Sir Gawain and the Green Knight Lulu.com
John Crace's 'Digested Read' column in the Guardian has rightly acquired a cult following. Each week fans avidly devour his latest razor-sharp literary

assassination, while authors turn tremblingly to the appropriate page of the review section, fearful that it may be their turn to be mercilessly sent up. Now he turns his critical eye on the classics of the last century, offering bite-sized pastiches of everything from Mrs Dalloway to Trainspotting via Lolita and The Great Gatsby. Those who have

never quite got around to reading A Portrait of the Artist as a Young Man will be delighted to find its essence distilled into a handful of paragraphs. Those who have never really enjoyed Lord of the Flies will be pleased to find it hilariously parodied in an easily swallowable 982 words. And those who find all such works a little highbrow will be relieved

to discover, between the covers of this book, John Crace's take on the likes of Ian Fleming, P. G. Wodehouse and the Highway Code. Witty and sharp, this is essential reading both for those who genuinely love literature and for those who merely want to appear ridiculously well read.

Epic Retold attempts to pass a camel through the eye of a needle by rewriting the longest epic in the world using one of

its shortest vehicles. The Mahabharata is the story of a war: bitter, poignant, devastating. Told here from the perspective of Bhima, Epic Retold makes a fierce antiwar statement. It is complex experiment that was originally micro-blogged on the Internet: a grand old epic reinterpreted for a new generation.

The Johns Hopkins Guide to Digital Media Penguin (Non-Classics)

'In 1605 a crippled, greying, almost toothless veteran of Spain's wars against the Ottoman

Empire published a book. That book, Don Quixote, went on to sell more copies than any other book beside the Bible, making its author, Miguel de Cervantes, the most widely read author in human history. Cervantes did more than just publish a bestseller, though. He invented a way of writing.' In Cervantes' time, 'fiction' was synonymous with a lie. Books were either history, and true, or 'poetry' which might be invented, but had to conform to strict principles. Don Quixote

tells the story of a poor nobleman, addled from reading too many books on chivalry, who deludes himself that he is a knight errant and sets off to put the world to rights. The book was hugely entertaining, broke the existing rules, devised a new set and, in the process, created a new, modern hybrid form we know today as the novel. The Man Who Invented Fiction explores Cervantes's life and the world he lived in, showing how his life and influences converged in his work,

and how his work – especially Don Quixote – radically changed the nature of literature and created a new way of viewing the world. Finally, it explains how that worldview went on to infiltrate art, politics and science, and how the world today would be unthinkable without it. Sarpanch Sahib Bloomsbury Publishing This special 50-year jubilee edition of Steinbeck's classic novels features The Grapes of Wrath, The Moon Is Down, Cannery Row, East of

Eden, and Of Mice and Men.

The first systematic, comprehensive reference covering the ideas, genres, and concepts behind digital media. The study of what is collectively labeled “New Media”—the cultural and artistic practices made possible by digital technology—has become one of the most vibrant areas of scholarly activity and is rapidly turning into an established academic field, with many

universities now offering it as a major. The Johns Hopkins Guide to Digital Media is the first comprehensive reference work to which teachers, students, and the curious can quickly turn for reliable information on the key terms and concepts of the field. The contributors present entries on nearly 150 ideas, genres, and theoretical concepts that have allowed digital media to produce some of the most innovative intellectual, artistic, and social practices of our time. The result is an

easy-to-consult reference for digital media scholars or anyone wishing to become familiar with this fast-developing field. Inventing the Medium Hachette Books King Oedipus/Oedipus at Colonus/Antigone Three towering works of Greek tragedy depicting the inexorable downfall of a doomed royal dynasty The legends surrounding the house of Thebes inspired Sophocles to create this powerful trilogy about humanity's struggle against fate. King Oedipus is the

devastating portrayal of a ruler who brings pestilence to Thebes for crimes he does not realize he has committed and then inflicts a brutal punishment upon himself. Oedipus at Colonus provides a fitting conclusion to the life of the aged and blinded king, while Antigone depicts the fall of the next generation, through the conflict between a young woman ruled by her conscience and a king too confident of his own authority. Risk and Crisis

Communication addresses how the interaction between organizations and their stakeholders manifests during a risk or crisis situation. Littlefield and Sellnow contend that when best practices are considered, there are certain tensions to which an organization responds. These tensions are similar to those experienced among individuals when managing their relationships. As such, Littlefield and Sellnow apply an interpersonal theory, known as

relational dialectics (RDT), to risk and crisis communication and examine the outcome from the vantage point of the officials and the public. Previous research has focused on top-down, sender-oriented communication to evaluate the effectiveness of particular strategies used by spokespeople to repair public image or relay an apology. In contrast, Littlefield and Sellnow's approach relies on culture-centeredness and suggests how cultural elements may have

influenced the kinds of tensions each organization faced. Risk and Crisis Communication exemplifies the use of RDT through seven case studies, each focusing on one of the tensions, making it of interest to both scholars and organizational leaders. *Inferno* Wesleyan University Press

One of "our most insightful social observers"* cracks the great political mystery of our time: how conservatism, once a marker of class privilege,

became the creed of millions of ordinary Americans With his acclaimed wit and acuity, Thomas Frank turns his eye on what he calls the "thirty-year backlash"—the populist revolt against a supposedly liberal establishment. The high point of that backlash is the Republican Party's success in building the most unnatural of alliances: between blue-collar Midwesterners and Wall Street business interests, workers and bosses, populists and

right-wingers. In asking "what 's the matter with Kansas?"—how a place famous for its radicalism became one of the most conservative states in the union—Frank, a native Kansan and onetime Republican, seeks to answer some broader American riddles: Why do so many of us vote against our economic interests? Where's the outrage at corporate manipulators? And whatever happened to middle-American progressivism? The questions are urgent as

well as provocative. Frank answers them by examining pop conservatism—the bestsellers, the radio talk shows, the vicious political combat—and showing how our long culture wars have left us with an electorate far more concerned with their leaders' "values" and down-home qualities than with their stands on hard questions of policy. A brilliant analysis—and funny to boot—What's the Matter with Kansas? presents a critical assessment of who we

are, while telling a remarkable story of how a group of frat boys, lawyers, and CEOs came to convince a nation that they spoke on behalf of the People. *Los Angeles Times

