SAGE FREDDY

Symptomatic Simon and Schuster
RENEGADE SMUGGLERS WAGE WAR AGAINST TYRANNY IN THE STARS In a dystopian future, the Algol solar system is humanity's new home, but oppression lurks in this seemingly utopian society. Follow war veteran Aly Erikson as she leads her ragtag crew of rebels and smugglers in a relentless fight for freedom against the ruthless Political and Capital Administration of the Advanced Worlds (the Admin) in this gritty military space opera saga. From space battles and intrigue to chases across hostile planets, **CONTRACT OF DEFIANCE**, **CONTRACT OF BETRAYAL**, **CONTRACT OF WAR**, and the series prequel novella **CONVICTION** deliver nonstop action and adventure. Erikson and her crew risk it all to resist the Admin's authoritarian regime, evade capture, and aid resistance movements, even when their defiance of tyranny places them outside the law. With liberty and justice at stake, these battle-scarred underdogs will stop at nothing to spark

revolution in the stars. This epic sci-fi trilogy blends fast-paced action, political intrigue, and the timeless struggle against oppression, perfect for fans of *The Expanse*, *Firefly*, and *Honor Harrington*. When diplomacy fails, Erikson and her team must fight with everything they've got, knowing one ironclad rule: when all other options run out, never let go of your gun. What people saying about the Spectras Arise Series "A fast-paced and fun sci-fi space adventure with a great protagonist... starts with a running gun fight and doesn't let up until the explosive conclusion." "Top Notch SciFi Read!" "I'm torn between wanting to savor every exciting moment of this gorgeously written series or binge-read to find out what happens next." "Thrilling, Roller-Coaster Ride of Military Sci-Fi Adventure" "Contains the kind of action that makes it hard to turn off the light and go to sleep." Gateway Tammy Salyer

A young woman moves to New York City for what promises to be a dream job. Displaced, she feels unsure of her fit in the world. Then comes a look of recognition, a gesture of friendship from an older woman named Greta who shares the same difficult-to-place color of skin. On common ground, a tenuous alliance grows between two women in racial limbo. So too, does the older woman's unnerving obsession, leading to a collision of two lives spiraling out of control. A beautifully written novel, at once suspenseful, erotic, and tantalizingly clever, *Symptomatic* is a groundbreaking contribution to the literature of racial identity.

Creepers Random House

"An unusually rewarding anthology whose most dangerous species remain *Homo sapiens*."—Kirkus Reviews

Feline friends, canine companions and aviary associates are often the truest reflections of their owners and have played a crucial role in classic crime fiction—be they detectives, or delinquents. Martin Edwards reaches into the British Library of Crime Classics to collect mysteries featuring an animal cohort. *Guilty Creatures* celebrates an often-overlooked species of classic crime fiction. Since the dawn of the crime fiction genre, animals of all kinds have played a memorable part in countless mysteries, and in a variety of roles: the perpetrator, the key witness, the sleuth's trusted companion. This collection of fourteen stories corrals plots centered around cats, dogs, and insects alongside more exotic incidents involving gorillas, parakeets, and serpents—complete with a customary shoal of red herrings. The collection includes an introduction on animals in detective fiction by Martin Edwards. "From the first detective story, Edgar Allan Poe's locked room puzzle 'The Murders in the Rue Morgue' onwards, animals, birds, and insects have played a memorable part in countless mysteries, and in a wide variety of ways. Count Fosco, the brilliantly characterized villain in Wilkie Collins's *The Woman in White* was surrounded by "a cockatoo, two canary-birds and a whole family of white mice," while the hound of the Baskervilles famously terrorised Dartmoor in Arthur Conan Doyle's superb Sherlock Holmes novel. Since then, many crime writers have written about members of the animal kingdom."

Shine Shine Shine Tammy Salyer

Bloodied and scattered but still unbroken, the Knights Corporealists have one last option left to stop Balavad from conquering Vinnr—they may have to destroy it themselves. Book Four, the final story in the epic fantasy adventure of *The Shackled Verities*, with magic, monsters, and a Cosmos-crossing quest. Ulfric and Symvalline narrowly survived Balavad's attempt to take over the realm of Arc Rheunos, and now find some relief in seeing their daughter Isemay adopt a new life there. If their hopes are answered, it will be a safe one. But hope is a fickle thing. Jaemus Bardgrim, on the other hand, remains the Cosmos's most reluctant hero. With the aid of someone quite unexpected, he resumes his quest to save Himmingaze from the Glistar Cloud's looming annihilation. Yet, none of them can escape the real threat. Vinnr, and one way or another the Great Cosmos, lies at destruction's doorstep, approaching its final defeat by Balavad's cruelest Ravener army of all, the enslaved people of Dyrakium.

