Urban Environmental  
Education Review

explores how  
environmental education  
can contribute to urban  
sustainability. Urban  
environmental education  
includes any practices

that create learning opportunities to foster individual and community well-being and environmental quality in cities. It fosters novel educational approaches and helps debunk common assumptions that cities are ecologically barren and that city people don't care for, or need, urban nature or a healthy environment. Topics in Urban Environmental Education Review range from the urban context to theoretical underpinnings, educational settings, participants, and educational approaches in urban environmental education. Chapters integrate research and practice to help aspiring and practicing environmental educators, urban planners, and other environmental leaders achieve their goals in terms of education, youth and community development, and environmental quality in cities. The ten-essay series Urban EE Essays, excerpted from Urban Environmental Education Review, may be found here: [naaee.org/eeepro/resources/urban-ee-essays](http://naaee.org/eeepro/resources/urban-ee-essays). These essays explore various perspectives on urban environmental education

and may be reprinted/reproduced only with permission from Cornell University Press. *The American Diabetes Association/JDRF Type 1 Diabetes Sourcebook* Scholastic UK Here you will find a rich and varied selection of monologues for women, most of which are from plays which were produced and/or published in the 2017-2018 theatrical season. Many are for younger performers (teens through 30s) but there are some excellent pieces for older women as well. The age of the character is indicated in each monologue, but you will find that many may be done by actors of different ages. Some are comic, some dramatic. Some are rather short, some rather long. All represent the best in contemporary playwriting. The monologues include those by Anna Ziegler, Chelsea Marcantel, Joshua James, Lindsey Ferrentino, Tira Palmquist, Clare Lizzimore, Greg Kalleres, Jacqueline Goldfinger, Don Nigro, Clare Barron, Joshua James, Deborah Laufer, Dominique Morisseau, Boni Alvarez, Sandra Daley-Sharif, Julie Myatt, Molly Metzler, Aaron Posner, Tanya

A thrilling new novel from #1 New York Times bestselling author Lisa See explores the lives of a Chinese mother and her daughter who has been adopted by an American couple. Li-yan and her family align their lives around the seasons and the farming of tea. There is ritual and routine, and it has been ever thus for generations. Then one day a jeep appears at the village gate—the first automobile any of them have seen—and a stranger arrives. In this remote Yunnan village, the stranger finds the rare tea he has been seeking and a reticent Akha people. In her biggest seller, *Snow Flower and the Secret Fan*, Lisa See introduced the Yao people to her readers. Here she shares the customs of another Chinese ethnic minority, the Akha, whose world will soon change. Li-yan, one of the few educated girls on her mountain, translates for

the stranger and is among the first to reject the rules that have shaped her existence. When she has a baby outside of wedlock, rather than stand by tradition, she wraps her daughter in a blanket, with a tea cake hidden in her swaddling, and abandons her in the nearest city. After mother and daughter have gone their separate ways, Li-yan slowly emerges from the security and insularity of her village to encounter modern life while Haley grows up a privileged and well-loved California girl. Despite Haley's happy home life, she wonders about her origins; and Li-yan longs for her lost daughter. They both search for and find answers in the tea that has shaped their family's destiny for generations. A powerful story about a family, separated by circumstances, culture, and distance, *Tea Girl of Hummingbird Lane* paints an unforgettable portrait of a little known region and its people and celebrates the bond that connects mothers and daughters.

"A book that should be read . . . Smith brings an alchemic talent to describing physical labor." —The New York Times Book Review "Beautiful, funny, and harrowing." — Sarah Smarsh, The Atlantic "Remarkable . . . this is the book that

Hillbilly Elegy should have been." —Kirkus Reviews A vivid window into the world of working class men set during the Bakken fracking boom in North Dakota Like thousands of restless men left unmoored in the wake of the 2008 economic crash, Michael Patrick Smith arrived in the fracking boomtown of Williston, North Dakota five years later homeless, unemployed, and desperate for a job. Renting a mattress on a dirty flophouse floor, he slept boot to beard with migrant men who came from all across America and as far away as Jamaica, Africa and the Philippines. They ate together, drank together, argued like crows and searched for jobs they couldn't get back home. Smith's goal was to find the hardest work he could do--to find out if he could do it. He hired on in the oil patch where he toiled fourteen hour shifts from summer's 100 degree dog days to deep into winter's bracing whiteouts, all the while wrestling with the demons of a turbulent past, his broken relationships with women, and the haunted memories of a family riven by violence. The Good Hand is a saga of

fear, danger, exhaustion, suffering, loneliness, and grit that explores the struggles of America's marginalized boomtown workers—the rough-hewn, castoff, seemingly disposable men who do an indispensable job that few would exalt: oil field hands who, in the age of climate change, put the gas in our tanks and the food in our homes. Smith, who had pursued theater and played guitar in New York, observes this world with a critical eye; yet he comes to love his coworkers, forming close bonds with Huck, a goofy giant of a young man whose lead foot and quick fists get him into trouble with the law, and The Wildebeest, a foul-mouthed, dip-spitting truck driver who torments him but also trains him up, and helps Smith "make a hand." The Good Hand is ultimately a book about transformation--a classic American story of one man's attempt to burn himself clean through hard work, to reconcile himself to himself, to find community, and to become whole. *Consumer Math* Jones & Bartlett Publishers The American Diabetes Association/JDRF Type 1 Diabetes Sourcebook

serves as both an evidence-based reference work and consensus report outlining the most critical components of care for individuals with type 1 diabetes throughout their lifespan. The volume serves not only as a comprehensive guide for clinicians, but also reviews the evidence supporting these components of care and provides a perspective on the critical areas of research that are needed to improve our understanding of type 1 diabetes diagnosis and treatment. The volume focuses specifically on the needs of patients with type 1 diabetes and provides clear and detailed guidance on the current standards for the optimal treatment of type 1 diabetes from early childhood to later life. To accomplish the book's editorial goals, Editors-in-Chief, Drs. Anne Peters and Lori Laffel, assembled an editorial steering committee of prominent research physicians, clinicians, and educators to develop the topical coverage. In addition, a Managing Editor was brought on to help the authors write and focus their chapters.

