Training for Speed, Agility, and Quickness, 3E Springer Science & Business Media

Selma Blair has played many roles: Ingenue in *Cruel Intentions*. Preppy ice queen in *Legally Blonde*. Muse to Karl Lagerfeld. Advocate for the multiple sclerosis community. But before all of that, Selma was known best as ... a mean baby. In a memoir that is as wildly funny as it is emotionally shattering, Blair tells the captivating story of growing up and finding her truth. "Blair is a rebel, an artist, and it turns out: a writer."—Glennon Doyle, Author of the #1 New York Times Bestseller *Untamed* and Founder of Together Rising

The first story Selma Blair Beitner ever heard about herself is that she was a mean, mean baby. With her mouth pulled in a perpetual snarl and a head so furry it had to be rubbed to make way for her forehead, Selma spent years living up to her terrible reputation: biting her sisters, lying spontaneously, getting drunk from Passover wine at the age of seven, and behaving dramatically so that she would be the center of attention. Although Selma went on to become a celebrated Hollywood actress and model, she could never quite shake the periods of darkness that overtook her, the certainty that there was a great mystery at the heart of her life. She often felt like her arms might be on fire, a sensation not unlike electric shocks, and she secretly drank to escape. Over the course of this beautiful and, at times, devastating memoir, Selma lays bare her addiction to alcohol, her devotion to her brilliant and complicated mother, and the moments she flirted with death. There is

brutal violence, passionate love, true friendship, the gift of motherhood, and, finally, the surprising salvation of a multiple sclerosis diagnosis. In a voice that is powerfully original, fiercely intelligent, and full of hard-won wisdom, Selma Blair's *Mean Baby* is a deeply human memoir and a true literary achievement.

The Phantom Atlas Routledge

Boys' Life is the official youth magazine for the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics, and Scouting.

The Book of Tea Rowman & Littlefield Publishers

Essays, discussions, and image portfolios map the evolution of art forms engaged with the Internet. Since the turn of the millennium, the Internet has evolved from what was merely a new medium to a true mass medium—with a deeper and wider cultural reach, greater opportunities for distribution and collaboration, and more complex corporate and political realities. Mapping a loosely chronological series of formative arguments, developments, and happenings, *Mass Effect* provides an essential guide to understanding the dynamic and ongoing relationship between art and new technologies. *Mass Effect* brings together nearly forty contributions, including newly commissioned essays and reprints, image portfolios, and transcribed discussion panels and lectures that offer insights and reflections from a wide range of artists, curators, art historians, and bloggers. Among the topics examined are the use of commercial platforms for art practice, what art means in an age of increasing surveillance, and questions surrounding such recent concepts as "postinternet."

Other contributions analyze and document particular works by the artists of And/Or Gallery, Cory Arcangel, DIS, Cao Fei, the Radical Software Group, and others. Mass Effect relaunches a publication series initiated by the MIT Press and the New Museum in 1984, which produced six defining volumes for the field of contemporary art. These new volumes will build on this historic partnership and reinvigorate the conversation around contemporary culture once again. Copublished with the New Museum of Contemporary Art, New York Important Notice: The digital edition of this book is missing some of the images found in the physical edition. Nutrition and Enhanced Sports Performance Grand Central Publishing The New York Times bestseller, written

by a former reporter for ABC News, that People magazine called “a transporting, enlightening book” tells the story of a fearless young entrepreneur who brought hope to the lives of dozens of women in war-torn Afghanistan Former ABC journalist Gayle Tzemach Lemmon tells the riveting true story of Kamila Sidiqi and other women of Afghanistan in the wake of the Taliban’s fearful rise to power. In what Greg Mortenson, author of Three Cups of Tea, calls “one of the most inspiring books I have ever read,” Lemmon recounts with novelistic vividness the true story of a fearless young woman who not only reinvented herself as an entrepreneur to save her family but, in the face of ferocious opposition, brought hope to the lives of dozens of women in war-torn Kabul.