In The Shackled Verities' final story, the Knights Corporealis go to war against dragørs, Verities, and time itself. They and their few remaining allies must rally for one last fight against Balavad the usurper. Some do it for hope, some for family, some for redemption, but in the end, they all face one truth: a human life is no match for the eternal power of a celestial. If they are very, very lucky, one Knight's sacrifice may be. What people are saying about the Shackled Verities Series: "I can't wait to find out what happens next in this epic series." "Compelling plot, intriguing characters and a pretty spectacular world." "Such a fantastic ride for this new promising series.... cannot recommend this enough!!" "... a brilliantly executed novel." "Honestly I'd read a grocery list if Ms. Salyer wrote it." The Shackled Verities Series: A Knight's Calling: A Shackled Verities Story Knight Chosen: The Shackled Verities (Book One) Knight Redeemed: The Shackled Verities (Book Two) Knight Exiled: The Shackled Verities (Book Three) Knight Awoken: The Shackled Verities (Book Four)

Contract of Betrayal: Spectras Arise Trilogy, Book 2 Spectra A propulsive and ambitious novel as electrifying as *The Wire*, from a writer hailed as the West Coast's Richard Price—a mesmerizing epic of crime and opportunity, race, revenge, and loyalty, set in the chaotic streets of South Central L.A. in the wake of one of the most notorious and incendiary trials of the 1990s At 3:15 p.m. on April 29, 1992, a jury acquitted three white Los Angeles Police Department officers charged with using excessive force to subdue a black man named Rodney King, and failed to reach a verdict on the same charges involving a fourth officer. Less than two hours later, the city exploded in violence that lasted six days. In nearly 121 hours, fifty-three lives were lost. But there were even more deaths unaccounted for: violence that occurred outside of active rioting sites by those who used the chaos to viciously settle old scores. A gritty and cinematic work of fiction, *All Involved* vividly re-creates this turbulent and terrifying time, set in a sliver of Los Angeles largely ignored by the media during the riots. Ryan Gattis tells seventeen interconnected first-person narratives that paint a portrait of modern America itself—laying bare our history, our prejudices, and our complexities. With characters that capture the voices of gang members, firefighters, graffiti kids, and nurses caught up in these extraordinary circumstances, *All Involved* is a literary tour de force that catapults this edgy writer into the ranks of such legendary talents as Dennis Lehane and George V. Higgins.

Conviction Conviction: A Spectras Arise Prequel Novella When 5th-grader Karin, her high-school brother, Bern, and several other students and their teachers lock themselves inside the high school's gymnasium, the true horror of a viral epidemic unfolding outside their barricaded door is only beginning to become clear. In this short tale, Lord of the Flies meets 28 Days Later as, one by one, grown-ups abandon children to their fates. Desperate and terrified, the kids scabble their resources together in order to somehow survive, but young Karin and her brother quickly learn that no one is more vulnerable than children. Or more ruthless.

Knight Awoken: The Shackled Verities (Book Four) Bantam Oxford in 2060 is a chaotic place, with scores of time-traveling historians being sent into the past. Michael Davies is prepping to go to Pearl Harbor. Merope Ward is coping with a bunch of bratty 1940 evacuees and trying to talk her thesis adviser into letting her go to VE-Day. Polly Churchill's next assignment will be as a shopgirl in the middle of London's Blitz. But now the time-travel lab is suddenly canceling assignments and switching around everyone's schedules. And when Michael, Merope, and Polly finally get to World War II, things just get worse. For there they face air raids, blackouts, and dive-bombing Stukas—to say

nothing of a growing feeling that not only their assignments but the war and history itself are spiraling out of control. Because suddenly the once-reliable mechanisms of time travel are showing significant glitches, and our heroes are beginning to question their most firmly held belief: that no historian can possibly change the past.

