves both sensitivity to our own and others' suffering and the courage to deal with it. Integrating the work of experts in the field such as Paul Gilbert, Kristin Neff, Christopher Germer and Tara Brach, Erik van den Brink and Frits Koster have established an eight stage step-by-step compassion training programme, supported by practical exercises and free audio downloads, which builds on basic mindfulness skills. Grounded in ancient wisdom and modern science, they demonstrate how being compassionate shapes our minds and brains, and benefits our health and relationships. The programme will be helpful to many, including people with various types of chronic or recurring mental health problems, and can be an effective means of coping better with low self-esteem, self-reproach or shame, enabling participants to experience more warmth, safeness, acceptance and connection with themselves and others. Mindfulness-Based Compassionate Living will be an invaluable manual for mindfulness teachers, therapists and counsellors wishing to bring the 'care' back into healthcare, both for their clients and themselves. It can also be used as a self-help guide for personal practice.

Aufmerksamkeits- und Hyperaktivitätsstörungen gehören zu den meistdiskutierten Verhaltensauffälligkeiten. Dabei ist die Diskussion in erster Linie von der Kinder- und Jugendpsychiatrie bestimmt. Aus pädagogischer Perspektive hingegen ist das

Thema vergleichsweise wenig beleuchtet. Aus diesem Blick heraus bietet das Buch neben unverzichtbarem Grundlagenwissen (Erscheinungsbild, Klassifikation, Erklärungsansätze, Diagnostik, Therapie) sowohl eine eigene, interaktionistische Sicht auf AD(H)S als auch Informationen zu den Konzepten und konkreten Vorgehensweisen einer pädagogischen Förderung. Auch einschlägige Trainingsprogramme werden einer kritischen Betrachtung im Hinblick auf Evidenzbasierung und Effektivität unterzogen. Brain-behavior Relationships Springer Science & Business Media Using just fingerprints and a few letters, Ed Emberley shows would-be artists how to create owls, pigs, fish, and basketball players! This colorful step-by-step book is easy and crafty, and provides hours of art-full fun.
