"Value Chain Management for Promotion of Bamboo-based Livelihood in Tripura, North-East India"

Lulu.com

" 'Startup India, Stand-up India' "Can India be a

'Startup Capital'? Can the youth in the states have the opportunities in the form of start-ups, with innovations, whether it be manufacturing , service sector or agriculture? --- Narendra Modi, Prime Minister of India Startup

India Stand up Our Prime Minister unveiled a 19-point action plan for start-up enterprises in India. Highlighting the importance of the Standup India Scheme, Hon'ble Prime minister said that the job seeker has to become a job

<p>creator. Prime Minister announced that the initiative envisages loans to at least two aspiring entrepreneurs from the Scheduled Castes, Scheduled Tribes, and Women categories. It was also announced that the loan shall be in the ten lakh to one crore rupee range. A startup India hub will be created as a single point of contact for the entire startup ecosystem to enable</p>	<p>knowledge exchange and access to funding. Startup India campaign is based on an action plan aimed at promoting bank financing for start-up ventures to boost entrepreneurship and encourage startups with jobs creation. Startup India is a flagship initiative of the Government of India, intended to build a strong ecosystem for nurturing innovation and Startups in the country.</p>	<p>This will drive sustainable economic growth and generate large scale employment opportunities. The Government, through this initiative aims to empower Startups to grow through innovation and design. What is Startup India offering to the Entrepreneurs ? Stand up India backed up by Department of Financial Services (DFS) intends to bring up Women and SC/ST entrepreneurs</p>
---	---	--

. They have planned to support 2.5 lakh borrowers with Bank loans (with at least 2 borrowers in both the category per branch) which can be returned up to seven years. PM announced that "There will be no income tax on startups' profits for three years" PM plans to reduce the involvement of state government in the startups so that entrepreneurs can enjoy freedom. No

tax would be charged on any startup up to three years from the day of its establishment once it has been approved by Incubator. India Government is promoting finance for start-up ventures and providing incentives to further boost entrepreneurs hip, manufacturing and job creation. The correct choice of business is an extremely essential step in the process of 'being your own boss'.

This handbook contains few formulations of cosmetic products, properties and manufacturing process with flow diagrams of various products. After gathering the above information of products, the decision of choosing an appropriate one will no longer be a cumbersome process. The Fast-Moving Consumer Goods (FMCG) sector, also called the consumer packaged goods (CPG) sector, is one

of the largest industries worldwide. FMCGs are generally cheap products that are purchased by consumers on a regular basis. FMCG sector is the fourth largest sector in the economy and creates employment for more than three million people in downstream activities. The FMCG market is estimated to treble from its current figure in the coming decade. Fast Moving Consumer Goods

Companies have been expanding rapidly. Most of the product categories like jams, toothpaste, skin care, shampoos, etc, have low per capita consumption as well as low penetration level, but the potential for growth is huge. The industry has developed both in the small scale sector and organized sector. Major contents of the book are banana wafers, biscuits, bread, candy,

chocolates, potato chips, rice flakes (poha), corn flakes, baby cereal food, fruit juice, milk powder, paneer, papad, ghee, extruded food (kurkure type), instant noodles, instant tea, jam & jelly, khakhra, soft drinks, spices, sweet scented supari, detergent powder, detergent soap, face freshener tissue, floor cleaner, glass cleaner, henna based hair dye, herbal creams,

<p>herbal hair oil, herbal shampoo, incense sticks, lipsticks, liquid detergent, mosquito coils, nail polish, air freshener (odonil type), naphthalene balls, phenyl, shoe polish, tissue paper, toilet cleaner, tooth brush, tooth paste, toothpicks, utensil cleaning bar, packaging. It will be a standard reference book for professionals, entrepreneurs and food technologists. <i>The Complete Book on</i></p>	<p><i>Adhesives, Glues & Resins Technology (with Process & Formulations) 2nd Revised Edition</i> CRC Press Microfinance in India: A State of the Sector Report, 2007 is one in a series of annual reports on the microfinance sector in India. It is a comprehensiv e one-stop document that provides a holistic view of the sector, providing a detailed analysis of its status and future. It</p>	<p>highlights recent developments under each of the two main models of microfinance in India -the SHG and MFI models. Most significantly, it engages with issues of topical interest such as the microfinance bill pending in parliament in a balanced and objective manner, and focuses on policy issues that need the attention of decision makers. The book carries a statistical appendix which</p>
---	---	---