We're in an age of information overload, and too much of what we watch, hear and read is mistaken, deceitful or even dangerous. Yet you and I can take control and make media serve us -- all of us -- by being active consumers and participants. Here's how. With a Foreword by Clay Shirky Praise for

Mediactive: "Dan Gillmor has thought more deeply, more usefully, and over a longer period of time about the next stages of media evolution than just about anyone else. In Mediactive, he puts the results of his ideas and experiments together in a guide full of practical tips and longer-term inspirations for everyone affected by rapid changes in the news ecology. This book is a very worthy successor to his influential *We the Media*." --James Fallows, Atlantic Magazine, author of

Postcards from Tomorrow Square and Breaking the News "Dan's book helps us understand when the news we read is reliable and trustworthy, and how to determine when what we're reading is intended to deceive. A trustworthy press is required for the survival of a democracy, and we really need this book right now." --Craig Newmark, founder of craigslist "A master-class in media-literacy for the 21st century, operating on all scales from the tiniest details of navigating wiki software all the way up to

sensible and smart suggestions for reforming law and policy to make the news better and fairer. Gillmor's a reporter's reporter for the information age, Mediactive made me want to stand up and salute." -- Cory Doctorow, co-editor/owner, Boing Boing; author of For the Win "As the lines between professional and citizen journalists continue to blur, Mediactive provides a useful roadmap to help us become savvier consumers and creators alike." -- Steve Case,

chairman and CEO of Revolution and co-founder of America Online "It's all true - at least to someone. And that's the problem in a hypermediated world where everyone and anyone can represent his own reality. Gillmor attacks the problem of representation and reality head on, demanding we become media-active users of our emerging media, instead of passive consumers. If this book doesn't get you out of Facebook and back on the real Internet, nothing will." --Douglas Rushkoff,

author of Program or Be Programmed: Ten Commands for a Digital Age "An important book showing people how to swim rather than drown in today's torrent of information. Dan Gillmor lives on the front line of digital information - there's no-one better to help us understand the risks and opportunities or help us ask the right questions." --Richard Sambrook, Global Vice Chairman and Chief Content Officer at Edelman, and former BBC Director of Global News

"With the future of journalism and democracy in peril, Mediactive comes along with sage and practical advice at a crucial time. Dan Gillmor, pioneering journalist and teacher of journalists, offers a practical guide to citizens who now need to become active producers as well as critical consumers of media. Read this book right away, buy one for a friend and another one for a student, and then put Gillmor's advice into action." --Howard Rheingold, author of the

Smart Mobs and other books about our digital future "Through common-sense guidelines and well-chosen examples, Gillmor shows how anyone can navigate the half-truths, exaggerations and outright falsehoods that permeate today's media environment and ferret out what is true and important. As Gillmor writes, 'When we have unlimited sources of information, and when so much of what comes at us is questionable, our lives get more challenging. They also get more

interesting.'" --Dan Kennedy, assistant professor of journalism at Northeastern University, former Boston Phoenix media critic, and author of the Media Nation blog at www.dankennedy.net

 NATIONAL BOOK AWARD FINALIST • In this ambitiously multilayered novel from the bestselling, award-winning author of *A Visit from the Goon Squad*, a fashion model named Charlotte Swenson emerges from a car

accident in her Illinois hometown with her face so badly shattered that it takes eighty titanium screws to reassemble it. She returns to New York still beautiful but oddly unrecognizable, a virtual stranger in the world she once effortlessly occupied. With the surreal authority of a David Lynch, Jennifer Egan threads Charlotte's narrative with those of other casualties of our infatuation with the image. There's a deceptively plain teenaged girl embarking

on a dangerous secret life, an alcoholic private eye, and an enigmatic stranger who changes names and accents as he prepares an apocalyptic blow against American society. As these narratives inexorably converge, *Look at Me* becomes a coolly mesmerizing intellectual thriller of identity and imposture.

The English Teacher's Companion HarperCollins
This is a collection of classic and newly commissioned essays about the study of

Indigenous literatures in North America. The contributing scholars include some of the most venerable Indigenous theorists, among them Gerald Vizenor (Anishinaabe), Jeannette Armstrong (Okanagan), Craig Womack (Creek), Kimberley Blaeser (Anishinaabe), Emma LaRocque (Métis), Daniel Heath Justice (Cherokee), Janice Acoose (Saulteaux), and Jo-Ann Episkenew (Métis). Also included are settler scholars foundational to the field, including Helen Hoy,

Margery Fee, and Renate Eigenbrod. Among the newer voices are both settler and Indigenous theorists such as Sam McKegney, Keavy Martin, and Niigaanwewidam Sinclair. The volume is organized into five subject areas: Position, the necessity of considering where you come from and who you are; Imagining Beyond Images and Myths, a history and critique of circulating images of Indigenousness; Debating Indigenous Literary Approaches; Contemporary Concerns,

a consideration of relevant issues; and finally Classroom Considerations, pedagogical concerns particular to the field. Each section is introduced by an essay that orients the reader and provides ideological context. While anthologies of literary criticism have focused on specific issues related to this burgeoning field, this volume is the first to offer comprehensive perspectives on the subject.
