Predictions done by Chaldean Numerology System are very accurate and its remedies are also very powerful. The Chaldeans were ancient people who ruled Babylonia from 625-539 BC. Therefore, this system is also known as the Babylonian numerology system. Chaldean Numerology system works on the vibrations of words and alphabets. For example - Akshay Kumar can be called as Akshay, Akki, Akshay Kumar, Akshay Ji, Akshay Sir, Sir, Sir Ji, etc. All the above names belong to the same person but

when different people call him by different names, the vibrations of all will be different. This system can be used to create a particular set of vibration for attracting Money, Fame and Success.

For the first time, a Tantric scholar and expert in the Hindu traditions of Ayurveda and astrology presents a system of numerology that combines numerical calculations, astrological data, and an analysis of body type. He illustrates the Vedic Square and the visual patterns that can be derived from it, casting a revealing light on the more esoteric interpretations of numbers and their relationship to one another.

Recommendations are given regarding strong and weak periods of day or year, favorable colors and precious stones to be worn, and meditations and mantras to be practiced for health and prosperity. Explains how to determine the psychic number, name number, and destiny number; how these numbers relate to each of the nine planets, and how they apply to every aspect of life--including personality, temperament, intelligence, talents, sexuality, spirituality, finances, travel, and health.

"Leeya Thompson is a scholar and a visionary, bringing impeccable research and fierce intellectual discipline to her work. She follows the trail of the ancient art of gematria back to its earliest roots in Middle Eastern culture and creates a remarkable tool for understanding and change." William Moore, Educator and Reader of the Tree of Life and Tarot I recently had the privilege of experiencing a sound and numerology

reading from Leeya Thompson. I was grateful, not only for her insight, but for her ability to express what was revealed in "my numbers and name sounds" in ways that were both accessible and deeply meaningful. Leeya uses a delightful economy of words, communicating the essences that combine to create my unique portrait. I found the progression of themes for each life phase especially helpful. It is rare to have a reading that takes in the sweep of a life while giving precise indications as well. I came away with a sense of focused hope fueling personal momentum- a rare commodity in today's circumstances. And a testament to Leeya's skill and wisdom. Anne Oliver, Counselor of Mediation

[T]here is a system of interpretation in numerology which is supported by

experience, but has its origin beyond the realm of the phenomenal worlds. If no such system existed, it would be impossible to prove the geometrical relations of thought. But this is done daily by those who make use of numbers for purposes of divination.-from "Chapter II: Geometrical Relations of Thought"Originally published in two volumes in 1913, this classic of the art of numerology builds upon the work of the ancient Greeks, Aryans, and Egyptians to describe the dramatic effect that numbers exert upon the world all around us. Part I introduces numerological theories and practices, including how to read others' thoughts through numbers, predict and influence success and failure, and understand "chance" events. Part II explores the geometry of nature

and how it affects us, numbers that sway human will, and much more.For practitioners of the paranormal arts and those interested in the history of science and pseudoscience, this is a fascinating and essential book."Sepharial" was the pseudonym of British mystic WALTER GORN-OLD (1864-1929), one of the most prolific writers on and teachers of astrology in modern times.