provides essential data on the sector, and strengthens its utility as a reference document. It will be of interest to various players in the sector including practitioners, bankers, insurance companies, venture capitalists, regulators, donors and academics. *Inclusive Value Chains* Harmony The young and adolescents are an epitome of change, hope

and progress. The lives of adolescents are subject to global challenges faced by information and technological revolution, changing markets and globalization, and specific changes taking place in family dynamics, cultural traditions, religious beliefs and other socialization practices. This book on Adolescence Education assumes importance in view of the

likely impact of acquired skills and behaviours during this period on an individual's prospects in adulthood. This book is an attempt to understand the broader context in which adolescent lives are embedded. The theoretical perspective presents a multi-disciplinary view of adolescence that helps to understand the evolution of the concept of adolescence.

Presenting an elaborate account of adolescence as experienced by young in India and highlighting the challenges that emerge as a result of dynamic changes in society, the attempt is made to identify the emerging issues and concerns that impact the lives of adolescents and provide a perspective to adolescence education. The historical account presented helps to build an understanding of the various socio-cultural forces that led to the emergence of the existing Adolescence Education Programme (AEP). The text presents the key features of the present AEP that are imperative for its successful implementation. The UN and civil society initiatives are mapped with a view to locate the characteristic features and thrust of various interventions. The text gives some gleaning insights from available evidences regarding execution of various existing adolescent programmes, and existential realities of adolescents' lives. The book is intended for the undergraduate and postgraduate students of Education, Psychology and Sociology. Besides, the book is equally beneficial for the students opting for Psychology at their +2 level.

Machine Intelligence Engineers India Research In
 Unleash your entrepreneurial spirit and dive into the dynamic world of manufacturing with "Startup Manufacturing : Business Ideas 200." This comprehensive guide is a treasure trove of innovative ideas that will fuel your passion for business and set you on the path to success in the manufacturing industry. A World of Opportunities:

Explore 200 handpicked manufacturing business ideas that span across various industries and niches. Whether you're a seasoned entrepreneur seeking to expand your horizons or a budding visionary ready to take the plunge, this book offers a plethora of opportunities to match your ambitions. 200 Lucrative Business Ideas to Propel Your Journey: Inside this book, you'll discover:

Tech-Driven Manufacturing : Embrace the Fourth Industrial Revolution with cutting-edge tech manufacturing ideas, including 3D printing, IoT devices, and smart gadgets. Sustainable & Green Initiatives: Champion eco-conscious entrepreneurship with ideas that promote sustainable manufacturing , recycling, and renewable energy. Customization & Personalization: Cater to

individual preferences and captivate your audience with tailored products through personalized manufacturing . Food & Beverage Innovations: Tap into the flourishing food industry with unique food processing and packaging ideas. Health & Wellness Products: Explore manufacturing ideas for wellness products, organic cosmetics, and health-focused innovations.

Your Blueprint to Triumph: "Startup Manufacturing : Business Ideas 200" is more than just a compendium of ideas; it's your blueprint to entrepreneurial success. Each idea is accompanied by valuable market insights, potential target audiences, and profit-driven strategies. Find Your Niche: Uncover the business idea that aligns with your passion and

expertise. This book empowers you to select the manufacturing venture that resonates with your vision, ensuring a gratifying and rewarding journey. Empower Your Entrepreneurial Dream: As you embark on your manufacturing adventure, "Startup Manufacturing : Business Ideas 200" will be your guiding beacon. Empower yourself with creativity, knowledge, and confidence to

transform your vision into a thriving manufacturing empire. Join the league of successful entrepreneurs and revolutionize the manufacturing landscape! Grab your copy today and embark on an exciting journey of boundless possibilities! Madhya Pradesh: Narsimhapur. Supplement World Scientific Soap is the traditional washing compound made from oil fats and

