 "I am inclined to call this the last chapter, but how can an autobiography have a final chapter? At best, it can only be a penultimate one; nor can it be given a rounded-off conclusion, as is possible in a work of fiction." So begins the last chapter of My Days, the only memoir from R. K. Narayan, hailed as "India's most notable novelist and short-story writer" by the New York Times

Book Review. In his usual winning, humorous style, R. K. Narayan shares his life story, beginning in his grandmother's garden in Madras with his ferocious pet peacock. As a young boy with no interest in school, he trains grasshoppers, scouts, and generally takes part in life's excitements. Against the advice of all, especially his commanding headmaster father, the dreaming Narayan takes to writing fiction, and one of his pieces is accepted by Punch magazine (his "first prestige publication"). Soon his life includes bumbling British diplomats, curious movie moguls, evasive Indian officials, eccentric journalists, and "the blind urge" to fall in love. R. K. Narayan's larger-than-life perception of the human comedy is at once acute and forgiving, and always true to it.

Gaban, first published in 1931, five years before Premchand's death, gives us a fascinating glimpse of north Indian society, and especially of the author's own Kayasth community. But this novel also serves to put forth his own deeply-held views of the ills of that society - the insatiable love of its women for personal adornment, its failure to create fulfilling marriage relationships, and its moral corruption. This is a felicitous translation by Christopher R. King and will enable many readers to appreciate Premchand's important novel, available for the first time in English

An important aspect of India's foreign policy from the 1990s has been its attempt to consolidate its ties of friendship and mutual understanding with its East and South East Asian neighbours. India's Act East Policy has initiated a new positive approach towards South East Asia through its roots which can be traced to India's past history and tradition. While it began primarily with religious interaction which led to the spread of Buddhism in the far-flung areas of South East Asia, economic and cultural connections followed soon after. Against this backdrop, the present volume analyses various facets of India's connectivity with the South East Asian countries, including its linkages with the north-eastern states of India; a rediscovery of Indian imprinted culture, mainly Buddhism and other religions in the South East Asian region and beyond; the use of the Indian diaspora for economic development; and the implementation of various agreements signed by India with the South East Asian countries. This volume is an interesting combination of the analytical method of historical linkages between India and South East Asia with critical observations of the contemporary dynamics of international politics.

The drainage system evolution and spatial network development within the dynamic nature are being discussed and how they are adjusted in the geomorphic time scale over the millions of years.
