In our current landscape of communicative and connective excess, a very novel contemporary exhaustion exacerbated by our relation to the postdigital terrain is ever present. The Brazilian philosopher and schizoanalyst Peter Pál Pelbart pushes the vital question of our nihilistic age to the limits: how can one learn to be left alone, live alone, and perhaps, by way of a Deleuzian “absolute solitude,” conjure a vitality for living again and, indeed, finding something truly “worthy of saying”? Through various poetic meanderings and meditations and building on the works of Blanchot, Musil, Guattari, and Delingy, among others, Pelbart reestablishes the possibility of fighting off the exhaustion of our current state of affairs. For Pelbart, we must chart the cartography of exhaustion as if it were a sort of molecular symptomology.

The National Book Award finalist and national bestseller exploring the life and legend of Marilyn Monroe Soon to be a Netflix Film starring Ana de Armas, Adrien Brody, Bobby Cannavale and Julianne Nicholson In one of her most ambitious works, Joyce Carol Oates boldly reimagines the inner, poetic, and spiritual life of Norma Jeane Baker—the child, the woman, the fated celebrity, and idolized blonde the world came to know as Marilyn Monroe. In a voice startlingly intimate and

rich, Norma Jeane tells her own story of an emblematic American artist—intensely conflicted and driven—who had lost her way. A powerful portrait of Hollywood’s myth and an extraordinary woman’s heartbreaking reality, *Blonde* is a sweeping epic that pays tribute to the elusive magic and devastation behind the creation of the great 20th-century American star.

It's not about "corporate social responsibility": it's about building companies that can sustain success in a radically new era. It's about great companies like IDEO and IKEA®, Commerce Bank and Costco®, Wegmans and Whole Foods®: how they earn the powerful loyalty and affection that enables truly breathtaking performance. This book is about gaining "share of heart," not just share of wallet. It's about aligning stakeholders' interests, not just juggling them. It's about building companies that leave the world a better place. Most of all, it's about why you must do all this, or risk being left in the dust... and how to get there from wherever you are now.

#1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK • ONE OF GQ'S TOP 50 BOOKS OF LITERARY JOURNALISM IN THE 21st CENTURY • The heartrending story of a midcentury American family with twelve children, six of them diagnosed with schizophrenia, that became science's great hope in the quest to understand the disease. "Reads like a medical detective journey and sheds light on a topic so many of us face: mental illness." —Oprah Winfrey Don and Mimi Galvin seemed to be living the American dream. After World War II, Don's work with the Air Force brought them to Colorado, where their twelve children perfectly spanned the baby boom: the oldest born in 1945, the youngest in 1965. In those years, there was an established script for a family like the Galvins—ambition, hard work, upward mobility, domestic harmony—and they worked hard to play their parts. But behind the scenes was a different story: psychological breakdown, sudden shocking violence, hidden abuse. By the mid-1970s, six of the ten Galvin boys, one after another, were diagnosed as schizophrenic. How could all this happen to one family? What took place inside the house on Hidden Valley Road was so extraordinary that the Galvins became one of the first families to be studied by the National Institute of Mental Health. Their story offers a shadow history of the science of schizophrenia, from the era of institutionalization, lobotomy, and the schizophrenogenic mother to the search for genetic markers for the disease, always amid profound disagreements about the nature of the illness itself. And unbeknownst to the Galvins, samples of their DNA informed decades of genetic research that continues today, offering paths to treatment, prediction, and even eradication of the disease for future generations. With clarity and compassion, bestselling and award-winning author Robert Kolker uncovers one family's unforgettable legacy of suffering, love, and hope.

Meet the Billionaires: the 1,645 men and women who control a massive share of global assets worth \$6.5 trillion. Darrell West reveals what the other 99.99998% of us need to know. With rich anecdotes and personal narratives, West goes inside the world of the ultra wealthy. Meet U.S. billionaires such as Sheldon Adelson, Michael Bloomberg, David and Charles Koch, George Soros, Tom Steyer, and Donald Trump—as well as international billionaires from around the globe. The growing political engagement of this small supra-wealthy group raises important questions about influence, transparency, and government performance, and West lays bare the wealthification of politics, including: • How billionaires can block appointments and legislation they don't like • Why the supra-wealthy moved into policy advocacy and referenda at the state level • Why billionaires run for office in more than a dozen countries around the world

"This is the book Trump fears most." - Axios From the Pulitzer-Prize-winning New York Times reporter who has defined Donald J. Trump's presidency like no other journalist: a magnificent and disturbing reckoning that chronicles his life and its meaning from his rise in New York City to his tortured post-presidency. Few journalists working today have covered Donald Trump more extensively than Maggie Haberman. And few understand him and his motivations better. Now, demonstrating her majestic command of this story, Haberman reveals in full the depth of her understanding of the 45th president himself, and of what the Trump phenomenon means. Interviews with hundreds of sources and numerous interviews over the years with Trump himself portray a complicated and often contradictory historical figure. Capable of kindness but relying on casual cruelty as it suits his purposes. Pugnacious. Insecure. Lonely. Vindictive. Menacing. Smarter than his critics contend and colder and more calculating than his allies believe. A man who embedded himself in popular culture, galvanizing support for a run for high office that he began preliminary spadework for 30 years ago, to ultimately become a president who pushed American democracy to the brink. The through-line of Trump's life and his presidency is the enduring question of what is in it for him or what he needs to say to survive short increments of time in the pursuit of his own interests. Confidence Man is also, inevitably, about the world that produced such a singular character, giving rise to his career and becoming his first stage. It is also about a series of relentlessly transactional relationships. The ones that shaped him most were with girlfriends and wives, with Roy Cohn, with George Steinbrenner, with Mike Tyson and Don King and Roger Stone, with city and state politicians like Robert Morgenthau and Rudy Giuliani, with business partners, with prosecutors, with the media, and with the employees who toiled inside what they commonly called amongst themselves the "Trump Disorganization." That world informed the one that Trump tried to recreate while in the White House. All of Trump's behavior as President had echoes in what came before. In this revelatory and newsmaking book, Haberman brings together the events of his life into a single mesmerizing work. It is the definitive account of one of the most norms-shattering and consequential eras in American political history.

In Upper Bunkies Unite: And Other Thoughts On the Politics of Mass Incarceration author Andrea James takes a critical look at the politics and policies resulting in mass incarceration within the United States. From her professional experience as a former criminal defense lawyer, and her personal experience as a formerly incarcerated woman, James provides a more accurate portrait of who is in our prisons and the destructive outcome of politics that support a failed drug war and exhaust resources on law enforcement and incarceration. James demonstrates the need for a shift toward community wellness initiatives to replace incarceration and a complete overhaul of the current U.S. criminal justice framework from one of punishment and wasted human potential, to a system focused on social justice and healing.

Opening with the statement "The anthropocene is no time to set things straight," Stacy Alaimo puts forth potent arguments for a material feminist posthumanism in the chapters that follow. From trans-species art and queer animals to naked protesting and scientific accounts of fishy humans, *Exposed* argues for feminist posthumanism immersed in strange agencies and scale-shifting ethics. Including such divergent topics as landscape art, ocean ecologies, and plastic activism, Alaimo explores our environmental predicaments to better understand feminist occupations of transcorporeal subjectivity. She puts scientists, activists, artists, writers, and theorists in conversation, revealing that the state of the planet in the twenty-first century has radically transformed ethics, politics, and what it means to be human. Ultimately, *Exposed* calls for an environmental stance in which, rather than operating from an externalized perspective, we think, feel, and act as the very stuff of the world.