caustic alkali. It is an item of daily necessity as cleaning agent. There are few specialty soaps like the washing soaps, castile soaps, sandal soap, specially flavored soaps, medicated soaps, toilet soaps and baby soaps. Population growth, especially households with children has a proportional impact on the growth of the manufacturing sector of the industry. The soap industry is vivacious,

varied, creative and tricky, and has the prospective to provide a gratifying career. With increasing popularity there has been increase in potential competitors but it still has the opportunity of further exploitation. Today with increase in disposable incomes all around the world, demand for these products expected to increase because consumers are

moving up towards premium products. With increasing awareness of hygienic standards, the market for the Soap is growing at a rate higher than 8% annually. People have become more creative in trying to find new ways in which they can make soap either for domestic use or commercial purposes. This book will provide all the basic facts and information you need to get started.

You will be able to slowly build your way up to completely master the art of soap making. The book contains processes formulae, Photographs of Plant & Machinery with Supplier's Contact Details, Addresses of Raw Material Suppliers and providing information regarding manufacturing method of different washing and toilet soaps. Some of the fundamentals of the book are raw

material oil and fats, fatty acids, manufacture of soap products, technology of soap manufacturing , various formulations of soaps, soap perfumery, management of soap factories, analytical methods. This book will be a mile stone for its readers who are new to this sector, will also find useful for professionals, entrepreneurs , those studying and researching in this important area.

The Indian Forester S.

Chand

Epoxy is a term used to denote both the basic components and the cured end products of epoxy resins, as well as a colloquial name for the epoxide functional group. Epoxy resin are a class of thermoset materials used extensively in structural and specialty composite applications because they offer a unique combination of properties that are

unattainable with other thermoset resins. Epoxies are monomers or prepolymers that further reacts with curing agents to yield high performance thermosetting plastics. They have gained wide acceptance in protecting coatings, electrical and structural applications because of their exceptional combination of properties such as toughness, adhesion, chemical resistance and

superior electrical properties. Epoxy resins are characterized by the presence of a three membered cycle ether group commonly referred to as an epoxy group 1,2-epoxide, or oxirane. The most widely used epoxy resins are diglycidyl ethers of bisphenol-A derived from bisphenol-A and epichlorohydrin. The market of epoxy resins are growing day

by day. Today the total business of this product is more than 100 crores. Epoxy resins are used for about 75% of wind blades currently produced worldwide, while polyester resins account for the remaining 25%. A standard 1.5-MW (megawatt) wind turbine has approximately 10 tonnes of epoxy in its blades. Traditionally, the markets for epoxy resins have

been driven by demand generated primarily in areas of adhesives, building and civil construction, electrical insulation, printed circuit boards, and protective coatings for consumer durables, amongst others. The major contents of the book are synthesis and characteristics of epoxy resin, manufacture of epoxy resins, epoxide curing reactions, the dynamic mechanical

properties of epoxy resins, physical and chemical properties of epoxy resins, epoxy resin adhesives, epoxy resin coatings, epoxy coating give into water, electrical and electronic applications, analysis of epoxides and epoxy resins and the toxicology of epoxy resins. It will be a standard reference book for professionals and entrepreneurs . Those who are interested in this field

can find the complete information from manufacture to final uses of epoxy resin. This presentation will be very helpful to new entrepreneurs , technocrats, research scholars, libraries and existing units. *Entrepreneur's Start-Up Handbook: Manufacturing of Profitable Household (FMCG) Products with Process & Formulations (2nd Revised Edition)* Nestfame Creations Pvt. Ltd.

An adhesive is a material used for holding two surfaces together. In the service condition that way adhesives can be called as "Social" as they unite individual parts creating a whole. A useful way to classify adhesives is by the way they react chemically after they have been applied to the surfaces to be joined. There is a huge range of adhesives, and one appropriate for the

materials being joined must be chosen. Gums and resins are polymeric compounds and manufactured by synthetic routes. Gums and resins largely used in water or other solvent soluble form for providing special properties to some formulations. More than 95% of total adhesive used worldwide are based on synthetic resins. Gums and resins have wide industrial applications.

