Pulse--Voices from the Heart of Medicine:
More Voices Open Door Series
Third-Millennium Heart is a collection of poetry meticulously interweaving biological systems with architectural annexes, mythological compositions and linguistic logics, while mercilessly turning the most intimate chambers of the body inside out and exposing the heart as a very public and thoroughly political arena.

The works of Mervyn Peake have fascinated readers for sixty years. His Gormenghast sequence of novels – recently serialized to great acclaim by the BBC – stands as one of the great imaginative accomplishments of twentieth-century literature. In *The Voice of the Heart*, G. Peter Winnington, the world's foremost expert on Peake, sets

his subject's fiction in context with the poetry, plays and book illustrations which are less well known. He traces recurrent motifs through Peake's works (islands, animals, and loneliness, for example) and explores in detail Peake's long-neglected play, *The Wit to Woo*. Through close readings of all these elements of Peake's oeuvre, *Winnington* is ultimately able to offer unparalleled insight into one of British literature's most vibrant imaginations.

Behold the Dreamers (Oprah's Book Club pick) Shortlisted for the Desmond Elliott Prize and recommended by The New York Times, Marie Claire, Vogue, Essence, PopSugar, Daily Mail, Electric Literature, Red, Stylist, Daily Kos, Library Journal, The Everygirl, and Read It Forward! The unforgettable, inspiring story of a teenage girl growing up in a rural Nigerian village who longs to get an education so that she can find her "louding voice" and speak up for herself, *The Girl with the Louding Voice* is a simultaneously heartbreaking and triumphant tale about the power of fighting for your dreams. Despite the seemingly insurmountable obstacles in her path, Adunni never loses sight of her goal of escaping the life of poverty she was born into so that she can build the

future she chooses for herself – and help other girls like her do the same. Her spirited determination to find joy and hope in even the most difficult circumstances imaginable will “break your heart and then put it back together again” (Jenna Bush Hager on The Today Show) even as Adunni shows us how one courageous young girl can inspire us all to reach for our dreams...and maybe even change the world.

Christopher Zyda confronts the long-buried and painful memories of his harrowing fifteen-year journey in *The Storm: One Voice from the AIDS Generation*, a heart-wrenching love story and coming-of-age tale during the early years of the AIDS crisis in Los Angeles. It all begins in the spring of 1983, when

Chris, a twenty-one-year-old UCLA English Literature major and aspiring writer, risks ostracism when he comes out of the closet to his fraternity brothers just as the AIDS pandemic is beginning to explode in gay communities across the United States. Soon afterward, Chris meets and falls in love with Stephen, a graduate of Yale University and Law School, and the two of them build a life together as their friends start to fall sick and die from the spreading storm of AIDS. Stephen begins showing symptoms of AIDS in early 1986, and Chris faces a difficult choice as he is certain that he, too, eventually will be stricken by the disease. He abandons his writing career and attends the UCLA business school so that he can earn enough money to pay for

healthcare during Stephen's illness. The Storm is filled with heart, optimism, and love, interspersed with Los Angeles history, gay and lesbian history, AIDS history, and the backdrop of the 1980s and 1990s. It is an unflinching and, at times, raw memoir of perseverance, integrity, forgiveness, the power of love, spiritual growth, Carpe Diem, dreams, and, most of all: survival and ultimate triumph.

Voices of the Grieving Heart Penguin
A beautifully illustrated children's picture book about distinguishing the positive and negative voices in the mind from the voice in the heart. The positive and negative voices in our minds battle daily. The non-stop noise grows louder over time. Unfortunately, the most important voice, the one in our hearts, is often forgotten in the crossfire. The voice in our hearts leads us towards joy and fulfillment, although it may not always make sense to our rational minds. These three voices create a big confusing stew

of thoughts and emotions. This book helps children to understand their voices in a simple way. It also encourages them to have the courage to let their hearts lead. This book is a great foundation for a child's personal development and positive messaging.

There are more than 450,000 children living in foster care. The Heart Knows

Something Different collects over three dozen personal narratives by young writers, ages 15 to 20, and provides an insider's account of growing up in "the system." It takes us into a world largely hidden from public view, and attests to the mix of pain and fear, and sometimes hope, and sometimes even happiness that the foster care experience involves.

This is a book for all Australians. Since the Uluru Statement from the Heart was formed in 2017, Thomas Mayo has travelled around the country to promote its vision of a better future for Indigenous Australians. He's visited communities big and small, often with the Uluru Statement canvas rolled up in a tube under his arm. Through the story of his own journey and interviews with

20 key people, Thomas taps into a deep sense of our shared humanity. The voices within these chapters make clear what the Uluru Statement is and why it is so important. And Thomas hopes you will be moved to join them, along with the growing movement of Australians who want to see substantive constitutional change. Thomas believes that we will only find the heart of our nation when the First peoples – the Aboriginal and Torres Strait Islanders – are recognised with a representative Voice enshrined in the Australian Constitution. ‘Thomas’s compelling work is full of Australian Indigenous voices that should be heard. Read this book, listen to them, and take action.’ – Danny Glover, actor and humanitarian

Yale University Press

"Two ideas lie at the heart of this study and its claim that we need a new history of reading: that voices in books can affect us deeply ; that printed books can be brought to life with the voice. Voices and Books offers a new history of reading focussed on the oral and voice-aware silent reader, rather than the historical reader we have privileged in the last few decades, who is invariably male, silent, and alone. It recovers the vocality of education for boys and girls in

Renaissance England, and the importance of training in pronunciation (delivery) for oral-aural literary culture. It offers the first attempt to recover the voice-and tone-from textual sources. It explores what happens when we bring voice to text, how vocal tone realizes or changes textual meaning, and how the literary writers of the past tried to represent their own and others' voices, as well as manage and exploit the voices of their readers. It offers fresh readings of the key Tudor authors who anticipated oral readers: John Bale, Anne Askew, William Baldwin, Thomas Nashe. And it aims to rethink what a printed book can be, searching the printed page for vocal cues, and exploring the neglected role of the voice in the printing process"--

Hurricane Katrina inflicted damage on a scale unprecedented in American history, nearly destroying a major city and killing thousands of its citizens. With far too little help from indifferent,

incompetent government agencies, the poor bore the brunt of the disaster. The residents of traditionally impoverished and minority communities suffered incalculable losses and endured unimaginable conditions. And the few facilities that did exist to help victims quickly became miserable, dangerous places. Now, the victims of Hurricane Katrina find themselves spread across the United States, far from the homes they left and faced with the prospect of starting anew. Families are struggling to secure jobs, homes, schools, and a sense of place in unfamiliar surroundings. Meanwhile, the rebuilding of their former home remains frustrating out of their hands. This bracing read brings readers to the heart of the disaster and its aftermath as those who survived it

speak with candor and eloquence of their lives then and now.