Kucers' The Use of Antibiotics Simon and Schuster

THE DEVIL YOU KNOW OR THE DEVIL YOU DON'T—SOMETIMES THEY'RE BOTH WORSE THAN YOU CAN IMAGINE. In a bid to free the settlers of Agate Beach from their dependence on picking at Admin scraps, Corps-deserter Aly Erikson's crew is willing to make a few deals, even with the devil. When Aly learns her friends have deceived her, she has to decide which is stronger: her sense of having been betrayed or her allegiance to the rebel cause. After an old ally offers her a convenient escape to a new life, the decision should be easy. But when the Corps threatens to wipe out everything that matters to her, the only course of action left is the same one she's taken for as long as she can remember—fighting back. What people saying about the Spectras Arise Series "A fast-paced and fun sci-fi space adventure with a great protagonist... starts with a running gun fight and doesn't let up until the explosive conclusion." "Top Notch SciFi Read!" "I'm torn between wanting to savor every exciting moment of this gorgeously written series or binge-read to find out what happens next." Different Seasons Penguin

A generation past, the western realms were embroiled in endless war. Then the Destroyer came. From the blood and ashes he left behind, a tenuous alliance rose between the barbarian riders of Parsathe and the walled kingdoms of the south. That alliance is all that stands against the return of an ancient evil—until the barbarian king and queen are slain in an act of bloody betrayal. Though forbidden by the alliance council to kill the corrupt king responsible for his parents' murders, Maddek vows to avenge them, even if it costs him the Parsathean crown. But when he learns it was the king's daughter who lured his parents to their deaths, the barbarian warrior is determined to make her pay. Yet the woman Maddek captures is not what he expected. Though the last in a line of legendary warrior-queens, Yvenne is small and weak, and the sharpest weapons she wields are her mind and her tongue. Even more surprising is the marriage she proposes to unite them in their goals and to claim their thrones—because her desire for vengeance against her father burns even hotter than his own...

The Sense of an Ending Tammy Salyer

It always happens; you get a fantastic pair of new shoes, and the next thing you know, you and your shoes are sent flying into a dirty gutter thanks to a misstep in front of the city bus. But when you find yourself in the last place you ever expected to wind up—hell—your ruined shoes quickly become the least of your worries.

A Scorpion's Heart: Four Twisted Tales of Love and Lust
 Algonquin Books

Along with its sister dermatologic volume, this comprehensive textbook of laser technology covers the use of lasers in cardiac procedures, control of intraocular pressure, urological procedures, neurological use, dentistry, gynaecology and surgical applications. Chapters are formatted in an easy to follow format with clear concise sections with bulleted summaries to highlight key points. Lasers in Dermatology and Medicine: Dental and Medical Applications provides detailed explanations of when lasers can be of use how to use them across a range of medical disciplines. Clinically relevant examples are provided along with relevant images and summary boxes to highlight key points. It therefore provides a critical resource on the applications and use of lasers across medicine for both the trainee and trained clinician.

Autism Tammy Salyer

Connie Willis has won more Hugo and Nebula awards than any other science fiction author. Now, with her trademark wit and inventiveness, she explores the intimate relationship between science, pop culture, and the arcane secrets of the heart. Sandra Foster studies fads—from Barbie dolls to the grunge look—how they start and what they mean. Bennett O'Reilly is a chaos theorist studying monkey group behavior. They both work for the HiTek corporation, strangers until a misdelivered package brings them together. It's a moment of synchronicity—if not serendipity—which leads them into a chaotic system of their own, complete with a million-dollar research grant, caffè latte, tattoos, and a series of unlucky coincidences that leaves Bennett monkeyless, fundless, and nearly jobless. Sandra intercedes with a flock of sheep and an idea for a joint project. (After all, what better animal to study both chaos theory and the herd mentality that so often characterizes human behavior?) But scientific discovery is rarely straightforward and never simple, and Sandra and Bennett have to endure a series of setbacks, heartbreaks, dead ends, and disasters before they find their ultimate answer. . . . Praise for Bellwether “One of science fiction's best writers.”—The Denver Post “Connie Willis deploys the apparatus of science fiction to illuminate character and relationships, and her writing is fresh, subtle, and deeply moving.”—The New York Times Book Review “Keen social satire touched with genuine humanity . . . Connie Willis's fiction is one of the most intelligent delights of our genre.”—Locus “A sheer pleasure to read . . . Sprightly, intelligent fun.”—Publishers Weekly