Createspace Independent Publishing Platform Students and the public routinely consult various published college rankings to assess the quality of colleges and universities and easily compare different schools. However, many institutions have responded to the rankings in ways that benefit neither the schools nor their students. In *Engines of Anxiety*, sociologists Wendy Espeland and Michael Sauder delve deep into the mechanisms of law school rankings, which have become a top priority within legal education. Based on a wealth of observational data and over 200 in-depth interviews with law students, university deans, and other administrators, they show how the scramble for high rankings has affected the missions and practices of many law schools. *Engines of Anxiety* tracks how rankings, such as those published annually by the U.S. News & World Report, permeate every aspect of legal education, beginning with the admissions process. The authors find that prospective law students not only rely heavily on such rankings to evaluate school quality, but also

internalize rankings as expressions of their own abilities and flaws. For example, they often view rejections from "first-tier" schools as a sign of personal failure. The rankings also affect the decisions of admissions officers, who try to balance admitting diverse classes with preserving the school's ranking, which is dependent on factors such as the median LSAT score of the entering class. Espeland and Sauder find that law schools face pressure to admit applicants with high test scores over lower-scoring candidates who possess other favorable credentials. *Engines of Anxiety* also reveals how rankings have influenced law schools' career service departments. Because graduates' job placements play a major role in the rankings, many institutions have shifted their career-services resources toward tracking placements, and away from counseling and network-building. In turn, law firms regularly use school rankings to recruit and screen job candidates, perpetuating a cycle in which highly ranked schools enjoy increasing prestige. As a result, the rankings create and reinforce a rigid

hierarchy that penalizes lower-tier schools that do not conform to the restrictive standards used in the rankings. The authors show that as law schools compete to improve their rankings, their programs become more homogenized and less accessible to non-traditional students. The ranking system is considered a valuable resource for learning about more than 200 law schools. Yet, *Engines of Anxiety* shows that the drive to increase a school's rankings has negative consequences for students, educators, and administrators and has implications for all educational programs that are quantified in similar ways.

How can we respond urgently and effectively to the ecological crisis—and stay sane doing it? This landmark work is simultaneously a manifesto, a blueprint, a call to action, and a deep comfort for troubling times. David R. Loy masterfully lays out the principles and perspectives of Ecodharma—a Buddhist response to our ecological predicament, introducing a new term for a new development of the Buddhist tradition. This book emphasizes the three aspects of Ecodharma: practicing in the natural world, exploring the ecological implications of Buddhist teachings, and embodying that understanding in the eco-activism that is needed today. Within these pages, you'll discover the powerful ways Buddhism can inspire us to heal the world we share. Offering a compelling framework and practical spiritual resources, Loy outlines the Ecosattva Path, a path of liberation and salvation

for all beings and the world itself.

With eight short stories and a novella that travel from dusty city streets to humid beaches, Cristina Henríquez carves out a distinctive and

unforgettable vision of contemporary Panama. The stories of *Come Together, Fall Apart* combine to create a seamless fictional world in which the varied landscapes and shifting culture of a country in transition—and the insistent voices of its young people—are vividly represented. In “Yanina,” a young man’s fidelity is tested when a new living situation strains his relationship with his girlfriend. For the young woman in “Ashes,” the very notion of fidelity is shattered—and her lover’s philandering is only one link in a chain of traumatic events that begins with her mother’s death. In “Mercury,” an American girl visits her grandparents in Panama while her parents divorce at home, and attempts to connect with her ailing grandfather in broken Spanish that he’ll never understand. Again and again, characters find their fates irrevocably tied to those of their families—in “Beautiful,” as fortunes rise; and in “Come Together, Fall Apart,” as they collapse. These are stories of family bonds and generational conflicts, youthful infatuation and genuine passion that are tender,

ambitious, and unflinching, from a bold and original young writer who is not only an accomplished prose stylist but also an irresistible storyteller.

What if Adam and Eve Had a Diary? “He talks very little. Perhaps it is because he is not bright and is sensitive about it and wishes to conceal it. It is such a pity that he should feel so, for brightness is nothing. It is in the heart that the values lie. I wish I could make him understand that a loving good heart is riches, and riches is enough, and that without it intellect is poverty.” - Mark Twain, *Eve's Diary*

Mark Twain’s short stories aren’t about his religious beliefs. In fact, the Diaries of Adam and Eve should be taken with a grain of salt as they are humorous and witty and describe in a unique way the relationship between two human beings, man and woman who eventually end up falling in love with each other. Despite the possibilities, however, Foucault's approach has raised serious questions about an equally crucial area of feminist thought - politics. Some feminist critics of Foucault have argued that his deconstruction of the concept "woman" also deconstructs the possibility of a feminist politics. Several essays explore the implications of this deconstruction for feminist politics and suggest that a Foucauldian feminist politics is not viable.
