Churches over the past generations have been weakened by a failure to meet both the physical and spiritual needs of their communities. Many have adopted a narrow vision, focusing on only one aspect of ministry. But in today's environment of faith-based opportunities many Christians are eager to start reaching out to their world with both Good News and good works, and therefore they are searching for appropriate ways to integrate both into their ministry. In *Churches That Make a Difference*, best-selling author Ron Sider and his coauthors give those involved in community outreach a comprehensive resource for developing holistic ministry--a balance of evangelism and social outreach. Illustrations and helpful organizational tips detail the how-to's of an effective holistic ministry. Case studies that show how different churches across the United States reach out to their communities provide a variety of ideas and practical applications. User-friendly tools are included as well for congregational studies, surveys, evaluations, and community assessments. The authors draw on extensive experience with church ministries and faith-based organizations as they share the life-changing vision and biblical mandate for living the whole gospel. Church leaders will be encouraged in their process of developing and maintaining a holistic ministry, and local churches will rediscover a passion for loving the whole person the way Jesus did.

We've all got a lot of questions these days: In a world marked by division, how do we create bridges of meaningful connection? When despair runs rampant, is real hope possible? When competition is elevated, is compassion still relevant? And at the end of the day, can one person really make any impact at all? When the world's problems loom large and your ordinary life stretches you thin, it is still possible to be a difference-maker--one small, intentional, extravagant act of kindness at a time. Rather than telling you to do more, *The Simple Difference* shows you how to see more: more of the people in front of you, more of

God's lavish love for you, more of his power within you. The Simple Difference will help you - stop getting buried in busyness and distraction and discover countless opportunities for impact right where you are - remove your perceived limitations and learn to see that your "not-enough" is exactly what the world needs - discard expectations of what it takes to make a difference and delight in the life-changing power of simple kindness The Simple Difference isn't about totally changing the course of your life; it's about letting God change you and work through you in the midst of your ordinary days. To say, As I go on my way, Lord, have your way with me. Be a part of The Simple Difference movement--your life and the world will never be the same.

[Balancing the Badge to Make a Difference](#) is a holistic approach toward balancing a law enforcement career with a purpose-driven retirement. Balancing the Badge to Make a Difference is based on a relationship with God and family, and a solid financial plan. Jim's passion for creating the Balancing the Badge concept and writing this book began while working alongside peace officers and providing financial services to them. He quickly recognized the importance of Balancing the Badge to provide financial information for officers to plan for retirement and also for developing a purpose-driven retirement to keep retirees motivated, healthy, productive, and most importantly, happy in retirement. Research for this book includes more than 36 years of police experience as an officer and a manager, providing financial services to officers and the public for over 20 years, raising a family, his relationship to God, teaching financial planning and life planning for over seven years to officers and cadets, and conducting extensive interviews with law enforcement professionals regarding their life goals during their career and into retirement. The goal for this book is about transforming law enforcement personnel to embrace the concept of Balancing the Badge because a purpose-driven retirement is critical for law enforcement survival. The objective of this book is to provide the tools to cross the bridge from achieving financial wealth, to also achieving life wealth. Building a life portfolio is as important as building a financial portfolio. This is a must-read book for all officers at any stage of their career including retirees that wish to live a life worth living. This book can easily be applied to all other careers as well. Reviews include: "Jim's classes were valuable to both me and my wife as we planned for our retirement. It caused us to have realistic goals and expectations and to formulate a plan to keep everything in line with God's plan for our lives, as well as meeting our financial goals." - Eric Fagan, Houston Police Officer (retired). "Jim has an enormous heart and unyielding energy to help officers and anyone in need to live a life worth living. Jim's vast police experience and extensive financial experience coupled with his faith and charity work guide him to help others live a balanced life. This book is a must read for all law enforcement personnel at any stage of their career, including retirees. I also recommend this book to anyone searching for their purpose." - James Bollig, Houston Police Sergeant (retired) & Army Veteran. "Balancing the Badge is a great 'How To' book on achieving Financial Freedom as well as genuine freedom. Everyone wants to be successful financially, but most of us never attain it. The reason is because we either don't know how or are not willing to do what it takes. This book gives you the knowledge and the motivation. Remove the handcuffs and start living a life free from bondage. Thank you, Lt Jim, for writing this book!" - Terry Farrar, CFP. "The value of a plan integrating the priorities of career, finances, family, and spiritual well-being cannot be understated. This book provides a road map in establishing your long-term plan to achieve personal success, happiness and financial security, geared specifically to law enforcement." - Dan

