This is the first edition of the Walking on Samos guidebook, describing 21 walks on the Greek island of Samos, a paradise for walkers. The northern coast with its wooded slopes and vineyards is interlaced with old mule tracks and, together with the old monasteries and the archaeological sites around Pythagorio, these are strong features of the book. And in the south-west you can climb the highest mountain in the Aegean, 1,440 above sea level! 21 of the best old walking trails are described with detailed maps, GPS data and route photos along with lots of interesting facts worth knowing about the island. There is plenty to discover on one of the finest walking islands of

Greece.

The most northerly of Britain's island groups, Shetland is so far removed from the rest of the UK that it usually appears as an inset on maps. Although relatively little known to those from outside the islands, Shetland is a magnificent terrain for walkers, especially those who love to really explore and get away from the beaten track. The coastal walking here includes some of the finest in the country, with superb cliffs, towering sea stacks, caves and natural arches seemingly around every corner. Added to this is Shetland's better known claim to fame for its spectacular seabird colonies – huge gannetries, moorland packed with arctic and great skuas, arctic terns in the more sheltered spots, and everyone's favourite – the puffins. The islands also enjoy a dense population of otters, many seals, and a chance to see killer whales or other giants of the deep. Beyond all this natural grandeur, Shetland's history is fascinating too. The archaeological attractions are much less known than those on Orkney, but sites such as Jarlshof have amazingly preserved remains from prehistory right up to more recent times. These include iron age villages, chambered cairns, viking longhouses, pictish carvings, and impressive brochs – including the most complete of all these iron-age defensive towers, on Mousa.
