present "a classic fantasy quest involving mysterious wizards, rites of passage, and the salvation of a kingdom" (Library Journal). Peace has long reigned in Ruwenda thanks to the magical protection of the Archimage Binah. The realm's devoted guardian is aging, however, and her magic is weakening. When the kingdom's triplet princesses were still infants, Binah gave each of them the mystical power of the Black Trillium. But the unthinkable occurs too soon, and Ruwenda is overrun by the ravaging armies of neighboring Labornok before the sisters, Haramis, Kadiya, and Anigel, have time to learn how to use their great gift. Forced to flee, the young princesses must follow their separate destinies through a dangerous and unfamiliar world of Oddlings and enemies—for only the combined power of three magical talismans can help them defeat the malevolent sorcerer who has brought chaos and death to their once-idyllic home. But it will take new kinds of strength and wisdom to confront the great evil that has descended on the World of the Three Moons.

Marion Zimmer Bradley, Julian May, and Andre Norton, three of the most honored names in fantasy fiction, have joined forces to create an extraordinary world and culture in the first book of the remarkable *Saga of the Trillium*, a breathtaking tale of duty, peril, love, and magic.

Beautiful Sacrifice: A Novel Simon and Schuster

Beautiful Redemption: A Novel Simon and Schuster
The bestselling author of No Logo shows how the global "free market" has exploited crises and shock for three decades, from Chile to Iraq In her groundbreaking reporting, Naomi Klein introduced the term "disaster capitalism." Whether covering Baghdad after the U.S. occupation, Sri Lanka in the wake of the tsunami, or New Orleans post-Katrina, she witnessed something remarkably similar. People still reeling from catastrophe were being hit again, this time with economic "shock treatment," losing their land and homes to rapid-fire corporate makeovers. The Shock Doctrine retells the story of the most

dominant ideology of our time, Milton Friedman's free market economic revolution. In contrast to the popular myth of this movement's peaceful global victory, Klein shows how it has exploited moments of shock and extreme violence in order to implement its economic policies in so many parts of the world from Latin America and Eastern Europe to South Africa, Russia, and Iraq. At the core of disaster capitalism is the use of cataclysmic events to advance radical privatization combined with the privatization of the disaster response itself. Klein argues that by capitalizing on crises, created by nature or war, the disaster capitalism complex now exists as a booming new economy, and is the violent culmination of a radical economic project that has been incubating for fifty years.

A Beautiful Wedding
Simon and Schuster

"A highly personal, richly informed and culturally wide-ranging meditation on the loss of meaning in our times and on pathways to rediscovering it." —Gabor Maté, MD, author of *In The Realm of Hungry Ghosts: Close Encounters With Addiction*

A neuroanthropologist maps out a revolutionary new practice—Hedonic Engineering—that combines the best of neuroscience and optimal psychology. It's an intensive program of breathing, movement, and sexuality that mends trauma, heightens inspiration and tightens connections—helping us wake up, grow up, and show up for a world that needs us all. This is a

book about a big idea. And the idea is this: Slowly over the past few decades, and now suddenly, all at once, we're suffering from a collapse in Meaning. Fundamentalism and nihilism are filling that vacuum, with consequences that affect us all. In a world that needs us at our best, diseases of despair, tribalism, and disaster fatigue are leaving us at our worst. It's vital that we regain control of the stories we're telling because they are shaping the future we're creating. To do that, we have to remember our deepest inspiration, heal our pain and apathy, and connect to each other like never before. If we can do that, we've got a shot at solving the big problems we face. And if we can't? Well, the dustbin of history has swallowed civilizations older and fancier than ours. This book is divided into three parts. The first, *Choose Your Own Apocalypse*, takes a look at our current Meaning Crisis--where we are today, why it's so hard to make sense of the world, what might be coming next, and what to do about it. It also makes a case that many of our efforts to cope, whether

anxiety and denial, or tribalism and identity politics, are likely making things worse. The middle section, *The Alchemist Cookbook*, applies the creative firm IDEO's design thinking to the Meaning Crisis. This is where the book gets hands on--taking a look at the strongest evolutionary drivers that can bring about inspiration, healing, and connection. From breathing, to movement, sexuality, music, and substances--these are the everyday tools to help us wake up, grow up, and show up. AKA--how to blow yourself sky high with household materials. And the best part? They're accessible, by anyone anywhere, no middleman required. *Transcendence* democratized. The final third of the book, *Ethical Cult Building*, focuses on the tricky nature of putting these kinds of experiences into gear and into culture--because, anytime in the past when we've figured out combinations of peak states and deep healing, we've almost always ended up with problematic culty communities. Playing with fire has left a lot of people burned. This section lays out a roadmap for

sparking a thousand fires around the world--each one unique and tailored to the needs and values of its participants. Think of it as an open-source toolkit for building ethical culture. In *Recapture the Rapture*, we're taking radical research out of the extremes and applying it to the mainstream--to the broader social problem of healing, believing, and belonging. It's providing answers to the questions we face: how to replace blind faith with direct experience, how to move from broken to whole, and how to cure isolation with connection. Said even more plainly, it shows us how to revitalize our bodies, boost our creativity, rekindle our relationships, and answer once and for all the questions of why we are here and what do we do now? In a world that needs the best of us from the rest of us, this is a book that shows us how to get it done.

Flat-Out Love is a warm

and witty novel of family love and dysfunction, deep heartache and raw vulnerability, with a bit of mystery and one whopping, knock-you-to-your-knees romance. Something is seriously off in the Watkins home. And Julie Seagle, college freshman, small-town Ohio transplant, and the newest resident of this Boston house, is determined to get to the bottom of it. When Julie's off-campus housing falls through, her mother's old college roommate, Erin Watkins, invites her to move in. The parents, Erin and Roger, are welcoming, but emotionally distant and academically driven to eccentric extremes. The middle child, Matt, is an MIT tech geek with a sweet side ... and the social skills of a spool of USB cable. The youngest, Celeste, is a frighteningly bright but freakishly fastidious 13-year-old who hauls around a life-sized cardboard cutout of her oldest brother almost everywhere she goes. And there's that oldest brother, Finn: funny, gorgeous, smart, sensitive, almost emotionally available. Geographically? Definitely unavailable. That's because Finn is traveling

the world and surfacing only for random Facebook chats, e-mails, and status updates. Before long, through late-night exchanges of disembodied text, he begins to stir something tender and silly and maybe even a little bit sexy in Julie's suddenly lonesome soul. To Julie, the emotionally scrambled members of the Watkins family add up to something that ... well ... doesn't quite add up. Not until she forces a buried secret to the surface, eliciting a dramatic confrontation that threatens to tear the fragile Watkins family apart, does she get her answer. *Flat-Out Love* comes complete with emails, Facebook status updates, and instant messages.