<p>They are used in manufacture of lacquers, printing inks, varnishes, paints, textiles, cosmetics, food and other industries. Increase in disposable income levels, rising GDP and booming retail markets are propelling growth in packaging and flexible packaging industry. Growth of disposable products is expected to increase, which leads to increase in consumption of adhesives</p>	<p>in packaging industry. The global value of adhesive resins market is estimated to be \$11,339.66 million and is projected to grow at a CAGR of about 4.88% in coming years. Rapid urbanization coupled with growing infrastructure and real estate construction projects is projected to further fuel demand for adhesives in India. This handbook covers photographs of plant &</p>	<p>machinery with supplier's contact details and manufacturing aspects of various adhesives, glues & resins. The major contents of the book are glues of animal origin, fish glues, animal glues, casein glues & adhesives, blood albumen glues, amino resin adhesives, cyanoacrylate adhesives, epoxy resin adhesives, phenolic resin adhesives, polychloroprene resin adhesives,</p>

The use of paints, varnishes and enamels for decoration is nearly as old as human culture itself. These are widely used in homes as well as in industry because painted surfaces are attractive and easy to keep clean. Paint is generally made up of a pigment. It is a chemical material, which alters the color of
--	--	---

reflected or transmitted light due to wavelength-selective absorption. Varnish is a transparent, hard, protective finish or film primarily used in wood finishing but also for other materials. Varnish is traditionally a combination of a drying oil, a resin, and a thinner or solvent. The technology of paints, varnishes and enamels is changing rapidly and becoming more complex each day. The

paint industry is an important segment of the chemical industry. Enamel paint is paint that air dries to a hard, usually glossy, finish, used for coating surfaces that are outdoors or otherwise subject to wear or variations in temperature. The Indian paint industry has seen a gradual shift in the preferences of people from the traditional whitewash to higher quality paints like emulsions and

enamel paints with improvement in lifestyle. India is the second largest consumer of paint in Asia. Over the past few years, the Indian paint market has substantially grown and caught the attention of many major players. The market for paints in India is expected to grow at 1.5 times to 2 times GDP growth rate in the coming years. In terms of volumes, pigments demand is expected to

reach 4.4 million tonnes. Due to increased Government funding for infrastructure, demand for paints both in industrial and decorative segment is set to rise, thereby rendering Indian paint industry to be poised for further growth. This handbook is designed for use by everyone engaged in the paints, pigments, varnishes and enamels industry. It provides all the

information of the various formulae and processes of paints, pigments, varnishes and enamels. The major content of the book are paint testing, color in paint, maintenance paints, emulsion paints, exterior or interior paints, exterior or interior multicolor paints, exterior swimming pool paints and enamels, interior ceiling paints, metal paints, marine paints, enamel paints, interior

fire- retardant paints, interior gloss paints, paint formulation, manufacture of natural copal varnishes, floor paints and enamels, varnishes, lacquers and floor finishes, white pigments, colored pigments, pigment dispersion etc. The book contains addresses of plant & machinery suppliers with their Photographs. It will be a standard reference book for

Timber Forest Products (NTFPs) as a means to come out of poverty. Ending poverty remains a major worldwide challenge and is the number one goal under the UN Sustainable Development Goals. The book fills an important knowledge gap; that of personal stories of NTFP users. This has not been part of past publications on NTFPs which tend to focus on

statistics and analysis of numbers, thus, the human faces of NTFP users are missing. Narrative stories provide a wealth of data about people and their experiences rather than aggregated classifications, categories and characteristics of poverty. The objective of this book is to illustrate the poverty alleviation potential of NTFPs through documenting the personal life stories of individuals and

households that lifted themselves out of poverty through trade of NTFPs. This book is for all who are interested in poverty alleviation and NTFPs. *Poverty Reduction Through Non-Timber Forest Products* Concept Publishing Company Onion and garlic are the spice commodities used for flavouring the dishes. These are considered as valuable medicinal plants offer

variety of medicinal properties. Onion & garlic are important commercial crops with versatile applications. The demand for the processed products is increasing day by day due to its convenience to handle and use. Onion & garlic can be processed into a wide variety of products. As per the estimate, approximately 6.75% of the onion produced is being processed. Besides

