MELINA ARELLANO

Sweet Land of Liberty Harvard Business
Review Press

A critical look at the terrifying ways the
police are used to control 'surplus'
populations worldwide.

How to Be a Woman Online Macmillan +
ORM

Most American historians and legal
scholars incorrectly assume that
controversies and litigation about free
speech began abruptly during World War I.
However, there was substantial debate
about free speech issues between the Civil
War and World War I. Important free
speech controversies, often involving the
activities of sex reformers and labor
unions, preceded the Espionage Act of

1917. Scores of legal cases presented free
speech issues to Justices Holmes and
Brandeis. A significant organization, the
Free Speech League, became a principled
defender of free expression two decades
before the establishment of the ACLU in
1920. World War I produced a major
transformation in American liberalism.
Progressives who had viewed
constitutional rights as barriers to needed
social reforms came to appreciate the
value of political dissent during its wartime
repression. They subsequently
misrepresented the prewar judicial
hostility to free speech claims and
obscured prior libertarian defenses of free
speech based on commitments to
individual autonomy.

Why I Write Bloomsbury Publishing
"A passionate, important study of the
current affairs of a volatile region."--

Kirkus Reviews starred review The rise of
Hong Kong is the story of a miraculous
post-War boom, when Chinese refugees
flocked to a small British colony, and, in
less than fifty years, transformed it into
one of the great financial centers of the
world. The unraveling of Hong Kong, on
the other hand, shatters the grand illusion
of China ever having the intention of
allowing democratic norms to take root
inside its borders. Hong Kong's people
were subjects of the British Empire for
more than a hundred years, and now seem
destined to remain the subordinates of
today's greatest rising power. But
although we are witnessing the death of
Hong Kong as we know it, this is also the
story of the biggest challenge to China's
authoritarianism in 30 years. Activists who
are passionately committed to defending
the special qualities of a home they love

are fighting against Beijing's crafty efforts to bring the city into its fold--of making it a centerpiece of its "Greater Bay Area" megalopolis. Jeffrey Wasserstrom, one of America's leading China specialists, draws on his many visits to the city, and knowledge of the history of repression and resistance, to help us understand the deep roots and the broad significance of the events we see unfolding day by day in Hong Kong. The result is a riveting tale of tragedy but also heroism--one of the great David-versus-Goliath battles of our time, pitting determined street protesters against the intransigence of Xi Jinping, the most ambitious leader of China since the days of Mao.

Global Dexterity Legare Street Press
George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature - his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Why I Write*, the first in the *Orwell's Essays* series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' - 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' - and considers the importance of keeping these in balance. *Why I Write* is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre.

Direct Action Steerforth Press / Truth to Power

Sweet Land of Liberty is Thomas J. Sugrue's epic account of the abiding quest for racial equality in states from Illinois to New York, and of how the intense northern struggle differed from and was inspired by the fight down South. Sugrue's panoramic view sweeps from the 1920s to the present--more than eighty of the most decisive years in American history. He uncovers the forgotten stories of battles to open up lunch counters, beaches, and movie theaters in the North; the untold history of struggles against Jim Crow schools in northern towns; the dramatic story of racial conflict in northern cities and suburbs; and the long and tangled histories of integration and black power.

Filled with unforgettable characters and riveting incidents, and making use of information and accounts both public and private, such as the writings of obscure African American journalists and the records of civil rights and black power groups, *Sweet Land of Liberty* creates an indelible history.

The Beautiful Struggle HarperCollins
In the 1789 Declaration of the Rights of Man and of the Citizen, French revolutionaries proclaimed the freedom of speech, religion, and opinion. Censorship was abolished, and France appeared to be on a path towards tolerance, pluralism, and civil liberties. A mere four years later, the country descended into a period of political terror, as thousands were arrested, tried, and executed for crimes of expression and opinion. In *Policing Public Opinion in the French Revolution*, Charles Walton traces the origins of this reversal back to the Old Regime. He shows that while early advocates of press freedom sought to abolish pre-publication censorship, the majority still firmly believed injurious speech--or calumny--constituted a crime, even treason if it undermined the honor of sovereign authority or sacred collective values, such as religion and civic spirit. With the collapse of institutions responsible for regulating honor and morality in 1789, calumny proliferated, as did obsessions with it. Drawing on wide-ranging sources, from National Assembly debates to local police archives, Walton shows how struggles to set legal and moral limits on free speech led to the radicalization of politics, and eventually to the brutal liquidation of "calumniators" and fanatical efforts to rebuild society's moral foundation during the Terror of 1793-1794. With its emphasis on how revolutionaries drew upon cultural and political legacies of the Old Regime, this study sheds new light on the origins of the Terror and the French Revolution, as well as the history of free expression.

