*Whole-Grain Mornings* Lonely Planet

"[A] gorgeously illustrated compendium."--Sunset This lavishly illustrated atlas takes readers off the beaten path and outside normal conceptions of California, revealing its myriad ecologies, topographies, and histories in exquisite maps and trail paintings. Based on decades of exploring the backcountry of the Golden State, artist-adventurer Obi Kaufmann blends science and art to illuminate the multifaceted array of living, connected systems like no book has done before.

Kaufmann depicts layer after layer of the natural world, delighting in the grand scale and details alike. The effect is staggeringly beautiful: presented alongside California divided into its fifty-eight counties, for example, we consider California made up of dancing tectonic plates, of watersheds, of wildflower gardens. Maps are enhanced by spirited illustrations of wildlife, keys that explain natural phenomena, and a clear-sighted but reverential text. Full of character and color, a bit larger than life, *The California Field Atlas* is the ultimate road trip companion and love letter to a place.

**Recipes from Le Manoir Aux Quat' Saisons** Edward Elgar Publishing

This book provides the first systematic and accessible text for students of hospitality and the culinary arts that directly addresses how more sustainable restaurants and commercial food services can be achieved. Food systems receive growing attention because they link various sustainability dimensions. Restaurants are at the heart of these developments, and their decisions to purchase regional foods, or to prepare menus that are healthier and less environmentally problematic, have great influence on food production processes. This book is systematically designed around understanding the inputs and outputs of the commercial kitchen as well as what happens in the restaurant from the perspective of operators, staff and the consumer. The book considers different management approaches and further looks at the role of restaurants, chefs and staff in the wider community and the positive contributions that commercial kitchens can make to promoting sustainable food ways. Case studies from all over the world illustrate the tools and techniques helping to meet environmental and economic bottom lines. This will be essential reading for all students of hospitality and the culinary arts.

When Katherine Miller was first asked to train chefs to be advocates, she thought the idea was ludicrous. This was a group known for short tempers and tattoos, not for saving the world. But she quickly learned that chefs and other leaders in the restaurant industry are some of the most powerful forces for change in our troubled food system. Chefs are leading hunger relief efforts, supporting local farmers, fighting food waste, confronting racism and sexism in the industry, and much more. In *At the Table*, Miller shares the essential techniques she developed for the James Beard Foundation's Chefs Boot Camp for Policy and Change. Readers will learn how to focus their philanthropic efforts; pinpoint their audience and develop their argument; recruit allies and support action; and maybe most importantly, grab people's attention in a crowded media landscape. Miller also shares the moving stories of chefs who used these skills to create lasting change. Tom Colicchio became one of the world's most respected voices on ending hunger. Bakers Against Racism recruited more than 3,000 people to participate in their global bake sales. Chefs from around the country pushed Congress to provide financial relief to the restaurant industry at the height of the COVID-19 pandemic. *At the Table* is filled with inspiration for anyone who has ever wanted to make a difference outside the four walls of their restaurant. And most importantly, it offers proven methods to become a successful advocate. You don't have to be a celebrity chef to change the food system; you just need the will and the tools in this unique guide.

**The Art of the Restaurateur** Michelin

Until 30 years ago, restaurateurs were considered the most important figures in any restaurant's success, with chefs consigned to the kitchen. This process began to change with the elevation of chef-patron Paul Bocuse in the late 1970s, and has continued with the rise of the celebrity chef. Restaurateurs are hugely important but rarely written about and significantly under-appreciated. The profession, other than its commercial and social aspects, has a fundamental human appeal: restaurateurs derive their name and profession from the French verb *restaurer* when their role was to restore the health of travellers battered by the potholes of French roads in the early 19th century. The role has changed a lot since then, and continues to evolve in fascinating ways."

Romain Gary's bittersweet final masterpiece is "epic and empathetic" (BBC) and "one of his best" (The New York Times) The Kites begins with a young boy, Ludo, coming of age on a small farm in Normandy under the care of his eccentric kite-making Uncle Ambrose. Ludo's life changes the day

he meets Lila, a girl from the aristocratic Polish family that owns the estate next door. In a single glance, Ludo falls in love forever; Lila, on the other hand, disappears back into the woods. And so begins Ludo's adventure of longing, passion, and love for the elusive Lila, who begins to reciprocate his feelings just as Europe descends into World War II. After Germany invades Poland, Lila and her family go missing, and Ludo's devotion to saving her from the Nazis becomes a journey to save his love, his loved ones, his country, and ultimately himself. Filled with unforgettable characters who fling all they have into the fight to keep their hopes—and themselves—alive, *The Kites* is Romain Gary's poetic call for resistance in whatever form it takes. A war hero himself, Gary embraced and fought for humanity in all its nuanced complexities, in the belief that a hero might be anyone who has the courage to love and hope.

From the New York Times bestselling author and founder of the beloved restaurant The Lost Kitchen comes a stunning collection of 100 Maine recipes for every season. "A sensory joy . . . simple

seasonal fare, creatively elevated and beautifully photographed . . . The recipes in *The Lost Kitchen* beckon you to keep returning for more."—The Philadelphia Inquirer Erin French grew up in Freedom, Maine (population 719), helping her father at the griddle in his diner. An entirely self-taught cook who used cookbooks to form her culinary education, she founded her acclaimed restaurant, the Lost Kitchen, in the same town, creating meals that draws locals and visitors from around the world to a dining room that feels like an extension of her home. No one can bring small-town America to life better than a native, especially when it comes to Maine, one of the country's most off-the-beaten-path states, with an abundant natural bounty that comes from its coastline, rivers, farms, fields, and woods—a cook's dream. Inspired by her lush locale and classic American cooking, Erin crafts deliciously satisfying and easy-to-make recipes such as Whole-Roasted Trout with Parsnip and Herb Hash, Maine Shrimp Rolls, Ramp and Fiddlehead Fried Rice, and Rhubarb Spoon Cake. Erin's food has been called "brilliant in its simplicity and honesty" by Food & Wine, and it is exactly this pure approach that makes her style of cooking so appealing—and so easy to embrace at home, wherever you live.
