The acclaimed novel of love, ambition, and Arctic adventure “told with fin de siecle elegance”—with an introduction by Philip Pullman (Kirkus Reviews). It is July 1897, at the northernmost reach of the inhabited world. Swedish inventor Gustav Crispin is determined to become the first person to set foot on the North Pole, and return, borne by hot air balloon. Making the expedition with two companions—an American journalist and a young, French-speaking adventurer—all three climb into the small wicker gondola and cuts the ropes. But as Gustav pursues his history-making ambition, and their flimsy balloon is battered by Arctic winds, his mind returns again and again to his fraught romance with the beautiful Luisa. Nominated for the National Book Award in 1977, *The Balloonist* was hailed by Mary Renault as a “tour de force.” The story of

Gustav Crispin is “chilling and comic by turn . . . An unusual mixture of Arctic adventure and Parisian love story with philosophic overtones” (Kirkus Reviews). *The Wednesday Wars* Princeton Review

Are you willing to do a little hard work to achieve it? Good. I knew I liked you. Read this book from beginning to end, with a pencil in hand and a calculator and an Official SAT Study Guide by your side. When you're done, you'll be able to approach the SAT with confidence—very few questions will surprise you, and even fewer will be able to withstand your withering attacks. Stand tall, intrepid student. Destiny awaits. Updated for the New SAT This new edition of the Math Guide has been updated, rather painstakingly, to reflect the realities of the new SAT coming March 2016. This book was not rushed to market to take advantage of interest in the new exam. I took my time, and hopefully I got it right. Chapters are broken into five major sections: Techniques, Heart of Algebra, Passport to Advanced Math, Problem

Solving and Data Analysis, and Additional Topics in Math. Each chapter concludes with a reference list of similar questions from official practice tests. Practice questions are designated as either “Calculator” or “No calculator.” Students will be forbidden from using their calculators for one whole section of the new SAT. Emphasis is placed on nimbleness—the ability to approach problems in multiple ways to find the one that works best. Calculator solutions and shortcuts are provided where appropriate.
