The poems in Andrea Cohen's *Nightshade*, her sixth full-length collection, are constructed from the wisdom of loss--of lovers and loved ones and a world gone awry. Cohen builds a short poem the way a master carpenter does a tiny house, in lines that are both economic and precise, with room enough for sorrow and wit to exist comfortably in their spaces. The great pleasure in reading these poems is their surprise in the way the endings arrive again and again in startling truths: The bride whose dress is sewn "from a hundred/tattered flags/of surrender" and the ever-present reminder of the title poem that the things of this world are both "poison and . . . balms" that "We /call . . . bitter- / sweet--what / living isn't?"

 Isabella Vasile My mother called me Belladonna. The poisonous plant with sweet cherries as fruit. She wanted me to become just that for every man who lay eyes on me. Sweet on their tongue but deadly. She said it was the only way a woman can be powerful in our world. But I never wanted that. I never wanted to be toxic. I wanted to love and be loved. I wanted to be sweet without being deadly. I didn't want to hurt anyone. Only I did... I did become a sweet-looking deadly thing to reach what I have always wanted. True love. Alessio Mazzone She had the darkest eyes I have ever seen. So dark they were almost black, just like the poisonous cherries she once warned me about. When I was a little boy I promised her that one day I will marry her. I never forgot that promise. Even though how unworthy I am, I will have her at the end. One way or another.

Merry meet! I'm Brittany Nightshade of the Atrum Angelus coven. I have spent many years traveling and learning about the Craft of Magick. One area of Magick that is typically shied away from by practitioners is Black Magick. The Rule of Three amongst other things such as the Wiccan Reed's validity have been debated for decades and it's considered taboo by the majority of the community. That being said it is still openly practiced and I myself find The Dark Arts to be a magnificent way to reach your full potential. I've taken the section of my Book of Shadows pertaining to Black Magick, brushed it up a bit and added some spells from a few of my coven sisters in hopes to present them and make them as accessible as possible to anyone who wishes to walk The Left Hand Path. I've also included some basic information on Runes and a glossary for commonly used words related to Witchcraft towards the end of the book. I've tweaked these spells to fit my needs from time to time and you can do the same as the words aren't what give the

spells power, your energy is what really matters, so feel free to do the same and change what you want to suit your own needs. Let the rituals be the vessel that carries your enemies to their demise.

Welcome to Caroline's No Nightshade Kitchen: Arthritis Diet. Fourteen years ago, I discovered that I have arthritis in my hands. The pain was sudden and severe. For three years, I went to numerous doctors but found no relief for the pain I was enduring. A friend told me about the effect nightshades have on some people with arthritis. She explained that tomatoes, peppers, white potatoes, and eggplant, which are in the nightshade plant family, contain alkaloids. Alkaloids can cause serious inflammatory issues for people who have developed a high sensitivity to this chemical. I was desperate, and although I doubted eliminating nightshades from my diet would help, I tried it. In a few days, the pain, swelling, and redness disappeared completely, and stayed away as long as I avoided nightshade foods. I want to share what I've learned about nightshades, and the harm these

foods cause many of us who suffer from symptoms of arthritis and other inflammatory illnesses. Eliminating these foods from your diet may significantly relieve your pain, and for many like myself, we live pain free. At the same time, I love to cook! I have developed the recipes in this book which provide savory food options without nightshades. The change in your diet is a simple price to pay for living better with arthritis. Arthritis changed my life, and now I'm changing it back. Living without nightshade foods made it possible.

White Magic Love Spells Holiday House

A lean, taut novel about an artist—a painter—at the height of her career, about the art world, about love, fidelity, fame, betrayal, and the large choices and prices paid in the quest for art for art's sake. By the much-admired author of *The Spoiler* ("cutting wit and razor-sharp writing"—NYTBR; "a dark, sparkly gem of a book"—Christopher Buckley) and *Hame* ("I couldn't put it down"—Patrick McGrath). Eve Laing, celebrated artist, once the muse of legendary painter and "monstre sacré" Florian Kiš, is a photorealist painter of flowers at the peak of her career, with her work in international galleries and museums. Now Eve is embarking on her most ambitious work to date—seven enormous, elaborate panels of the

world's deadliest plants. In psychic preparation, she has taken a wrecking ball to her opulent high-wire life, jettisoning her marriage for a beautiful young lover, a drifter half her age, who seems to share her single-minded artistic vision. As the novel opens out, Eve is on a late-night walk through London, setting out from her former family home in the well-heeled west of the city, back to her studio, a converted factory in the grittier east, where her recently completed masterpiece hangs and where a fatal reckoning may await. . . Eve makes her way through the city and reflects on her life today and as it was years ago, and considers the large choices she has made and their repercussions. As she walks, she summons up her wild art college days in London; her New York years as a tyro artist; her vicious rivalry with her college roommate, now a celebrated figure on the international conceptual art scene whose full-blown success and recognition still infuriates and rankles Eve's sense of rightness with the world. And as she weighs what's been gained and what's been lost in pursuit of her art, a sense of dread settles over her, one she cannot shake, and as *Nightshade* moves to its dark, shocking end, it explores large questions--about ambition . . . artistic truth . . . betrayal . . . about bad people making good art . . . about the consequences of fame . . . and the devastating price of love.

In a land torn by war for generations, Princess Jessa is sent as a peace offering to the country of Arravan, understanding all too well that she is being sacrificed upon the altar of her father's ambitions—and condemned to an uncertain and possibly short-lived future, if the machinations of her own family are

any indication. But what she finds at Blackstone Keep is not what she expects, and for a daughter of royal blood who has known little of freedom and even less of love, the members of the Durand family are proving to be a very pleasant riddle to be solved—the youngest daughter, Darrius Durand, is the most surprising of all. A captain in the King's elite guard, Darry's considerable charms pull Jessa rather happily into an unexpected friendship that quickly becomes something more, promising passion and the fulfillment of her deepest desires. Jessa and Darry's relationship threatens the fragile peace, and the future of two countries might very well hang in the balance. When family secrets and hidden agendas begin to surface, as well as an ancient majik that Jessa has been preparing to use since the day she was born, a prophecy is set in motion that will thrust both lands into a bloody war of revenge and retribution—a war that love alone will not be able to stop.
