CLARK FITZPATRICK

Anyone You Want Me to Be
Simon and Schuster
JOHN DOUGLAS -- THE
BESTSELLING AUTHOR OF
MINDHUNTER AND THE
UNDISPUTED MASTER
PROFILER OF SERIAL
CRIMINALS -- TELLS THE
CHILLING TRUE STORY OF
JOHN ROBINSON, THE
INTERNET'S FIRST SERIAL
MURDERER. In Olathe,
Kansas, a balding, pudgy
father of four sits in prison
convicted on three counts
of homicide -- two of
capital murder -- and
suspected in at least five
other disappearances.
During the last half of the
1990s, John Robinson
exploited the Internet's
active world of
somasochism with
horrific results. By
haunting chat rooms, he
pinpointed vulnerable
women who were looking
for romance and stalked
them on-line, nefariously
convincing them of his
maturity, sensitivity, and
financial stability. He

seemed like the perfect
man. He enticed these
women with offers of a
solid relationship and a
lucrative job, persuading
them to move to his
hometown. Once they
arrived in Kansas, the
women invariably
disappeared. After a
dramatic trial and days of
intense jury deliberation,
Robinson now faces the
death penalty. Disturbing
as his crimes may be,
what's most alarming is
how he selected and lured
his victims and how
willingly they responded.
John Robinson expanded
the hunting ground, the
techniques, and the
technology of the sexual
predator. He is the world's
first-known Internet serial
killer. Law enforcement
officers, prosecutors, and
the coauthors of *Anyone
You Want Me to Be* have
struggled to unravel the
enigma that is John
Robinson. They reveal
what can go wrong in a
world where relationships
are devoid of physical
contact, showing how
easily mainstream
Americans can be drawn

into the dark underground
of cybercrime. The
Internet has drastically
expanded the realm of
fantasy -- from the limited
confines of physical
reality to the worldwide
stage of virtual reality --
and anyone can become
involved in an on-line
seduction. Erotic
fantasies, which were
once socially off-limits and
extremely private, are
now instantly accessible.
This rapidly growing
community masks a
sinister truth: With only a
computer, an Internet
connection, and a knack
for creativity, criminals
have the power to reach
millions of unsuspecting
victims while remaining in
complete control of their
own -- often false --
image. John Robinson was
a true innovator in this
variety of crime. Through
interviews with law
enforcement specialists,
Web experts, and others,
John Douglas and Stephen
Singular illustrate, with
this case, a much larger --
and more frightening --
pattern of Internet sex
and violence. As

technology proliferates in the twenty-first century, so do opportunities for enterprising criminals like John Robinson. No one is better equipped than John Douglas and Stephen Singular to expose the underworld of the Internet and to warn people about the dangers of cyberspace. A cautionary and educational tale about being wary of strangers and false intimacy, *Anyone You Want Me to Be* is also a terrifying, high-tech story of crime and punishment. *Professional Lives of Community Corrections Officers: The Invisible Side of Reentry* Turner Publishing Company "[The report] finds that supervision -- probation and parole -- drives high numbers of people, disproportionately those who are Black and brown, right back to jail or prison, while in large part failing to help them get needed services and resources. In states examined in the report, people are often incarcerated for violating the rules of their supervision or for low-level crimes, and receive disproportionate punishment following proceedings that fail to adequately protect their fair trial rights."--Publisher website.

(From the Preface) The Jackson Heritage Association is proud to offer this book as a sampling of the history of Jackson, the surrounding area, and the families that have had a part in making this county such a great place to live...Many more volumes could be written on the history of the towns, government, roads, and buildings of Cape Girardeau County; however, we wish to emphasize that this book is by, about, and for, the families of the area.

Developed by leaders in the fields of health, law and corrections, NCCHC's nationally recognized Standards lay the foundation for constitutionally acceptable health services systems and can help prisons to improve health services delivery. The Standards address nine general areas: health care services and support,

patient care and treatment, special needs and services, governance and administration, personnel and training, safety, health records, health promotion and medical-legal issues. The manual provides clear compliance indicators that define expected outcomes and aid in self-assessment, guidelines for facilities of various sizes and best practices recommendations. Glossary and index. *The Attorney General's Survey of Release Procedures: Digest of federal and state laws on release procedures* One of the first contemporary works to bring together research focused on community corrections officers, *Professional Lives of Community Corrections Officers: The Invisible Side of Reentry*, by Faith E. Lutze, helps readers understand the importance of community corrections officers to the success of the criminal justice system. The author brings the important work of these officers out from the shadows of the prison and into the light of informed policymaking, demonstrating how their work connects to the broader political, economic, and social

context. Arguing that they are "street-level boundary spanners" who are in the best position to lead effective reentry initiatives built on interagency collaboration, the author shows how community corrections officers can effectively lead a fluid response to reentry that is inclusive of control, support, and treatment. This supplement is ideal for community corrections or probation and parole courses to supplement core textbooks.

Criminal Justice Agencies in Region 7

Title shows resumes and cover letters of people who wish to enter the police, law enforcement, and security fields. The most effective job hunting strategies are revealed, and there is also a section which discusses how to transfer police, law

enforcement, and security skills into other industries. There are more than 100 "real" resumes and cover letters shown as examples, and the purpose of the book is to give models or examples for people to use in creating their own resumes and cover letters designed to obtain employment in security, police, or law enforcement. Resumes shown include those of fireman, policemen, police chief, corrections officer, detective, deputy sheriff, police captain, security guard, personal protection specialist, and many others.