Once Upon a Marquess Jones & Bartlett Learning

“Extraordinary...beautifully precise...[an] earnestly ambitious debut.” —The New York Times Book Review “A wild, angry, and devastating masterpiece of a book.” —NPR “[A] descendent of the Dickensian ‘social novel’ by way of Jonathan Franzen: epic fiction that lays bare contemporary culture clashes, showing us who we are and how we got here.” —O, The Oprah Magazine “A book that has stayed with me ever since I put it down.” —Seth Meyers, host of Late Night with Seth Meyers One sweltering night in 2013, four former high school classmates converge on their hometown in northeastern Ohio. There's Bill Ashcraft, a passionate, drug-abusing young activist whose flailing ambitions

have taken him from Cambodia to Zuccotti Park to post-BP New Orleans, and now back home with a mysterious package strapped to the undercarriage of his truck; Stacey Moore, a doctoral candidate reluctantly confronting her family and the mother of her best friend and first love, whose disappearance spurs the mystery at the heart of the novel; Dan Eaton, a shy veteran of three tours in Iraq, home for a dinner date with the high school sweetheart he's tried desperately to forget; and the beautiful, fragile Tina Ross, whose rendezvous with the washed-up captain of the football team triggers the novel's shocking climax. Set over the course of a single evening, Ohio toggles between the perspectives of these unforgettable characters as they unearth dark secrets, revisit old regrets and uncover—and compound—bitter betrayals. Before the evening is through, these narratives converge masterfully to reveal a mystery so dark and shocking it will take your breath away.

The Novel Cure Macmillan

WHEN ALL OTHER OPTIONS RUN OUT, NEVER LET GO OF YOUR GUN. In a few hundred years, the Algol system becomes humanity's new home. The question is: is it a better one? When a crew of arms smugglers botches their latest job, Corps-deserter and crewmember, Aly Erikson, is separated from her brother, the only person she can trust, and left behind to fight for her life. In the aftermath, as she tries to piece together what happened, a crew of roughneck settlers pressgang her into a dangerous mission in the heart of Corps territory. Time is running out to get back everything she's lost... Her crew, her brother, and her options. But no one is taking her gun. Winner of the 2010 Rocky Mountain Fiction Writers Colorado Gold Contest for best action/thriller. Finalist in the Kindle Book Review 2012 Best Indie Book Contest for science fiction/fantasy. \viewkind4\uc1\pard\lang2057\fs20 Sunny Mann has done everything in her power to create a run-of-the-mill life for herself in a quiet Virginian suburb. Her house is elegant, her friends are beautiful, and under her quiet supervision, no one ever goes

without a casserole when a loved one is ill. But a minor fender bender between minivans sends her perfect blonde wig sailing out the window, exposing her true identity and threatening to crack her white picket fence existence wide open. Now, a meteor is coming, the local weatherman has gone mad, a murderous past has returned to life, her mathematical genius of a husband is helping his robots to stage an uprising on the moon, and it's up to Sunny to keep it all together. \par \fs22 \fs20 This gloriously inventive, funny novel is at once an intimate portrait of a very modern American family and a timeless love story. It's about the choices that make us human, the line between life and death, and is a captivating exploration of marriage, motherhood and self.\f1\fs18 \par }

