Winner of ABC's award for Distinguished Publication for 2006 This book explores effective written communication across cultures both theoretically and practically. Specifically it conceptualizes cross-cultural genre study and compares English and Chinese business writing collected from Australia, New Zealand and China. It is also one of those inspired by contrastive rhetoric but has contributed innovatively and uniquely by incorporating research findings from genre analysis, in particular, the sociocognitive genre perspective into this cross-cultural study. On the one hand, the endeavor represents an in-depth theoretical exploration by considering not only discourse community and cognitive structuring, but also the deep semantics of genre and intertextuality, while broadening genre study by integrating insights from cross-cultural communication as well as the Chinese perspectives. On the other hand, the book also addresses pragmatic issues. As a particular feature, it solicits professional members' intercultural viewpoints; thus confirming the shared social "stock of knowledge" employed in the culturally defined writing conventions. Last but not least, this book explores the implications for genre education and training, and develops an appropriate model for cross-cultural genre learning, which encourages learning through legitimate peripheral participation and intercultural learning in business organizations.

From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

Part I of this work determines where Paul is dependent on Jewish and Hellenistic exegesis of the Moses story where he provides a fresh interpretation. Part II brings form-critical studies of the Greek papyri to bear on the epistolary function of these verses. Part III investigates first-century homiletic patterns, exegetical techniques and material parallels in order to illuminate the sequence of Paul's thought. At issue in these verses is Paul's apostolic credibility. Paul selectively weaves together text, tradition and haggadah, using accepted methods of text interpretation and a common Jewish homiletical form, to provide his readers with reliable standards of apostolic accreditation and to defend himself against those who sought to discredit him as a failure in reaching his own people.