How Free Speech Saved Democracy John Wiley & Sons

A New York Times Notable Book for 2011
Since the 1960s, ideas developed during the civil rights movement have been astonishingly successful in fighting overt discrimination and prejudice. But how successful are they at combating the whole spectrum of social injustice--including conditions that aren't directly caused by bigotry? How do they stand up to segregation, for instance--a legacy of racism, but not the direct result of ongoing discrimination? It's tempting to believe that civil rights litigation can combat these social ills as efficiently as it has fought blatant discrimination. In *Rights Gone Wrong*, Richard Thompson Ford, author of the New York Times Notable Book *The Race Card*, argues that this is seldom the case. Civil rights do too much and not enough: opportunists use them to get a competitive edge in schools and job markets, while special-interest groups use them to demand special privileges. Extremists on both the left and the right have hijacked civil rights for personal advantage. Worst of all, their theatrics have drawn attention away from more serious social injustices. Ford, a professor of law at Stanford University, shows us the many ways in which civil rights can go terribly wrong. He examines newsworthy lawsuits with shrewdness and humor, proving that the distinction between civil rights and personal entitlements is often anything but clear. Finally, he reveals how many of today's social injustices actually can't be remedied by civil rights law, and demands more creative and nuanced solutions. In order to live up to the legacy of the civil rights movement, we must renew our commitment to civil rights, and move beyond them.

The New Nationalism One World

In this collection of essays, interviews, and speeches, the renowned activist examines today's issues--from Black Lives Matter to prison abolition and more. Activist and scholar Angela Y. Davis has been a tireless fighter against oppression for decades. Now, the iconic author of *Women, Race, and Class* offers her latest insights into the struggles against state violence and oppression throughout history and around the world. Reflecting on the importance of black feminism, intersectionality, and prison abolitionism, Davis discusses the legacies of previous liberation struggles, from the Black Freedom Movement to the South African anti-Apartheid movement. She highlights connections and analyzes

today's struggles against state terror, from Ferguson to Palestine. Facing a world of outrageous injustice, Davis challenges us to imagine and build a movement for human liberation. And in doing so, she reminds us that "freedom is a constant struggle." This edition of *Freedom Is a Constant Struggle* includes a foreword by Dr. Cornel West and an introduction by Frank Barat.

"Blisteringly witty." Kirkus "An essential guide." Publisher's Weekly "Timely." Booklist When Nina Jankowicz's first book on online disinformation was profiled in *The New Yorker*, she expected attention but not an avalanche of abuse and harassment, predominantly from men, online. All women in politics, journalism and academia now face untold levels of harassment and abuse in online spaces. Together with the world's leading extremism researchers, Jankowicz wrote one of the definitive reports on this troubling phenomenon. Drawing on rigorous research into the treatment of Kamala Harris - the first woman vice-president - and other political and public figures, Nina also uses her own experiences to provide a step-by-step plan for dealing with harassment, abuse, doxing and disinformation in online spaces. The result is a must-read for researchers, journalists and all women with a profile in the online space.

Custodians of the Internet Macmillan + ORM

An exceptional father-son story from the National Book Award-winning author of *Between the World and Me* about the reality that tests us, the myths that sustain us, and the love that saves us. Paul Coates was an enigmatic god to his sons: a Vietnam vet who rolled with the Black Panthers, an old-school disciplinarian and new-age believer in free love, an autodidact who launched a publishing company in his basement dedicated to telling the true history of African civilization. Most of all, he was a wily tactician whose mission was to carry his sons across the shoals of inner-city adolescence—and through the collapsing civilization of Baltimore in the Age of Crack—and into the safe arms of Howard University, where he worked so his children could attend for free. Among his brood of seven, his main challenges were Ta-Nehisi, spacey and sensitive and almost comically miscalibrated for his environment, and Big Bill, charismatic and all-too-ready for the challenges of the streets. *The Beautiful Struggle* follows their divergent paths through this turbulent period, and their father's

steadfast efforts—assisted by mothers, teachers, and a body of myths, histories, and rituals conjured from the past to meet the needs of a troubled present—to keep them whole in a world that seemed bent on their destruction. With a remarkable ability to reimagine both the lost world of his father's generation and the terrors and wonders of his own youth, Coates offers readers a small and beautiful epic about boys trying to become men in black America and beyond. Praise for *The Beautiful Struggle* "I grew up in a Maryland that lay years, miles and worlds away from the one whose summers and sorrows Ta-Nehisi Coates evokes in this memoir with such tenderness and science; and the greatest proof of the power of this work is the way that, reading it, I felt that time, distance and barriers of race and class meant nothing. That in telling his story he was telling my own story, for me."—Michael Chabon, bestselling author of *The Yiddish Policemen's Union* and *The Amazing Adventures of Kavalier & Clay* "Ta-Nehisi Coates is the young James Joyce of the hip hop generation."—Walter Mosley

The future of your freedom depends on whether you assert your rights within the digital spaces you inhabit. But, as corporations and countries square off on the internet, the likely losers are us.