The Awakening of Japan Springer Seki was a Japanese mathematician in the seventeenth century known for his outstanding achievements, including the elimination theory of systems of algebraic equations, which preceded the works of Étienne Bézout and Leonhard Euler by 80 years. Seki was a contemporary of Isaac Newton and Gottfried Wilhelm Leibniz, although there was apparently no direct interaction between them. The Mathematical Society of Japan and the History of Mathematics Society of Japan hosted the International Conference on History of Mathematics in Commemoration of the 300th Posthumous Anniversary of Seki in 2008. This book is the official record of the conference and includes supplements of collated texts of Seki's original writings with notes in English on these texts. Hikosaburo Komatsu (Professor emeritus, The University of Tokyo), one of the editors, is known for partial differential equations and hyperfunction theory, and for his study

on the history of Japanese mathematics. He served as the President of the International Congress of Mathematicians Kyoto 1990.

Through popular movies starring Bruce Lee and songs like the disco hit "Kung Fu Fighting," martial arts have found a central place in the Western cultural imagination. But what would 'martial arts' be without the explosion of media texts and images that brought it to a wide audience in the late 1960s and early 1970s? In this examination of the media history of what we now call martial arts, author Paul Bowman makes the bold case that the phenomenon of martial arts is chiefly an invention of media representations. Rather than passively taking up a preexisting history of martial arts practices--some of which, of course, predated the martial arts boom in popular culture--media images and narratives actively constructed martial arts. Grounded in a historical survey of the British media history of martial arts such as Bartitsu, jujutsu, judo, karate, tai chi, and MMA across a range of media, this book thoroughly recasts our understanding of the history of martial arts. By interweaving theories of key thinkers on historiography, such as Foucault and Hobsbawm, and Said's ideas on Orientalism with analyses of both mainstream and marginal media texts, Bowman arrives at the surprising insight that media representations created martial arts rather than the other way around. In this way, he not only deepens our understanding of martial arts but also demonstrates the productive power of media discourses.

Buyology MIT Press

Regarded as one of the most skilled humor writers ever to write in English,

Sir Pelham Grenville Wodehouse's works of fiction usually pillory the British upper classes that represented the social milieu into which he was born. In *The Adventures of Sally*, Wodehouse turned his attention to a young American heiress whose sudden wealth brings with it an array of unforeseen problems.

The Adventures of Sally Disruptions

NEW YORK TIMES BESTSELLER • "A

fascinating look at how consumers perceive logos, ads, commercials, brands, and products."—Time How much do we know about why we buy? What truly influences our decisions in today's message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy.

Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can "cool" brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? *Buyology* is a fascinating and shocking journey into the mind of today's consumer that will captivate anyone who's been seduced—or turned off—by marketers' relentless attempts to win our loyalty, our money, and our minds.

Dim Stars Crown Currency

"Fightnomics quantifies the underlying drivers of the world's most exciting and fastest growing sport through deep analysis of Mixed Martial Arts (MMA)

competition. Part Freakonomics and part Moneyball, Fightnomics is a statistical spotlight on the Ultimate Fighting Championship (UFC) and the fighters who compete in the Octagon. Does size matter? Is the Southpaw Advantage real for MMA? Is it better to be young or experienced in a fight? How is the UFC Tale of the Tape lying to us? What makes a strike significant? What about Ring Rust, Octagon Jitters, or the Home Cage Advantage? Just how accurate are betting odds? Theories about how MMA works get put to the test with a little bit of science, and a whole lot of numbers. Fightnomics is the deepest and most complete analysis to date of historical UFC data that answers common, yet hotly debated questions about the sport. The fight game will never quite look the same once you've learned what really matters in a cage fight, and even a few surprising things that don't"--Publisher's description.

Jiu-Jitsu and Self Defense Human Kinetics

The Book of Tea is a brief but classic essay on tea drinking, its history, restorative powers, and rich connection to Japanese culture. Okakura felt that "Teaism" was at the very center of Japanese life and helped shape everything from art, aesthetics, and an appreciation for the ephemeral to architecture, design, gardens, and painting. In tea could be found one source of what Okakura felt was Japan's and, by extension, Asia's unique power to influence the world. Containing both a history of tea in Japan and lucid, wide-ranging comments on the schools of tea, Zen, Taoism, flower arranging, and the tea ceremony and its tea-masters, this book is deservedly a timeless classic and will be of interest to anyone interested in the Japanese arts and ways. Book jacket.

