HarperCollins UK
Ten years after the worldwide bestseller *Good to Great*, Jim Collins returns with another groundbreaking work, this time to ask: why do some companies thrive in uncertainty, even chaos, and others do not? Based on nine years of research, buttressed by rigorous analysis and infused with engaging stories, Collins and his colleague

Morten Hansen enumerate the principles for building a truly great enterprise in unpredictable, tumultuous and fast-moving times. This book is classic Collins: contrarian, data-driven and uplifting. The Effective Teaching of History Prosci (Applause Libretto Library). Finally, an authorized libretto to this modern day classic! Rent won the 1996 Pulitzer Prize for Drama, as

well as four Tony Awards, including Best Musical, Best Book, and Best Score for Jonathan Larson. The story of Mark, Roger, Maureen, Tom Collins, Angel, Mimi, JoAnne, and their friends on the Lower East Side of New York City will live on, along with the affirmation that there is "no day but today." Includes 16 color photographs of productions of *Rent* from around the world, plus an introduction

("Rent Is Real") by Victoria Leacock Hoffman. *The Secret Garden* UCL Press
 This edited book explores the problems and challenges of negotiating the representation of ethnic minorities within history education. It investigates how states balance the (non-)acknowledgment of the reality of cultural or religious diversity, and the promotion of a point of

convergence in history education to foster national identity. Shifting our attention away from the intractable challenges posed by post-conflict countries for reconciliation, the contributors draw attention to the need to explore ways to prevent or pre-empt conflicts and exclusion through history education, which could contribute to developing a more sustainable culture of

peace. Drawing on a wide range of contexts and sources, this book asks how history education could contribute to forming critical, historically informed, and committed young citizens. The book will be of interest to students and academics working on themes such as nationalism, citizenship, ethnicity, history education, multicultural education, peace studies

and area studies, as well as practitioners in the fields of history, social studies, civic or citizenship.

Teaching and learning about the Holocaust is central to school curriculums in many parts of the world. As a field for discourse and a body of practice, it is rich, multidimensional and innovative. But the history of the Holocaust is complex and challenging, and can render teaching it a complex and daunting area of work. Drawing on landmark research into teaching practices and

students' knowledge in English secondary schools, Holocaust Education: Contemporary challenges and controversies provides important knowledge about and insights into classroom teaching and learning. It sheds light on key challenges in Holocaust education, including the impact of misconceptions and misinformation, the dilemmas of using atrocity

images in the classroom, and teaching in ethnically diverse environments. Overviews of the most significant debates in Holocaust education provide wider context for the classroom evidence, and contribute to a book that will act as a guide through some of the most vexed areas of Holocaust pedagogy for teachers, teacher educators, researchers and policymakers. including the
following: •
What does
historical
inquiry mean
in history
classrooms? •
What forms
does

historical
inquiry take,

and to what extent is it understood in differing ways in different contexts? • What do we know about the affordances and constraints associated with inquiry-based learning in history -what is the evidence of the effectiveness or ineffectiveness of inquiry based historical learning? We address these questions in the volume by presenting seventeen papers from

eight different international contexts exploring historical inquiry that will be of interest both to history teachers, curriculum designers and history education researchers - seven papers from England, three from the US, two from Sweden and one each from Argentina, Australia, Belgium, Canada, and Singapore. The volume adds to our knowledge about teachers' thinking about

inquiry and teachers' inquiry practices. It adds to our knowledge about the impact and value of inquiry in developing children's' historical learning. It also explores the challenges that implementing inquiry can present for history teachers and provides support for implementation and examples of successful practice. ENDORSEMENT: "A wonderful

overview of the global story of historical inquiry. Canvassing everything from finding opportunities to teach history through all levels of education, through to the complexities of navigating different views on the past inside and outside of the classroom, *History Education and Historical Inquiry* provides a practical and empowering approach for educators around the

world. Recommended reading for anyone who wants to feel the support of educators from around the world in strengthening the place of inquiry in complex times." — Marnie Hughes - Warrington, University of South Australia

KS3 History 4th Edition: Technology, War and Independence 1901-Present Day Student Book John Wiley & Sons This practical book addresses the consistent questions that were posed by secondary social studies teachers

Building upon the theoretical foundations for the teaching and learning of difficult histories in social studies classrooms, this edited collection offers diverse perspectives on school practices, curriculum development, and experiences of teaching about traumatic events. Considering the relationship between memory, history, and education, this

advances the discussion of classroom-based practices for teaching and learning difficult histories and investigates the role that history education plays in creating and sustaining national and collective identities. KS3 History Workbook: Prepare for Secondary School (Collins KS3 Revision) Harper Collins Encourage a thirst for knowledge in British history from the

during professional learning sessions. In particular, it examines ways to break through the inclination and perception expressed by many teachers that “My kids cannot do that.” Drawing on 22 years as a high school history teacher, 7 years as a state level curriculum specialist, and extensive work with in-service teachers across the country, the author provides

research-based guidance for engaging students in investigating the past. Lesh examines ways to develop effective questions that guide historical inquires, how to utilize discussion in the classroom, and how to align assessment to inquiry. He also shows teachers how to incorporate difficult histories within an inquiry framework. Each chapter uses a specific

lesson, framed by student work, to illuminate approaches in real classroom scenarios. Topics include The Pullman Strike of 1894, the Marcus Garvey question, Dust Bowl Migrants, Mao and Communist China, the LGBTQ+ fight for rights, and multiple lessons from World War I. This follow-up to the author’s book “Why Won't You Just Tell Us the Answer?” fills in gaps and expands tools and classroom examples to