fulfilling the constant demand of domestic population, India exports 13 to 18 lakh tons of onion annually worth around Rs. 2200 crores of foreign exchange revenue. Similarly in case of garlic, the production increased from 4.03 lakh tons to 12.26 lakh tons. Proper placement of onion & garlic products (like; onion pickle, onion chutney, onion paste, garlic oil, garlic paste,

garlic powder, garlic flakes, onion flakes, onion powder) in the departmental stores, super markets, shopping malls backed-up by publicity is the key to success. It is also possible to have tie-up with exclusive restaurants, star hotels, renowned caterers for their regular requirements. This handbook is designed for use by everyone engaged in the onion & garlic products manufacturing . The book

explains manufacturing process with flow diagrams of various onion & garlic products and addresses of plant & machinery suppliers with their photographs. Major contents of the book are varieties of onion, onion production, onion dehydration, types of garlic, garlic growing, garlic dehydration, onion pickle, onion chutney, onion paste, garlic oil, garlic paste, garlic powder, garlic flakes, onion flakes, onion powder, pest species and pest control of garlic and onion, integrated weed management, packaging, product advertising and sales promotion, marketing etc. It will be a standard reference book for professionals, entrepreneurs, food technologists, those studying and researching in this important area and others interested in the field of onion & garlic products manufacturing . The Indian Journal of Labour Economics S. Chand Publishing
This textbook has been comprehensively written to acquaint the students with the fundamental concepts of sociology as well as provide an introduction to the diverse field of sociology. Students will be introduced to the origins of sociology as a discipline and would get acquainted with relevant topics such as inequality,

institutions, control, change, disorganisation & problems in the society. Topics such as applied sociology and social thought have also been provided to give a complete overview of the subject. This textbook not only caters as a primary text to the undergraduate students of Sociology but is also a useful reference for postgraduate students and aspirants appearing for various competitive

examinations. *Problems of Home-based Workers in India* ASIA PACIFIC BUSINESS PRESS Inc. This book centers around an intense debate among donors, policymakers, development practitioners, and academics on the efficacy of aid in eradicating poverty while promoting human development. It seeks to fill the gap in present literature by presenting stories of better spending through implementing Sustainable Development Goals and addressing Agenda 2030 via indigenization of global development goals with initiatives at local and national levels. The book adopts an innovative approach to dealing with aid effectiveness by highlighting the relevance of better spending, rather than excessive spending. It does so with real-life examples of interventions made in the Global South to realize the vision of "thinking globally and acting locally". These case studies speak to the significance of communities' role in shouldering responsibility for planning, financing, operating, and maintaining local developmenta l initiatives. The examples also demonstrate how aid serves its purpose when

used as an investment in communities and enterprising individuals, in order to realize the strategic impact of giving and build a local "receiving mechanism" for indigenizing and achieving global development goals. The book references cases of better spending by governments, philanthropists, and civil society organizations (CSOs) from across Asia,

Africa, and Latin America on a range of issues and will, thus, be of interest to development practitioners, policymakers, donors, philanthropists, civil society organizations, and academics and students of international development studies. *Madhya Pradesh District Gazetteers: Supplement ASIA PACIFIC BUSINESS PRESS Inc. NEW YORK TIMES BESTSELLER • Thought*

leader, visionary, philanthropist, mystic, and yogi Sadhguru presents Western readers with a time-tested path to achieving absolute well-being: the classical science of yoga. "A loving invitation to live our best lives and a profound reassurance of why and how we can."—Sir Ken Robinson, author of *The Element*, *Finding Your Element*, and *Out of Our Minds: Learning to Be*

