 Honorable Mention - American Association for Ukrainian Studies (AAUS) 2018-2019 Book Prize Having exploded on the margins of Europe, Chernobyl marked the end of the Soviet Union and tied the era of postmodernism in Western Europe with nuclear consciousness. The Post-Chernobyl Library in Tamara Hundorova's book becomes a metaphor of a new Ukrainian literature of the 1990s, which emerges out of the Chernobyl nuclear trauma of the 26th of April, 1986. Ukrainian postmodernism turns into a writing of trauma and reflects the collisions of the post-Soviet time as well as the processes of decolonization of the national culture. A carnivalization of the apocalypse is the main paradigm of the post-Chernobyl text, which appeals to "homelessness" and the repetition of "the end

of histories." Ironic language game, polymorphism of characters, taboo breaking, and filling in the gaps of national culture testify to the fact that the Ukrainians were liberating themselves from the totalitarian past and entering the society of the spectacle. Along this way, the post-Chernobyl character turns into an ironist, meets with the Other, experiences a split of his or her self, and witnesses a shift of geo-cultural landscapes.

Based on the shocking Beslan school siege in 2004, this is a brave and necessary story about grief, resilience, and finding your voice in the aftermath of tragedy. On the day she brings her sweet little sister, Nika, to school for the first time, eighteen-year-old Darya has already been taking care of her family for years. But a joyous September morning shifts in an instant when Darya's rural Russian town is attacked by terrorists. While Darya manages to escape, Nika is one of hundreds of children taken hostage in the school in what stretches to a three-day siege and ends in violence. In the confusion and horror that follow, Darya and her family frantically scour hospitals and survivor lists in hopes that Nika has somehow survived. And as journalists and foreign aid workers descend on her small town, Darya is caught in the grip of grief and trauma, trying to recover her life and wondering if there is any hope for her future. From acclaimed author Julie Mayhew comes a difficult but powerful narrative about pain, purpose, and healing in the wake of senseless terror.

In terms of economic potential and political future, the Ukraine was second only to Russia itself among the fifteen Soviet Republics that comprised the USSR after World War II. Although Ukraine was dependent upon the dictates of Moscow, there was much evidence to support the thesis that the spirit of the Ukrainian nationalism had survived and flourished under the weight of Soviet nationality policy. Despite liquidating the Ukrainian Greek Catholic (Uniate) Church, the attempt to eliminate the Ukrainian language and its rich literary heritage, and bombarded by mass propaganda aimed at the schools, the Ukrainian people continued clinging to their national identity against these odds. In this analysis of the political and social structure of the Ukraine since World War II, Dr. Bilinsky shows that the methods designed to integrate the Ukraine in the USSR have produced factors which contributed to rather than

diminished Ukrainian national consciousness. This book is about the Ukraine, but in a larger sense it is a systematic, comprehensive, and revealing critique of the Soviet policies and techniques employed in holding together the widely differing cultural, linguistic, and geographical segments of the world's largest state.

Besides providing a thorough overview of advances in the concept of identity in Translation Studies, the book brings together a variety of approaches to identity as seen through the prism of translation. Individual chapters are united by the topic and their predominantly cultural approach, but they also supply dynamic impulses for the reader, since their methodologies, level of abstraction, and subject matter differ. The theoretical impulses brought together here include a call for the ecology of translational attention, a proposal of transcultural and farcical translation and a rethinking of Bourdieu's habitus in terms of František Miko's experiential complex. The book also offers first-hand insights into such topics as post-communist translation practices, provides sociological insights into the role politics played during state socialism in the creation of fields of translated fiction and the way imported fiction was able to subvert the intentions of the state, gives evidence of the struggles of small locales trying to be recognised through their literature, and draws links between local theory and more widely-known concepts.

When the young Swedish-descended Alexandra Bergson inherits her father's farm in Nebraska, she must transform the land from a wind-swept prairie landscape into a thriving enterprise. She dedicates herself completely to the land—at the cost of great sacrifices. *O Pioneers!* [1913] is Willa Cather's great masterpiece about American pioneers, where the land is as important a character as the people who cultivate it. **WILLA CATHER** [1873-1947] was an American author. After studying at the University of Nebraska, she worked as a teacher and journalist. Cather's novels often focus on settlers in the USA with a particular emphasis on female pioneers. In 1923, she was awarded the Pulitzer Prize for the novel *One of Ours*, and in 1943, she was elected to the American Academy of Arts and Sciences.

Russia possesses one of the richest and most admired literatures of Europe, reaching back to the eleventh century. *A History of Russian Literature* provides a comprehensive account of Russian writing from its earliest origins in the monastic works of Kiev up to the present day, still rife with the creative experiments of post-Soviet literary life. The volume proceeds chronologically in five parts, extending from Kievan Rus' in the 11th century to the present day. The coverage strikes a balance between extensive overview and in-depth thematic focus. Parts are organized thematically in chapters, which a number of keywords that are important literary concepts that can serve as connecting motifs and 'case studies', in-depth discussions of writers, institutions,

and texts that take the reader up close and. Visual material also underscores the interrelation of the word and image at a number of points, particularly significant in the medieval period and twentieth century. The History addresses major continuities and discontinuities in the history of Russian literature across all periods, and in particular bring out trans-historical features that contribute to the notion of a national literature. The volume's time-range has the merit of identifying from the early modern period a vital set of national stereotypes and popular folklore about boundaries, space, Holy Russia, and the charismatic king that offers culturally relevant material to later writers. This volume delivers a fresh view on a series of key questions about Russia's literary history, by providing new mappings of literary

history and a narrative that pursues key concepts (rather more than individual authorial careers). This holistic narrative underscores the ways in which context and text are densely woven in Russian literature, and demonstrates that the most exciting way to understand the canon and the development of tradition is through a discussion of the interrelation of major and minor figures, historical events and literary politics, literary theory and literary innovation.
