Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany's* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories* Truman Capote's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the “new journalism.” Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. “I thought he was a very nice gentleman,” he says of Herb Clutter. “Soft-spoken. I thought so right up to the moment I cut his throat.” Told in chapters that alternate between the

clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers' flight, Capote's account is so detailed that the reader comes to feel almost like a participant in the events.

Why are prominent doctors, quantum physicists, and researchers all over the world interested in the seemingly chance encounter that Dr. Eric Pearl had with one of his patients? What was it about that encounter that would not only radically accelerate the trajectory of his life, but ultimately affect the lives of millions . . . and will most likely profoundly affect your life as well? What is this phenomenon? In his international bestseller, *The Reconnection: Heal Others, Heal Yourself*, Dr. Pearl taught readers how to access and tap into a comprehensive spectrum of energy, light, and information previously inaccessible to anyone, anywhere. In doing so, he allowed us to entirely transcend complex energy-healing "techniques" and bring about dramatic, often instantaneous, lifelong healings and life transformations! Since then, the world has clamored for Eric's second book. His response? When I have something else to say. Today Dr. Pearl, in collaboration with Frederick Ponzlov, indeed has something else to say. You might have to reconsider everything you've read up until now about healing, consciousness, and our four-dimensional existence here on Earth. As guided by the spirit of Solomon, an extradimensional intelligence that speaks through Frederick, experience firsthand the insights imparted during the evolution of this unique transmodality known today as Reconnective Healing. Now you can discover these insights and apply them to your life—insights that have revolutionized the healing world and given us the key to access the immense power that we each have within our lives. Solomon speaks. . . .

The progressive growth in the number of older adults worldwide has led to a modification of the current healthcare scenario and a parallel increase in the use of public resources. In this book, we propose a conceptual framework within which aging, frailty, and care are analyzed through the lens of complexity medicine. Therefore, we present a multidimensional perspective that takes into account biomedical, (neuro)psychological, and socio-ecological vulnerability. The theses presented are the result of an inductive approach, based on many years of experience in the field, which has made it possible to identify strategies for frailty recognition and effective responses even in complicated clinical settings. The book is intended to be a tool of concrete and easy consultation, rich in reflections and suggestions.

In *The Sword and the Pen: Women, Politics, and Poetry in Sixteenth-Century Siena*, Konrad Eisenbichler analyzes the work of Sienese women poets, in particular, Aurelia Petrucci, Laudomia Forteguerra, and Virginia Salvi, during the first half of the sixteenth century up to the fall of Siena in 1555. Eisenbichler sets forth a complex and original interpretation of the experiences of these three educated noblewomen and their contributions to contemporary culture in Siena by looking at the emergence of a new lyric tradition and the sonnets they exchanged among themselves and with their male contemporaries. Through the analysis of their poems and various book dedications to them, Eisenbichler reveals the intersection of poetry, politics, and sexuality, as well as the gendered dialogue that characterized Siena's literary environment during the late Renaissance. Eisenbichler also examines other little-known women poets and their relationship to the cultural environment of Siena, underlining the exceptional role of the city of Siena as the most important center of women's writing in the first half of the sixteenth century in Italy, and probably in all of Europe. This innovative contribution to the field of late Renaissance and early modern Italian and women's studies rescues from near oblivion a group of literate women who were celebrated by contemporary scholars but who have been largely ignored today, both because of a dearth of biographical information about them and because of a narrow evaluation of their poetry. Eisenbichler's analysis and reproduction of many of their poems in Italian and modern English translation are an invaluable contribution not only to Italian cultural studies but also to women's studies.

"Perhaps our real work, whether offering or seeking care, is to recognize that the healing relationship--the field upon which patient and practitioner meet--is, to use the words of the mythologist Joseph Campbell, a 'self-mirroring mystery'--the embodiment of a singular human activity that raises

essential questions about self, other, and what it means to heal thy self." --Saki Santorelli Today we are experiencing extraordinary technological advances in the diagnosis and treatment of illness while at the same time learning to take more responsibility for our own health and well-being. In this book, Saki Santorelli, director of the nationally acclaimed Stress Reduction Clinic, explores the ancient roots of medicine, and shows us how to introduce mindfulness into the crucible of the healing relationship, so that both patients and caregivers begin to acknowledge that we are all wounded and we are all whole. His approach revolutionizes the dynamics of the patient/practitioner relationship. In describing the classes at the clinic and the transformation that takes place in this alchemical process, he offers insights and effective methods for cultivating mindfulness in our everyday lives. As he reveals the inner landscape of his own life as a health care professional and we join him and those with whom he works on this journey of human suffering and courage, we become aware of and honor what is darkest and brightest within each one of us.
