The true story of the man with the Best Job in the World The Best Job in the World is the story of how following your passions can lead to life-changing opportunities. Adventurer Ben Southall shares his experiences and lessons learned as the winner of the inaugural Tourism Queensland's Best Job in the World campaign, and reveals how this has led to ongoing opportunities since. Part autobiography, part insight into the power of a unique marketing campaign, this book follows Ben's journey—from leaving the UK on his own expedition around Africa to his new role as caretaker of Hamilton Island on the Great Barrier Reef. You'll learn about the skills and experiences that shaped Ben's path, together with the inevitable pitfalls that he faced along the way to living his dream. The sole winner of the Best Job in the World campaign, Ben's perspective is a unique one to share the serious challenges that arose from being catapulted into a high profile job in an

idyllic location. Humorous and poignant, the story is as much holistic life guide as travel guide, providing a motivational and inspirational tale that may just be the push you need to: Get inspired—see the opportunities around you and grab them with both hands Embrace the unknown, overcome life's obstacles and challenge expectations Live out your dreams and be your authentic self Climb out of the rut and take part in the world around you In The Best Job in the World, Ben Southall answers the questions everyone is asking: "What is it like? Is it really the best job in the world?" You'll learn how to transform your interests and passions into a flexible, long-term career, and how following the road less travelled can lead to living your best life. If you're dissatisfied, stuck in a rut or merely curious, The Best Job in the World is a must-read tale of aspiration, inspiration and motivation.

'We've left a lot of men in Borneo – know what I mean?' With their SAS trainer's warnings ringing in their ears, the naturalist, Redmond O'Hanlon, and the poet, James Fenton, set out to rediscover the lost rhinoceros of Borneo. They were loaded with enough back-breaking kit to survive two months in a steaming 95° (in the shade) jungle of creeping, crawling, biting things. O'Hanlon could also rely on his encyclopaedic knowledge of the region's flora and fauna, and had read-up on how to avoid being eaten by anything (stick your thumbs in a crocodile's eyes, if you have time). And yet they proceeded to have an adventure that neither O'Hanlon, nor his friend, nor even his guides were remotely prepared for... 'Consistently exciting, often funny, and erudite without ever being overwhelming' Punch.