Free Speech in Its Forgotten Years, 1870-1920 Yale University Press

"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs,

academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

The Future of Capitalism HarperCollins "This book unfolds the untold history of one of the United States' most notable civil rights crises from the perspective of academic leaders"--

Dare to Speak Penguin

Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 195 countries and fifteen territories are used by policymakers, the media, international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. The *Freedom in the World* political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development. **Unfree Speech** Haymarket Books Biography of Ernie Goodman, a Detroit lawyer and political activist who played a key role in social justice cases. In a working life that spanned half a century, Ernie Goodman was one of the nation's preeminent defense attorneys for workers and the militant poor. His remarkable career put him at the center of the struggle for social justice in the twentieth century, from the sit-down strikes of the 1930s to the Red Scare of the 1950s to the freedom struggles, anti-war demonstrations, and ghetto rebellions of the 1960s and 1970s. **The Color of Law: Ernie Goodman, Detroit, and the Struggle for Labor and Civil Rights** traces Goodman's journey through these tumultuous events and highlights the many moments when changing perceptions of social justice clashed with legal precedent. Authors Steve Babson, Dave Riddle, and David Elsila tell Goodman's life story, beginning with his

formative years as the son of immigrant parents in Detroit's Jewish ghetto, to his early ambitions as a corporate lawyer, and his conversion to socialism and labor law during the Great Depression. From Detroit to Mississippi, Goodman saw police and other officials giving the "color of law" to actions that stifled freedom of speech and nullified the rights of workers and minorities. The authors highlight Goodman's landmark cases in defense of labor and civil rights and examine the complex relationships he developed along the way with individuals like Supreme Court Justice and former Michigan governor Frank Murphy, UAW president Walter Reuther, Detroit mayor Coleman Young, and congressman George Crockett. Drawing from a rich collection of letters, oral histories, court records, and press accounts, the authors re-create the compelling story of Goodman's life. The Color of Law demonstrates that the abuse of power is non-partisan and that individuals who oppose injustice can change the course of events.

Freedom in the World 2018 Crown

A radical anthropologist studies the global justice movement.

Mexico's Struggle for Public Security AK Press

Adapted from the adult memoir by the #1 New York Times bestselling author of *The Water Dancer* and *Between the World and Me*, this father-son story explores how boys become men, and quite specifically, how Ta-Nehisi Coates became Ta-Nehisi Coates. As a child, Ta-Nehisi Coates was seen by his father, Paul, as too sensitive and lacking focus. Paul Coates was a Vietnam vet who'd been part of the Black Panthers and was dedicated to reading

and publishing the history of African civilization. When it came to his sons, he was committed to raising proud Black men equipped to deal with a racist society, during a turbulent period in the collapsing city of Baltimore where they lived. Coates details with candor the challenges of dealing with his tough-love father, the influence of his mother, and the dynamics of his extended family, including his brother "Big Bill," who was on a very different path than Ta-Nehisi. Coates also tells of his family struggles at school and with girls, making this a timely story to which many readers will relate.

[Badges without Borders](#) Univ of California Press

Finalist for the International Booker Prize and the National Book Award A haunting Orwellian novel about the terrors of state surveillance, from the acclaimed author of *The Housekeeper and the Professor*. On an unnamed island, objects are disappearing: first hats, then ribbons, birds, roses. . . . Most of the inhabitants are oblivious to these changes, while those few able to recall the lost objects live in fear of the draconian Memory Police, who are committed to ensuring that what has disappeared remains forgotten. When a young writer discovers that her editor is in danger, she concocts a plan to hide him beneath her floorboards, and together they cling to her writing as the last way of preserving the past. Powerful and provocative, *The Memory Police* is a stunning novel about the trauma of loss. This extraordinary graphic novel is a powerful denunciation of sexual violence against women. As seen through the eyes of a twelve-year-old girl named Una, it takes place in northern England in 1977, as the Yorkshire Ripper, a serial killer of prostitutes, is on the loose and creating panic among the townspeople. As the police struggle in their clumsy attempts to find the killer, and the headlines in the local paper become more urgent, a once self-confident Una teaches herself to "lower her gaze" in order to deflect attention from boys. After she is "slut-shamed" at school for having birth control pills, Una herself is the subject of violent acts for which she comes to blame herself. But as the police finally catch up and identify the killer, Una grapples with the patterns of behavior that led her to believe she was to blame. *Becoming Unbecoming* combines various styles, press clippings, photo-based illustrations, and splashes of color to convey Una's sense of confusion and rage, as well as sobering statistics on sexual violence against women. The book is a no-holds-barred indictment of sexual violence against women and the shame and blame of its victims that also celebrates the empowerment of those able to gain control over their selves and their bodies. Una (a pseudonym) is an artist, academic, and comics creator. *Becoming Unbecoming*, which took seven years to create, is her first book. She lives in the United Kingdom.
