A distinctive and unrivaled examination of North American Eastern Orthodox Christians and their encounter with the rights revolution in a pluralistic American society. From the civil rights movement of the 1950s to the "culture wars" of North America, commentators have identified the partisans bent on pursuing different "rights" claims. When religious identity surfaces as a key determinant in how the pursuit of rights occurs, both "the religious right" and "liberal" believers remain the focus of how each contributes to making rights demands. How Orthodox Christians in North America have navigated the "rights revolution," however, remains largely unknown. From the disagreements over the rights of the First Peoples of Alaska to arguments about the rights of transgender persons, Orthodox Christians have engaged an Anglo-American legal and constitutional rights tradition. But they see rights claims through the lens of an inherited focus on the dignity of the human person. In a pluralistic society and culture, Orthodox Christians, both converts and those with family roots in Orthodox countries, share with non-Orthodox fellow citizens the challenge of reconciling conflicting rights claims. Those claims do pit "religious liberty" rights claims against perceived dangers from outside the Orthodox Church. But internal disagreements about the rights of clergy and people within the Church accompany the Orthodox Christian engagement with debates over gender, sex, and marriage as well as expanding political, legal, and human rights claims. Despite their small numbers, North American Orthodox remain highly visible and their struggles influential among the more than 280 million Orthodox worldwide. Orthodox Christians and the Rights Revolution in America offers an historical analysis of this unfolding story.

Time • Chicago Tribune • The Washington Post • NPR • Variety • Esquire • Vox • Elle • Glamour • GQ • Good Housekeeping • The Paris Review • Paste • Town & Country • BookPage • Kirkus Reviews • BookRiot • Shelf Awareness Jia Tolentino is a peerless voice of her generation, tackling the conflicts, contradictions, and sea changes that define us and our time. Now, in this dazzling collection of nine entirely original essays, written with a rare combination of give and sharpness, wit and fearlessness, she delves into the forces that warp our vision, demonstrating an unparalleled stylistic potency and critical dexterity. Trick Mirror is an enlightening, unforgettable trip through the river of self-delusion that surges just beneath the surface of our lives. This is a book about the incentives that shape us, and about how hard it is to see ourselves clearly through a culture that revolves around the self. In each essay, Tolentino writes about a cultural prism: the rise of the nightmare social internet; the advent of scamming as the definitive millennial ethos; the literary heroine's journey from brave to blank to bitter; the punitive dream of optimization, which insists that everything, including our bodies, should become more efficient and beautiful until we die. Gleaming with Tolentino's sense of humor and capacity to elucidate the impossibly complex in an instant, and marked by her desire to treat the reader with profound honesty, Trick Mirror is an instant classic of the worst decade yet. Ethics and Media Culture: Practices and Representations

InterVarsity Press

In a rapidly changing culture, many of us struggle to talk about faith. We can no longer assume our friends understand words such as grace or gospel. Others, like lost and sin, have become so negative they are nearly conversation-enders. Jonathan Merritt knows this frustration well. After moving from the Bible Belt to New York City, he discovered that the sacred terms he used to describe his spiritual life didn't connect as they had in the past. This launched him into an exploration of an increasing American reluctance to talk about faith—and the data he uncovered revealed a quiet crisis of affecting millions. In this groundbreaking book, Jonathan revives ancient expressions through incisive

cultural commentary, vulnerable personal narratives, and surprising biblical insights. Both provocative and liberating, Learning to Speak God from Scratch will breathe new life into your spiritual conversations and invite you into the embrace of the God who inhabits them.

Clergy suffer from certain health issues at a rate higher than the general population. Why are pastors in such poor health? And what can be done to help them step into the abundant life God desires for them? Although anecdotal observations about poor clergy health abound, concrete data from multiple sources supporting this claim hasn't been made accessible—until now. Duke's Clergy Health Initiative (CHI), a major, decade-long research project, provides a true picture of the clergy health crisis over time and demonstrates that improving the health of pastors is possible. Bringing together the best in social science and medical research, this book quantifies the poor health of clergy with theological engagement. Although the study focused on United Methodist ministers, the authors interpret CHI's groundbreaking data for a broad ecumenical readership. In addition to physical health, the book examines mental health and spiritual well-being, and suggests that increasing positive mental health may prevent future physical and mental health problems for clergy. Concrete suggestions tailored to clergy are woven throughout the book.

Honorable Mention, Isis Duarte Book Prize (Latin American Studies Association) *Streetwalking: LGBTQ Lives and Protest in the Dominican Republic* is an exploration of the ways that lesbian, gay, bisexual, trans and queer persons exercise power in a Catholic Hispanic heteropatriarchal nation-state, namely the Dominican Republic. Lara presents the specific strategies employed by LGBTQ community leaders in the Dominican Republic in their struggle for subjectivity, recognition, and rights. Drawing on ethnographic encounters, film and video, and interviews, LGBTQ community leaders teach readers about streetwalking, confrontación, flipping the script, cuentos, and the use of strategic universalisms in the exercise of power and agency. Rooted in Maria Lugones's theorization of streetwalker strategies and Audre Lorde's theorization of silence and action, this text re-imagines the exercise and locus of power in examples provided by the living, thriving LGBTQ community of the Dominican Republic.

The Spectator

Ethics and Media Culture straddles the practical and ethical issues of contention encountered by journalists. The book's various contributors cover a diversity of issues and viewpoints, attempting to broaden out the debates particularly in relation to Journalism Studies, Cultural Studies, Sociology of Culture and Communications, Philosophy and History. The debate concerning

media ethics has intensified in recent years, fuelled mainly by the standards of journalist and media practices. The role of practitioners has taken centre-stage as concerns over what constitutes ethical, and therefore socially acceptable practice and behaviour, by the public, practitioners and intellectuals alike. The discursive relationship between the production and consumption of information is central to the debate regarding moral conduct, particularly in light of the commercialisation of the media. Considering that media institutions operate in a climate of intense competition, the value of information and its corresponding quality have begun to be critically assessed in terms of ethical understanding. A degree of open-endedness is maintained in discussions throughout this book, which is intended to engage the reader with the issues raised and determine their own conclusions.

Streetwalking

The politics of austerity has seen governments across Europe cut back on welfare provision. As the State retreats, this edited collection explores secular and faith-based grassroots social action in Germany and the United Kingdom that has evolved in response to changing economic policy and expanding needs, from basic items such as food to more complex means to move out of poverty. Bringing together scholars from different disciplines and practitioners in several areas of social intervention, the book explores how the conceptualization and constitutive practices of

citizenship and community are changing because of the retreat of the State and the challenge of meeting social and material needs, creating new opportunities for local activism. The book provides new ways of thinking about social and political belonging and about the relations between individual, collective, and State responsibility.