<p>Creative NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY SPIRITUALITY & HEALTH The practice of hatha yoga, as we commonly know it, is but one of eight branches of the body of knowledge that is yoga. In fact, yoga is a sophisticated system of self- empowerment that is capable of harnessing and activating inner energies in such a way that your body and mind function at their optimal capacity. It is</p>	<p>a means to create inner situations exactly the way you want them, turning you into the architect of your own joy. A yogi lives life in this expansive state, and in this transformative book Sadhguru tells the story of his own awakening, from a boy with an unusual affinity for the natural world to a young daredevil who crossed the Indian continent on his motorcycle.</p>	<p>He relates the moment of his enlightenment on a mountaintop in southern India, where time stood still and he emerged radically changed. Today, as the founder of Isha, an organization devoted to humanitarian causes, he lights the path for millions. The term guru, he notes, means “dispeller of darkness, someone who opens the door for you. . . . As a guru, I have no doctrine to</p>
---	---	--

teach, no philosophy to impart, no belief to propagate. And that is because the only solution for all the ills that plague humanity is self-transformation . Self-transformation means that nothing of the old remains. It is a dimensional shift in the way you perceive and experience life.” The wisdom distilled in this accessible, profound, and engaging book offers readers time-tested

tools that are fresh, alive, and radiantly new. Inner Engineering presents a revolutionary way of thinking about our agency and our humanity and the opportunity to achieve nothing less than a life of joy.

The Complete Book on Cultivation and Manufacture of Tea (2nd Revised Edition) ASIA PACIFIC BUSINESS PRESS Inc. This book entitled

'Indian Social Problems: A Sociological Perspective' provides a glimpse of many social problems that have been haunting the Indian society since years, decades, and even centuries. Though India is fast developing, it has lots of regional, cultural, linguistic and religious diversities. These diversities are also reflected in its social problems. This book covers social problems

which are general in nature and common to the whole nation such as population problem, poverty, unemployment, child labour, urbanization, youth unrest, problems of the aged, family disorganization, corruption, crime and delinquency, etc. This book is prepared mainly to cater to the needs of the undergraduate and postgraduate students. Most of the universities in India have

prescribed one paper on 'Indian Social Problems' either at the undergraduate or postgraduate level. The book also covers topics that are included in the syllabi of IAS, NET, SLET, KAS and other national- and state-level competitive examinations. It also contains lessons that form part of MBA, nursing and five-year law courses. Such students and examinees will definitely find the book

highly helpful. Indian Social Problems ASIA PACIFIC BUSINESS PRESS Inc. You know you want to start a business, but what do you do next? Here's how to find the perfect idea for your business. Today we find several young people, college students, housewives who are aspire to earn money by starting small business and are always looking for business ideas with low cost. Some people believe

that starting a business needs large amount of investment but this is not true for every type of business. In fact, there are many types of small businesses that are not only relatively inexpensive to start, but also have the potential to produce significant profits. Startup India Stand up Our Prime Minister unveiled a 19-point action plan for start-up enterprises in India. Highlighting the

importance of the Standup India Scheme, Hon'ble Prime minister said that the job seeker has to become a job creator. Prime Minister announced that the initiative envisages loans to at least two aspiring entrepreneurs from the Scheduled Castes, Scheduled Tribes, and Women categories. It was also announced that the loan shall be in the ten lakh to one crore rupee range.

A startup India hub will be created as a single point of contact for the entire startup ecosystem to enable knowledge exchange and access to funding. Startup India campaign is based on an action plan aimed at promoting bank financing for start-up ventures to boost entrepreneurship and encourage startups with jobs creation. on notwithstanding. June 21 will be observed as World Music Day. In City Lights, we bring you a special feature on the music of Odisha, tracing its journey over the last few decades and how it is changing, thanks to the transformative effect of technology as well as social media. With the summer sun blazing down, it is extremely important to take steps to keep your skin safe. From

cleansers to moisturizers, there are solutions galore these days, but it is a good idea to figure out what works best for you. Head to the City Fashion section to find out more. With climate change and environmental sustainability becoming the buzzword, there is a need to take a closer look at some concerns which generally tend to go unnoticed. Among these are diapers and sanitary

pads - they take several years to decompose once they end up in landfills. Encouraging the use of eco-friendly material may be a way out to deal with this challenge. Read all about it in City Green. While on the subject of a greener tomorrow, we also look at how cycling promotes the well-being not just of an individual but also the planet as a whole. City Health brings you some interesting insights on

this. The CBSE Class 10 and 12 results were announced recently. In Campus Buzz, we catch up with some of the toppers from the twin cities of Bhubaneswar and Cuttack; they share their secret recipe for success.
