In Christ Alone Shawnee  
Press (TN)

Children are inherently musical. They respond to music and learn through music. Music expresses children's identity and heritage, teaches them to belong to a culture, and develops their cognitive well-being and inner self worth. As professional

instructors, childcare workers, or students looking forward to a career working with children, we should continuously search for ways to tap into children's natural reservoir of enthusiasm for singing, moving and experimenting with instruments. But how, you might ask? What music is appropriate for the children I'm working with? How can music help inspire a well-rounded

child? How do I reach and teach children musically? Most importantly perhaps, how can I incorporate music into a curriculum that marginalizes the arts? This book explores a holistic, artistic, and integrated approach to understanding the developmental connections between music and children. This book guides professionals to work through music, harnessing the processes that underlie music

learning, and outlining developmentally appropriate methods to understand the role of music in children's lives through play, games, creativity, and movement. Additionally, the book explores ways of applying music-making to benefit the whole child, i.e., socially, emotionally, physically, cognitively, and linguistically. Dove Award-winning recording artist Ellie Holcomb answers with a lovely lyrical tale, one that reveals that God our Maker sang the first song, and He created us all with a song to sing. We're all about connecting parents and kids to each other and to God's Word. *Wee Sing Children's Songs and Fingerplays* Price Stern Sloan "Celebrate the songs and words of America's patriots and pioneers!" -- back cover. [Wee Sing Silly Songs](#) Price Stern Sloan The definitive guide to the meaning of today's most popular praise and

worship songs. Few things influence Christians' understanding of the faith more than the songs they sing in worship. The explosion of praise and worship music in the last fifteen years has profoundly affected our experience of God. So what are those songs telling us about who God is? In what ways have they made us more faithful disciples of Jesus Christ? In what ways have they failed to embody the full message of the gospel? Working with the lists of the most

frequently sung praise and worship songs from recent years, the authors of this book offer an objective but supportive assessment of the meaning and contribution of the Christian music that has been so important in the lives of contemporary believers.

The seeker-sensitive movement revolutionized the way we did church and introduced countless baby boomers

to Jesus. Yet trends show that today's post-Christian generations are not responding like the generations before them. As we enter a new cultural era, what do worship services look like that are connecting with the hearts of emerging generations? How do preaching, leadership, evangelism, spiritual formation, and, most of all, how we even think of "church" need to change? The Emerging Church goes beyond just theory and gets into very practical ways of assisting

you in your local church circumstances. There is no one right way, no model for us all to emulate. But there is something better. Dan Kimball calls it "Vintage Christianity": a refreshing return to an unapologetically sacred, raw, historical, and Jesus-focused missional ministry. Vintage Christianity connects with emerging post-seeker generations who are very open spiritually but are not interested in church. For pastors, leaders, and every concerned

Christian, Kimball offers a riveting and easy-to-grasp exploration of today's changing culture and gives insight into the new kind of churches that are emerging in its midst. Included is running commentary by Rick Warren, Brian McLaren, Howard Hendricks, and others.

*Over in the Meadow*

Routledge

The Lost Words by composer James Burton takes its inspiration and text from the award-winning 'cultural phenomenon' and book of the same name by Robert Macfarlane and Jackie Morris: a book that was, in turn, a creative response to the removal of everyday nature words like acorn, newt and otter from a new edition of a widely used children's dictionary. Both the book and Burton's 32-minute work, which is written in

12 short movements for upper-voice choir in up to 3 voice parts (with either orchestral or piano accompaniment), celebrates each lost word with a beautiful poem or 'spell', magically brought to life in Burton's music. At its heart, the work delivers a powerful message about the need to close the gap between childhood and the natural world. Burton's piece was co-commissioned by the Hallé Concerts Society for the Hallé Children's Choir and the Boston Symphony Orchestra. The piano

accompaniment version was premiered at the Tanglewood Festival in 2019 by the Boston Symphony Children's Choir, of which Burton is founder and director. The Hallé Children's Choir will premiere the orchestral version of the full work in Manchester, UK, post-pandemic. Vocal Score Co-commission by Boston Symphony and Hallé Concerts Society for their respective Children's Choirs. Two versions - with orchestral or with piano accompaniment. The vocal score is the

same for both versions. James Burton is a composer but also a conductor. He is conductor of the Tanglewood Festival Chorus and choral director of the Boston Symphony. The book *The Lost Words*, exquisitely designed, has won multiple awards and is an international best-seller. The vocal score includes Jackie Morris's beautiful imagery in its cover design.

""Over in the Meadow in the sand in the sun Lived an old mother turtle and her little turtle one."" So begins this classic nursery poem, written by Olive A Wadsworth in the late 19th century, a favorite counting rhyme for generations of children. Anna Vojtech's sweet illustrations depict a sun-drenched meadow filled

with loving animal families-from mother turtle with her one baby to ten little beavers embraced by their doting mother. There are lots to count in the cleverly designed pictures, and sharp-eyed youngsters will delight in finding a corresponding number of background details on each spread.