Boys' Life Simon and Schuster

A ferocious novel, Caged Warrior is like a great fight movie, a tour-de-force of relentless conflict, but one that is leavened with rich characters and meaningful and loving relationships. McCutcheon Daniels' life is full of bone-cracking violence. As a star fighter in the gritty underground Mixed Martial Arts circuit in the poorest section of Detroit, McCutcheon fights under the tutelage of his volatile and violent father, not so much for himself but to survive as protector of his beloved five-year old sister, Gemma. As McCutcheon battles opponents who are literally trying to kill him, he struggles to find a way to protect her and himself. Along the way, he decides to trust a teacher who has taken an interest in him and begins to redirect the path his life is taking. Until he discovers the truth about his mother who seemingly disappeared on his thirteenth birthday.

Martial Arts Studies Harper Collins

In this ground-breaking study of the complex relationship between war, gender, and citizenship in Great Britain during World War I, Nicoletta Gullace shows how the assault on civilian masculinity led directly to women's suffrage. Through recruiting activities such as handing out white feathers to reputed 'cowards' and offering petticoats to unenlisted 'shirkers', female war enthusiasts drew national attention to the fact that manhood alone was an inadequate marker of civic responsibility. Proclaiming women's exemplary service to the nation, feminist organizations tapped into a public culture that celebrated military service while denigrating those who opposed the war. Drawing on the vast range of popular and official sources, Gullace reveals that the war had revolutionary implications

for women who wished to vote and for men who were expected to fight.

Fightnomics Little, Brown Books for Young Readers
Philosopher, entrepreneur, and former National Geographic and New York Times correspondent Zoltan Istvan presents his visionary novel, *The Transhumanist Wager*, as a seminal statement of our times. Scorned by over 500 publishers and literary agents around the world, his philosophical thriller has been called "revolutionary" and "socially dangerous" by readers, scholars, and religious authorities. The novel debuts a challenging original philosophy, which rebuffs modern civilization by inviting the end of the human species-and declaring the onset of something greater. Set in the present day, the novel tells the story of transhumanist Jethro Knights and his unwavering quest for immortality via science and technology. Fighting against him are fanatical religious groups, economically depressed governments, and mystic Zoe Bach: a dazzling trauma surgeon and the love of his life, whose belief in spirituality and the afterlife is absolute. Exiled from America and reeling from personal tragedy, Knights forges a new nation of willing scientists on the world's largest seasteading project, Transhumania. When the world declares war against the floating city, demanding an end to its renegade and godless transhuman experiments and ambitions, Knights strikes back, leaving the planet forever changed.

Discover the mysteries within ancient maps — Where exploration and mythology meet This richly illustrated book collects and explores the colorful histories behind a striking range of real antique maps that are all in some way a little too good to be true. Mysteries within ancient maps: *The Phantom Atlas* is a guide to the world not as it is, but as it was imagined to be. It's a world of ghost islands, invisible mountain ranges, mythical civilizations, ship-wrecking beasts, and other fictitious features introduced on maps and atlases through mistakes, misunderstanding, fantasies, and outright lies. Where exploration and mythology meet: Author Edward Brooke-Hitching is a map collector, author, writer for the popular BBC Television program *QI* and a Fellow of the Royal Geographical Society. He lives in a dusty heap of old maps and books in London investigating the places where exploration and mythology meet.

Cartography's greatest phantoms: The Phantom Atlas uses gorgeous atlas images as springboards for tales of deranged buccaneers, seafaring monks, heroes, swindlers, and other amazing stories behind cartography's greatest phantoms. If you are a fan of this popular genre and a reader of books such as *Prisoners of Geography*, *Atlas of Ancient Rome*, *Atlas Obscura*, *What If*, *Book of General Ignorance*, or *Thing Explainer*, you will love *The Phantom Atlas*

Angel Crawford is a loser. Living with her alcoholic deadbeat dad in the swamps of southern Louisiana, she's a high school dropout with a pill habit and a criminal record who's been fired from more crap jobs than she can count. Now on probation for a felony, it seems that Angel will never pull herself out of the

downward spiral her life has taken. That is, until the day she wakes up in the ER after overdosing on painkillers. Angel remembers being in an horrible car crash, but she doesn't have a mark on her. To add to the weirdness, she receives an anonymous letter telling her there's a job waiting for her at the parish morgue--and that it's an offer she doesn't dare refuse. Before she knows it she's dealing with a huge crush on a certain hunky deputy and a brand new addiction: an overpowering craving for brains. Plus, her morgue is filling up with the victims of a serial killer who decapitates his prey--just when she's hungriest! Angel's going to have to grow up fast if she wants to keep this job and stay in one piece. Because if she doesn't, she's dead meat. Literally.
