Age 4+. Help your

preschooler know about

various lines and strokes (straight, slanted, U-shaped etc.) through this wipe and clean activity book. Children will have fun as they trace various kinds of patterns on cute illustrations as they learn how to trace within a fixed space. The book comes with pages that can be written upon and cleaned, so that the children can repeat and have fun as many times as they want.

Preschool Math Gryphon House, Inc.

The author seeks to take the reader on a slow roller coaster ride down

memory lane, halting en route at the stations of childhood, youth and adulthood. He makes the reader visit the mind of an impressionable child who can be distraught over a trivial looking matter, a youth stuck in a demanding situation, a doctor's doubts and redemption, a distressed parent, a responsible citizen and so on, all in different stories. He shares his thoughts over various issues very subtly and invites the readers to search their minds for their own stance on the

same. He reminisces about a gifted classmate, muses over life, shares his misadventure as a child and then some more. He has tried to put different colors from his palette on different canvasses in a collection which promises to keep you interested through delicate twists and the occasional surprise.

If a hungry little traveler shows up at your house, you might want to give him a cookie. If you give him a cookie, he's going to ask for a glass of milk. He'll want to look in a mirror to make sure he doesn't have a milk mustache, and then he'll ask for a pair of scissors to give himself a trim.... The consequences of giving a cookie to this energetic mouse run the young host ragged, but young readers will come away smiling at the antics that tumble like dominoes through the pages of this

delightful picture book.