"This is the book where self-help turns into helping the world—and then turns back into helping yourself find a better life. Fascinating and timely!"—Bill McKibben, author of *Eaarth: Making a Life on a Tough New Planet* What does it take to achieve a successful and satisfying life? Not long ago, the answer seemed as simple as following a straightforward path: college, career, house, marriage, kids, and a secure retirement. Not anymore. Staggering student loan debt, sweeping job shortages, a chronically ailing economy—plus the larger issues of global unrest, poverty, and our imperiled environment—make the search for fulfillment more challenging. And, as Colin Beavan,

activist and author of *No Impact Man*, proclaims, more exciting. In this breakthrough book, Beavan extends a hand to those seeking more meaning and joy in life even as they engage in addressing our various world crises. *How to Be Alive* nudges the unfulfilled toward creating their own version of the Good Life—a life where feeling good and doing good intersect. He urges readers to reexamine the “standard life approaches” to pretty much everything and to experiment with life choices that are truer to their values, passions, and concerns. How do you stop placing limits on your potential impact? How do you make your choices really matter in everything from your clothing purchases to your career? How do you find the people who will most support you in your quest for a good life? To answer these questions and more, Beavan draws on classic literature and philosophy; surprising new scientific findings; and the uplifting personal stories of real-life “lifequesters”—people who are breaking away from those old broken paths, blazing fresh trails, and reveling in every step along the way. “There is a movement afoot for a better life and Colin Beavan is its prophet, with a new book as powerful as his already classic *No Impact Man*.”—John de Graaf, coauthor of *Affluenza*

Today, more people want to know how to make a meaningful difference to what they care about. But for that, traditional approaches to learning often fall short. In this book, we offer a theoretical and practical way forward. We introduce the concept of social learning spaces for developing both new capabilities and a sense of agency. We provide a rich framework for focusing on the value of social learning spaces: how to generate this value, monitor it, and learn iteratively through the process. The book is a useful extension and refinement of ‘communities of practice’ for those familiar with the theory. For those who are not, the chapters will lay out a new way to approach learning. This volume is written to serve the needs of readers across fields, including researchers, educators, and leaders in business, government, healthcare, and international development.

Great Work: How to Make a Difference People Love Baker Books

Most of us want to make a difference. We donate our time and money to charities and causes we deem worthy, choose careers we consider meaningful, and patronize businesses and buy products we believe make the world a better place.

Unfortunately, we often base these decisions on assumptions and emotions rather than facts. As a result, even our best intentions often lead to ineffective—and sometimes downright harmful—outcomes. How can we do better? While a researcher at Oxford, trying to figure out which career would allow him to have the greatest impact, William MacAskill confronted this problem head on. He discovered that much of the potential for change was being squandered by lack of information, bad data, and our own prejudice. As an antidote, he and his colleagues developed effective altruism, a practical, data-driven approach that allows each of us to make a tremendous difference regardless of our resources. Effective altruists believe that it’s not enough to simply do good; we must do good better. At the core of this philosophy are five key questions that help guide our altruistic decisions: How many people benefit, and by how much? Is this the most effective thing I can do? Is this area neglected? What would have happened otherwise? What are the chances of success, and how good would success be? By applying these questions to real-life scenarios, MacAskill shows how many of our assumptions about doing good are misguided. For instance, he argues one can potentially save more lives by becoming a plastic surgeon rather than a heart surgeon; measuring overhead costs is an inaccurate gauge of a charity’s effectiveness; and, it

generally doesn’t make sense for individuals to donate to disaster relief. MacAskill urges us to think differently, set aside biases, and use evidence and careful reasoning rather than act on impulse.

When we do this—when we apply the head and the heart to each of our altruistic endeavors—we find that each of us has the power to do an astonishing amount of good.