Kucers' The Use of Antibiotics Sixth Edition Tammy Salyer Paris. The name alone conjures images of chestnut-lined boulevards, sidewalk cafés, breathtaking façades around every corner--in short, an exquisite romanticism that has captured the American imagination for as long as there have been Americans. In 1995, Adam Gopnik, his wife, and their infant son left the familiar comforts and hassles of New York City for the urbane glamour of the City of Light. Gopnik is a longtime New Yorker writer, and the magazine has sent its writers to Paris for decades--but his was above all a personal pilgrimage to the place that had for so long been the undisputed capital of everything cultural and beautiful. It was also the opportunity to raise a child who would know what it was to romp in the Luxembourg Gardens, to enjoy a croque monsieur in a Left Bank café--a child (and perhaps a father, too) who would have a grasp of that Parisian sense of style we Americans find so elusive. So, in the grand tradition of the American abroad, Gopnik walked the paths of the Tuileries, enjoyed philosophical discussions at his local bistro, wrote as violet twilight fell on the arrondissements. Of course, as readers of Gopnik's beloved and award-winning "Paris Journals" in *The New Yorker* know, there was also the matter of raising a child and carrying on with day-to-day, not-so-fabled life. Evenings with French intellectuals preceded middle-of-the-night baby feedings; afternoons were filled with trips to the Musée d'Orsay and pinball games; weekday leftovers were eaten while three-star chefs debated a "culinary crisis." As Gopnik describes in this funny and tender book, the dual processes of navigating a foreign city and becoming a parent are not completely dissimilar journeys--both hold new routines, new languages, a new set of rules by which everyday life is lived. With singular wit and insight, Gopnik weaves the magical with the mundane in a wholly delightful, often hilarious look at what it was to be an American family man in Paris at the end of the twentieth century. "We went to Paris for a sentimental reeducation-I did anyway-even though the sentiments we were instructed in were not the ones we were expecting to learn, which I believe is why they call it an education."

Ohio CRC Press

Kucers' The Use of Antibiotics is the definitive, internationally-authored reference, providing everything that the infectious diseases specialist and prescriber needs to know about antimicrobials in this vast and rapidly developing field. The much-expanded Seventh Edition comprises 4800 pages in 3 volumes in order to cover all new and existing therapies, and emerging drugs not yet fully licensed. Concentrating on the treatment of infectious diseases, the content is divided into four sections - antibiotics, anti-fungal drugs, anti-parasitic drugs, and anti-viral drugs - and is highly structured for ease of reference. Each chapter is organized in a consistent format, covering susceptibility, formulations and dosing (adult and pediatric), pharmacokinetics and pharmacodynamics, toxicity, and drug distribution, with detailed discussion regarding clinical uses - a

feature unique to this title. Compiled by an expanded team of internationally renowned and respected editors, with expert contributors representing Europe, Africa, Asia, Australia, South America, the US, and Canada, the Seventh Edition adopts a truly global approach. It remains invaluable for anyone using antimicrobial agents in their clinical practice and provides, in a systematic and concise manner, all the information required when prescribing an antimicrobial to treat infection.

All Involved Tammy Salyer

TRUSTING OTHERS IS YOUR FIRST MISTAKE. If Tech Sergeant Erikson plans to survive another day, she'll have to give up everything: her identity, her rank, her beloved Corps, and most of all, her so-called honor. Haunted by the ghosts of outclassed and outgunned rebels her squad was ordered to eliminate, Erikson struggles to maintain her military bearing--until even that is ripped away in an act of domestic terrorism that sends her on the run on a hostile planet. Her turn to be outclassed and outgunned, under attack from the scavengers who plague the system, and out of options, she and two more Corps survivors must find a way to trust each other or their chances for survival are less than zero. And for one of them, chances can be improved with one simple act: betrayal. In this prequel to the popular Spectras Arise Trilogy, readers get an intimate look into the events that led Aly and David Erikson on their path from decorated and dedicated soldiers to black-market arms smugglers, and ultimately, to rebels against the Political and Capital Administration of the Advanced Worlds. What people saying about the Spectras Arise Series "A fast-paced and fun sci-fi space adventure with a great protagonist... starts with a running gun fight and doesn't let up until the explosive conclusion." "Top Notch SciFi Read!" "I'm torn between wanting to savor every exciting moment of this gorgeously written series or binge-read to find out what happens next." "Thrilling, Roller-Coaster Ride of Military Sci-Fi Adventure" "Contains the kind of action that makes it hard to turn off the light and go to sleep." Other books in the Spectras Arise series Conviction: A Spectras Arise Prequel Novella Contract of Defiance: Spectras Arise Trilogy, Book 1 Contract of Betrayal, Spectras Arise Trilogy, Book 2 Contract of War, Spectras Arise Trilogy, Book 3 The Spectras Arise Series Omnibus, including all four books Fans of the following authors may also enjoy this science fiction series: Aaron Dembski Bowden, Adrian Tchaikovsky, Ann Leckie, Anna Hackett, Anthony J.
