This manual is prepared for the use and
benefit of all who may be seriously
considering entering the real estate
profession or upgrading their licenses to
the broker level in Oklahoma. The license
applicant must be familiar with the basic
technical knowledge contained herein, as
well as the wide range of ethical

obligations imposed on the real estate
professional. A thorough understanding of
the Oklahoma Real Estate License Code
and the Oklahoma Real Estate License
Rules is essential for success in the real
estate business. This book is not offered as
a substitute in any way for competent
legal advice or services where such is
needed. With the rapid changes taking
place in all phases of real estate activity
and changes in law, it is obvious that this
book will be at least partially obsolete
soon after publication. Appreciation is
hereby expressed to all those who

generously contributed time, knowledge, and interest in the development of this text. Special thanks and appreciation to my wife, Nola, without whose tireless efforts, patience and endurance, this book would never have existed.

The South Carolina Advanced Real Estate Principles: the "SCAP" Unit II Program has been developed to satisfy South Carolina's 30-hour Unit II requirement. The course also fulfills the Real Estate Commission's objective of giving South Carolina real estate licensees a carefully developed reinforcement of key real estate brokerage principles, concepts, and practices necessary to initiate a productive, professional career in real estate. Beyond an initial review of key principles, the SCAP Program takes on a further examination of essential skills and practices that will be necessary to meet client and customer transactional requirements within South Carolina's legal framework. Such skills examined include compliance with South Carolina agency and disclosure laws; how to properly represent and disclose property

characteristics; and an intensive look at South Carolina transaction contracts: listings; the sales contract; options and contracts for deed. Beyond its agency and contracts topics, the SCAP further examines the other key subjects required by the Commission: ethics; handling trust funds; regulatory compliance; and critical cornerstones of professional practice. Finally, the last two modules of the SCAP program examine the various methods used to measure real property; price and appraise real property; and evaluate how real property is evaluated as a professional investment. These considerations encompass income properties as well as residential non-income property, and include pre-tax analysis as well as after-tax analysis. Taken as a whole, the South Carolina Advanced Real Estate Principles program is designed to deepen the new licensee's understanding of how brokerage works in actual practice – and how it is supposed to be undertaken in view of today's standards of professionalism, ethics, and legal compliance.

Features of Real Estate License Exam Prep

(RELEP): National Principles & Law Key Point Review (60 pages) Real Estate Math Key Formula Review & Practice (20 pages) National Practice Tests (500 questions) Sample Exam (75 questions) We know the real estate licensing exam can be tough, and very nerve-wracking to prepare for. That's why we created the Real Estate License Exam Prep (RELEP) the way we did. Since we have been managing real estate schools and developing curriculum for forty years, we know how all this works – or fails to work. First, RELEP is comprehensive in that it contains both key content review and testing practice. RELEP's national key point reviews are a succinct compression of tested national principles and practices that comprise the national portion of state license exams from coast to coast. Our content is drawn from our own national textbook, Principles of Real Estate Practice – one of the most widely used principles textbooks in the country. Thus the breadth and depth of the law reviews and test questions reflect the topic emphasis of the three major testing services for the national portion of the state exam. A word about the test questions... RELEP's testing practice

section consists of ten national practice tests and one sample test. The practice tests are roughly 50 questions in length and the sample test is 75 questions. The questions are direct, to the point, and designed to test your understanding. When you have completed a given test, you can check your answers against the answer key in the appendix. You may also note that each question's answer is accompanied by a brief explanation, or "rationale" to further reinforce your understanding. Your particular study and testing practice strategy using RELEP is up to you. But to fully exploit its comprehensive content coverage, you should try to review and memorize the key point reviews as much as possible. Then you should make every effort to take each exam, review your mistakes, and re-read the key point reviews that cover your weaker areas. One note of caution is also in order: this National edition of RELEP does not contain state laws and practices applicable in your state of residence or where you intend to get your license. Therefore you will need to study state-level laws given to you by your prelicense school in order to pass the state portion of

the state exam. While we are in the process of adding state-level materials to our RELEP series we still have a ways to go. So, until we have state review materials for your state, we give you this publication - a total-coverage review and practice resource of the highest quality for the national portion of the state exam. Now that we've have been straightforward with you, a second word of caution. Don't be fooled by other national prep books - that contain no state-level materials - that advertise you will pass your state exam by learning and reviewing what's in their publication. You won't. It is absolutely essential that you develop a comprehensive understanding of both national and state laws and principles in order to pass your state's license examination. While RELEP is as comprehensive a national prep text as it gets, in the end -- as your prelicense course hopefully informed you -- it's all up to you. It still takes hard work and study to pass. But we have done our best here to get you ready for the national portion of the state exam. Following that, the most we can do is wish you the best of success in taking and passing your state exam. So

good luck!! Current states with state-specific versions of Real Estate License Exam Prep- AL, AZ, AR, CA, CO, CT, FL,GA, IL, IN, KS, KY, MD, MA, MI, MN,MS, MO, NV, NJ, NY, NC, OK, OH, OR, PA, RI, SC, TN, TX, VA & WA.

We know the real estate licensing exam can be tough, and very nerve-racking to prepare for. That's why we created the California Real Estate License Express (CA-RELE) the way we did. Since we have been managing real estate schools and developing curriculum for forty years, we know how all this works -
