## LEWIS DAVENPORT

Learning American Sign Language Gallup Press  
 Deaf people are usually regarded by the hearing world as having a lack, as missing a sense. Yet a definition of deaf people based on hearing loss obscures a wealth of ways in which societies have benefited from the significant contributions of deaf people. In this bold intervention into ongoing debates about disability and what it means to be human, experts from a variety of disciplines—neuroscience, linguistics, bioethics, history, cultural studies, education, public policy, art, and architecture—advance the concept of Deaf Gain and challenge assumptions about

what is normal. Through their in-depth articulation of Deaf Gain, the editors and authors of this pathbreaking volume approach deafness as a distinct way of being in the world, one which opens up perceptions, perspectives, and insights that are less common to the majority of hearing persons. For example, deaf individuals tend to have unique capabilities in spatial and facial recognition, peripheral processing, and the detection of images. And users of sign language, which neuroscientists have shown to be biologically equivalent to speech, contribute toward a robust range of creative expression and understanding. By framing deafness in terms of its intellectual, creative, and cultural benefits, Deaf Gain recognizes physical and cognitive difference as a vital aspect of human diversity. Contributors: David

A plane crashes on a desert island and the only survivors, a group of schoolboys, assemble on the beach and wait to be rescued. By day they inhabit a land of bright fantastic birds and dark blue seas, but at night their dreams are haunted by the image of a terrifying beast. As the boys' delicate sense of order fades, so their childish dreams are transformed into something more primitive, and their behaviour starts to take on a murderous, savage significance. First published in 1954, *Lord of the Flies* is one of the most celebrated and widely read of modern classics. Now fully revised and updated, this educational edition includes chapter summaries, comprehension questions, discussion points, classroom activities, a biographical profile of Golding, historical context relevant to the novel and an essay on *Lord of the Flies* by William Golding entitled 'Fable'. Aimed at Key Stage 3 and 4 students, it also includes a section on literary theory for advanced or A-level students. The educational edition encourages original and independent thinking while guiding the student through the text - ideal for use in the classroom and at home.

Students who use their natural talents achieve the most --- but they need to know what those talents are.

StrengthsQuest includes the Clifton StrengthsFinder, an online assessment that reveals students' top five themes of talent. And StrengthsQuest also helps students make the most of those talents. Students and learners of all ages continually face the challenges of gaining direction, making decisions, and building self-confidence. Fortunately, the keys to successfully meeting these challenges — your own natural talents — already exist within you. Through these talents, you will produce your greatest achievements. Over the course of 30 years, Gallup conducted millions of psychological interviews and identified 34 themes of talent that are indicative of success. In the StrengthsQuest program, Gallup offers you the opportunity to discover talents from

your top five themes and build on them to achieve academic, career, and personal excellence. More than 100,000 students have benefited from the program. Your quest starts with the Clifton StrengthsFinder, a 30-minute assessment that reveals your top five themes of talent. This online assessment is your entryway to a variety of experiences that will help you discover your greatest talents and develop strengths. You'll gain access to action items specific to your top themes, covering general academic life, study habits, relationships, and career. You'll also be challenged to think about applying your talents for success in other settings, such as on projects and teams and in leadership. StrengthsQuest was written by the late Donald O. Clifton, who was the former chairman of Gallup; coauthor of the bestseller *Now, Discover Your Strengths*; and recognized as the Father of Strengths-Based Psychology and the late Edward "Chip" Anderson, who taught education, psychology, and leadership at UCLA and Azusa Pacific University. Revised portions of the text were written by Laurie A. Schreiner, who has taught psychology and higher education at Azusa Pacific University and Eastern University. Through his research over the years, Dr Supalla, who is deaf, has identified the name sign system which has a pattern to forming and giving name signs within the deaf communities. The need for a formal name sign book has risen dramatically with the increasing use of inappropriate name signs. There is a comprehensive guide and a list of over 500 name signs to help people to select appropriate name signs according to the American Sign Language (ASL) rules of formation and use. The book is written to be both informative and entertaining, and Dr Supalla compels all who are interested to become more aware of deaf people's intriguing signed language and culture, both dating back to the early years of deaf education.

*Clifton Strengths for Students* Turtleback Books

As a young English teacher keen to make a difference in the world, Michelle Kuo

took a job at a tough school in the Mississippi Delta, sharing books and poetry with a young African-American teenager named Patrick and his classmates. For the first time, these kids began to engage with ideas and dreams beyond their small town, and to gain an insight into themselves that they had never had before. Two years later, Michelle left to go to law school; but Patrick began to lose his way, ending up jailed for murder. And that's when Michelle decided that her work was not done, and began to visit Patrick once a week, and soon every day, to read with him again. Reading with Patrick is an inspirational story of friendship, a coming-of-age story for both a young teacher and a student, an expansive, deeply resonant meditation on education, race and justice, and a love letter to literature and its power to transcend social barriers.

**The Cat in the Hat** Moody Publishers  
From the USA TODAY bestselling author of Sweet Thing and Nowhere But Here comes a love story about a Craigslist "missed connection" post that gives two people a second chance at love fifteen years after they were separated in New York City. To the Green-eyed Lovebird: We met fifteen years ago, almost to the day, when I moved my stuff into the NYU dorm room next to yours at Senior House. You called us fast friends. I like to think it was more. We lived on nothing but the excitement of finding ourselves through music (you were obsessed with Jeff Buckley), photography (I couldn't stop taking pictures of you), hanging out in Washington Square Park, and all the weird things we did to make money. I learned more about myself that year than any other. Yet, somehow, it all fell apart. We lost touch the summer after graduation when I went to South America to work for National Geographic. When I came back, you were gone. A part of me still wonders if I pushed you too hard after the wedding... I didn't see you again until a month ago. It was a Wednesday. You were rocking back on your heels, balancing on that thick yellow line that runs along the subway platform, waiting for the F train. I didn't know it was you until it was too late, and then you were gone. Again. You said my name; I saw it on your lips. I tried to will the train to stop, just so I could say hello. After seeing you, all of the youthful feelings and memories came flooding back to me, and now I've spent the better part of a month wondering what your life is like. I might be totally out of my mind, but would you like

to get a drink with me and catch up on the last decade and a half? M

Parents and students sacrifice large sums of money for a Christian college education. Why? They are purchasing a guarantee their child's faith in God and the Bible will be guarded and developed. But is the Bible being taught? Will they graduate believing in the inerrancy of Scripture, the Flood of Noah's Day, and a literal six day creation? Apologetics powerhouse Ken Ham and Dr. Greg Hall reveal an eye opening assessment of 200 Christian colleges and universities. In an unprecedented 2010 study by America Research Group, college presidents, religion and science department heads were polled on critical areas of Scripture and core faith questions.

A look at the gulf that separates the deaf minority from the hearing world, this book sheds light on the mistreatment of the deaf community by a hearing establishment that resists understanding and awareness. Critically acclaimed as a breakthrough when it was first published in 1992, this new edition includes information on the science and ethics of childhood cochlear implants. An indictment of the ways in which experts in the scientific, medical, and educational establishment purport to serve the deaf, this book describes how they, in fact, do them great harm."
